DIVISION OF AERONAUTICS ANNOUNCEMENT

DATE: May 30, 2014

TO: Idaho Community (Non-NPIAS) Airport Owners and Managers

FROM: William P. (Bill) Statham, Manager
Airport Planning and Development

RE: Application for Idaho Airport Aid Program.
Project Funding for State Fiscal Year 2015 (SFY-15)

The purpose of this announcement is to invite your application for State of Idaho airport planning and development grant funds available for SFY-15 (July 1, 2014 through June 30, 2015).

In order to be considered for a grant from the Idaho Airport Aid Program (IAAP), the Airport Owner must submit an application to the Division of Aeronautics. An IAAP grant application package is included with this email and it is available on the Division of Aeronautics Webpage located at <http://itd.idaho.gov/aero/> for your convenience. The application package includes a file with six pages of application forms, another file with five pages of instructions and reference material to help you submit a complete and competitive application, and a file copy of this grant solicitation. Please provide as much detail as possible, including any pertinent drawings. Also please carefully check your project cost estimates, we don't want to exclude a project from funding because it had inaccurate cost estimate.

PLEASE NOTE: Aeronautics funds for an airport grant are limited. As a result we will be funding only high priority projects; such as critical pavement preservation work for the foreseeable future. Furthermore, grant offer and implementation is dependent upon revenues to the aeronautics fund. Actual revenue that is below projections may delay or prevent the grant offer and project implementation.

IMPORTANT: Projects previously applied for are not being carried forward to the next funding cycle. If you have made application for IAAP funds in the past and did not receive funding, you **MUST** complete a new application form and reapply for those projects that are still valid. Please be sure to keep a copy of your grant application to assist you with future applications. The deadline for submitting an application to the Division of Aeronautics is:

5:00 pm, Friday, June 27, 2014.

If you do not plan to apply for an IAAP Grant this year, the Division of Aeronautics would like to update our information on your airport. Please complete and submit pages 1 and 3 of the Application form so we can have current operational information and your Capital Improvement Program plans for the next few years.

If you have any questions, need help completing the application, want to discuss your airport, its recent activity, and facility needs in order to formulate a project, or want to find out what has been applied for in the recent past, please contact me at (208) 334-8784. I look forward to working with you in our joint effort to maintain and eventually improve your airport.
