Attn: Ned Conroy

SUBJECT: FY 2016 – 2020 STIP AMENDMENT – October 11, 2016 # H12

Dear Mr. Hartman:

The attached 47 projects are all new to the STIP and were included in the FY 2017 – 2021 Recommended Program approved by the Idaho Transportation Board at their September 22, 2016 meeting. These projects have either preliminary engineering or construction costs scheduled in FY 2017 and are outside of the MPO areas.

The Department requests that the addition of these projects be amended to the FY 2016 – 2020 STIP so that funds may be obligated as planned. The full FY 2017 – 2020 STIP will be submitted to FHWA/FTA early November.

No further public involvement or air quality conformity analysis is required. The Idaho Transportation Department certifies that the above actions meet all applicable requirements as described in 23 CFR 450.218 of *Planning Assistance and Standards*. The STIP continues to be consistent with *Idaho On the Move*; the Long Range Plan as approved by the Idaho Transportation Board in 2010.

Sincerely,

A handwritten signature in cursive script that reads "Joel P. Drake".

Attn: Charlene McArthur, Chief Administration Officer

RE: 2016 STIP Amendment #H12

Dear Mr. Ness:

This approval provides for the addition of forty seven (47) projects to the FY-17 element of the currently approved FY 2016-2019 STIP as detailed in ITD's October 11, 2016 letter request.

FHWA has determined that:

1. The change to the program is not intermodal in nature and will not affect the State's conformity process and, therefore, FHWA has sole approval authority.
2. No further public involvement is necessary for this action.
3. The proposed amendment is based on a planning process that substantially meets the requirements of Title 23, U.S.C., the Federal Transit Act and 23 CFR 450.

In consideration of the above, STIP Amendment #H12 is approved as requested.

Sincerely,

R. Scott Frey
Transportation Engineer
