

Broadway Avenue
Bridge Replacement

September 22, 2016

Thank you to all who celebrated the opening of the Broadway Bridge this month. We are glad to see pedestrians, cyclists and motorists using the new bridge.

As crews complete the remaining tasks for this project. ITD wants to remind you:

- One lane of Broadway Avenue may be intermittently closed at night.
- One side of the sidewalk on the bridge may be closed in the evening.
- Pedestrian ramps to and from the Greenbelt may be closed.
- Crews will be working near the Greenbelt on occasion. For your safety, please follow any temporary signage.

Please watch for emails about what to expect this fall while crews continue to work. You are always welcome to contact us with questions.

We appreciate your patience during this project.
