Eastbound I-84 traffic will shift into median at Broadway Interchange

December 12, 2014

On **Sunday night (Dec. 14)**, traffic on eastbound I-84 will be shifted into the median from the I-84 railroad bridges to just west of the Broadway Interchange.

- Eastbound I-84 will be **reduced to one lane in each direction on Sunday night from 8:30 p.m. to 5 a.m.** as crews put the new traffic pattern in place.
- Next week, traffic on westbound I-84 will be shifted into the median.
- Traffic will use the median through next summer as crews rebuild the outside lanes of I-84 and the railroad bridges.

In addition, the I-84 eastbound off-ramp at Broadway will be reduced to one lane so crews have room to build the permanent ramp and excavate the drainage area.
