

I-84 Repaving Nampa to Caldwell

Summer 2017

The Idaho Transportation Department will repave Interstate 84 from the Franklin Boulevard Interchange in Nampa to the Franklin Road Interchange in Caldwell this summer.

What to expect during the construction

ITD has developed a unique weekend crossover approach to lessen the impact of construction on commuters who use I-84 on a daily basis. During four weekends this summer, ITD will shift all I-84 traffic to one side of the interstate and will maintain one lane of traffic in each direction.

- Weekend directional crossovers will be from 7 p.m. Friday evening to 5 a.m. Monday.
- There will be occasional on- and off-ramp closures and the speed limit will be reduced.
- Lanes will be restricted at night from Monday to Thursday.
- ITD will announce weekend dates in advance.

The best alternate route is to avoid I-84 during weekend work.

The Idaho Transportation Board has approved funding to add lanes on I-84 between Franklin Boulevard and Karcher Road in Nampa. ITD staff have completed initial planning and the environmental assessment. Design work is expected to begin this year. At this time it is too early to know when construction will begin.

Your safety.
Your mobility.
Your economic opportunity.
