The Northwest Passage Corridor encompasses the states along Interstate 90 and 94 from Wisconsin to Washington, including a portion through northern Idaho. The purpose of the pooled fund is to influence ongoing standards development and utilize effective methods for sharing, coordinating, and integrating traveler information across state borders. Improving coordination of traveler information is the initial focus, while coordinated maintenance, operations, planning and programming are long-term visions.

The Clear Roads Pooled Fund Program is a collaborative effort by ITD and 28 other States to share costs for winter maintenance research. By evaluating materials, equipment and methods in real-world conditions, the program identifies the most effective techniques and technologies to save agencies money, improve safety and increase efficiency.

This project will fund the continued developments to the Idaho traveler information websites and telephone system. The expected benefits are improvements to highway safety and travel time aided by accurate and timely traveler information provided to the driver. Typical travel event information types are blocked lanes, closed highways, slick roads, high winds, low visibility, and detour routing. The information is available to the public on the internet and telephone.
