BOISE
EXECUTIVE ORDER NO. 88-19
REPEALING AND REPLACING EXECUTIVE ORDER NO. 86-5

ENERGY CONSERVATION CONSIDERATIONS INCLUDED IN STATE BUILDINGS

WHEREAS, the efficient use of energy is of prime importance to the economic and energy well-being of the State of Idaho; and

WHEREAS, the State of Idaho uses, in its owned and leased buildings, a considerable portion of the state's energy demand; and

WHEREAS, the state government's ability to control energy use in leased facilities has been minimal, particularly after signing a lease; and

WHEREAS, it is imperative that the state government of Idaho set an example of energy efficiency for owners and operators of public and private buildings;

NOW, THEREFORE, I, CECIL D. ANDRUS, Governor of the State of Idaho, do hereby continue the order that all state building designs and lease agreements will include energy conservation considerations including:

- those outlined in the Publication entitled Energy Conscious Design for New Idaho State Buildings;
- Chapter 53 of the Uniform Building Code, 1985 Edition;
- use of alternative energy sources such as solar, geothermal, and cogeneration;
- energy management systems and controls to include effective means to monitor and maintain systems at optimal operations; and
- current "state-of-the-art" systems and equipment to economically conserve energy.

FURTHER, I order that all lease agreements be reviewed in draft form for compliance with these objectives. All parties are to be notified of any such negotiations that failure to comply with these objectives may constitute grounds for voiding the lease agreement. I further order that the signing of this order, so that compliance of accountability to the intent of this order, be a source of conflict after a contract has been signed. I further direct the attention of all persons and agencies drafting procedures for state and local government, including seasonal and all branches of state and local energy costs, to the spirit of this consideration of long-term energy, should become a major concern upon the suppliers of energy, should become a major concern in construction of all state buildings and lease agreements.

This Executive Order repeals and replaces Executive Order

EXECUTIVE ORDER NO. 88-22

DISPOSAL IN IDAHO OF WASTES DESIGNATED AS HAZARDOUS IN THE STATE WHERE GENERATED

As the State of Idaho is committed to proper management of solid wastes and interstate cooperation; and

a waste not regulated as a hazardous waste in Idaho may be a hazardous waste by another generating state; and

existing solid waste landfills in Idaho have not been safely handle large quantities of wastes regulated by other rdous wastes; and

waste regulated as a hazardous waste by other substantial threat to human health or to the environment if solid waste landfills; and

posal of such wastes in Idaho's solid waste landfills cleanup liabilities;

I, CECIL D. ANDRUS, Governor of the State of Idaho, hereby vested in me by law, prescribe the following policy:

entering Idaho shall be subject to hazardous waste regulations if such waste is regulated as a hazardous waste by the Environmental Protection Agency, the State of Idaho, or the waste was generated.

IN WITNESS WHEREOF, I have hereunto set my hand and caused to be affixed the Great Seal of the State of Idaho, at Boise, the Capital, in the 25th day of September, in the year of our Lord one thousand eight hundred eighty-eight, and of the Independence of the United States of America the two hundred thirteenth, and of the Statehood of Idaho the ninety-ninth.

Cecil D. Andrus
GOVERNOR OF THE STATE OF IDAHO
