GROVE DEDICATION AND TIME CAPSULE BURIAL

John Ohman, Kermit Kiebert and Roger Reynolds

HISTORY OF GROVE PROJECT AND TIME CAPSULE

The University of Idaho, as part of the school's centennial celebration, is planting a grove of trees in every Idaho county. The trees have been donated by the University's forestry department. The transportation complex was selected because of its many University of Idaho graduates and its strong support of higher education.

Another will be buried among the grove of trees. One will remain buried for 25 years and the other will lie for 100 years. The time capsules contain pictures, publications and other items that represent today's transportation department.

Balancing budget at pump is bad id

Raising the federal gasoline tax to reduce the budget deficit would be regressive, inflationary and harmful to the nation as a whole, according to a study conducted by the American Automobile Association.

Congress is considering raising the existing nine-cent federal excise tax on gasoline by 10 to 30 cents per gallon. Unlike current gas tax revenue which is earmarked for the federal highway trust fund, these new taxes would raise revenue for the general fund. The study found that:

1. The American people are against the tax. According to a 1987 Washington Post-ABC News Poll, 73 percent disapprove of raising taxes on gasoline to balance the federal budget. This was confirmed by a 1987 Newsweek Poll which found that 77 percent of Americans oppose a to gallon gasoline-

gasoline tax would reduce the GNP by nearly $10 billion, lower auto production by 1.3 percent and reduce employment by 80,000 in its first year and by 180,000 in three years.

3. The poor would be hurt because excise taxes are highly regressive and because they often drive older, less efficient vehicles. It is difficult to believe that many members of Congress want to hit the working poor with a large new tax burden so soon after approving a tax reform law that was touted as removing them entirely from the federal tax roll.

4. Regional inequities would be created. Why should a resident of Idaho pay more than twice a resident of the

A 30-cent fed gasoline tax would:

- Put 225,000 per work in the U
- Put 525,000 c by 1990.
- Cut income by nearly $ annually

Keys to Future Success for IDAHY and its Members

1. PARTICIPATION. Idahy's members have always donated valuable time for the benefit of their fellow employees. By utilizing volunteers as the backbone of the credit union, Idahy not only is able to hold down expenses, but also carry on a tradition long found in credit unions.

2. COMMUNICATIONS. Unique to Idahy is the ability of members to communicate their desires to management on a daily basis. The "open door" policy of all Idahy personnel invites suggestions and comments from members. Idahy members truly have input to their credit union's operations. Idahy needs and appreciates your valuable opinions.

3. THE SAVINGS / BORROWING CONNECTION. Idahy relies solely on members' deposits to provide funds for other members to borrow. The chain of events which creates a successful credit union are as follows: Those members who save at Idahy create funds for other members to borrow. The more savings means more borrowing. More borrowing means increased earnings. Greater borrowings mean a higher return to savers and borrowers. Higher returns invites more members to save and borrow at Idahy. Thus, a strong cooperative is formed.

4. FULL SERVICE. Idahy is tuned in to the needs of consumers. Idahy started out many years ago as a "desk drawer" credit union and is now a growing service organization in the top 10% of all credit unions. In the past Idahy has offered those services members most often requested. The same will be true in the future. Idahy listens, then produces.

IDAHY is directed by volunteers elected from our field of membership. Your fellow employees serve on the Board of Directors and various committees to provide members with quality service. Any member is welcome to join the Idahy "team" by volunteering his/her time and knowledge for the good of all. The Board hires a full-time staff for everyday operations. This unique combination of volunteers and professional staff is how Idahy holds down costs and returns more profits to our members.

IDAHY encourages all employees to join our Credit Union "family." Many benefits of membership are available. Whether you have opened an account today or have been a member for years, joining is easy when you stop by the Credit Union office. A phone call to the Credit Union or your District Representative also can start the membership process quickly. Remember, Idahy is here to serve ALL employees.

IDAHY members take pride in their Credit Union. They know it is the only place they have input to its operations. Members can volunteer to serve the Credit Union or simply attend the annual meeting of this membership bond among members. Our unique common membership allows the Credit Union to best serve our members. That's why we say . . .

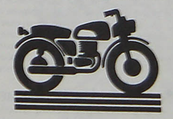
Ginny Tyl, EEO Safety/Training Coordinator

IDAHY provides consumer loans for many members for many purposes. But many financial institutions offer loans. What makes Idahy so much better? Read on to find the answers . . .

1. MEMBERSHIP in Idahy makes you special. Your "ownership" of Idahy means being helped quickly, efficiently, and fairly. This does not mean all members' requests are granted, but it does mean you will receive individual attention from our Credit Committee, Loan Officers, or District Credit Representatives.



2. LOW-COST LOANS . . . are always available to members in good standing. Low-cost loans featuring easy to read loan documents are our specialty. After shopping around for credit (always a good idea), your results will show you Idahy rates are tough to beat.

3. INTEREST REFUNDS . . . are Idahy's way of saying "thanks" to our borrowers. Idahy not only pays savers for saving, but also borrowers for borrowing. An interest refund is simply a refund of some of the money you paid Idahy in interest on your loan. Idahy has an outstanding record in returning interest when excess funds are available.

4. LIFE INSURANCE is also available on loans at no cost to eligible borrowers. Simply stated, Idahy provides up to $10,000 of free life insurance on loans to our members. Stop by our office for your copy of the plan explaining its benefits and restrictions.

Each member account insured up to $100,000
NCUA
by Administrator, National Credit Union Administration

4. INDIVIDUAL RETIREMENT ACCOUNTS are unique savings plans which allow members to save for retirement at high earnings with the benefits of income tax deferments.

5. SHARE CERTIFICATES are offered to those savers who require higher dividends than those paid on regular share accounts. By promising to keep a minimum deposit at Idahy for six months, twelve months, or longer, members can earn "market rate" dividends with insured safety.

6. LIFE INSURANCE is made available to eligible savers at no cost. Yes, that's right. By saving at Idahy, you and your family members can receive a free life insurance policy equal to the balance of your shares account (to a maximum $2,000). Deposits made after age 54 vary in the amount of coverage so we encourage all members to pick up their own copy of the insurance certificate describing coverages.

7. QUARTERLY STATEMENTS are mailed to all members describing activity on your account for the previous three months. By retaining these statements, members not only have a valuable record for income tax purposes, but also a complete history of their savings growth.

8. FAMILY MEMBER ACCOUNTS are welcomed and encouraged at Idahy. Regardless of age, your family members can benefit from an Idahy membership today and in the future.
