

January 10, 2017

The Standard Drawings have been updated and are available on the ITD manuals website. The current revision date shown on the Standard Drawing List is December 2016. The Idaho Transportation Department's Standard Drawings web site is:

<http://apps.itd.idaho.gov/apps/StandardDrawings/StandardDrawings.htm>

Several drawings have been renamed and renumbered to match the corresponding section of the *Standard Specifications for Highway Construction*.

The Standard Drawing website has been modified so that the individual drawings are shown for the June 2015, December 2015, June 2016, and December 2016 updates in adjacent columns. Additional columns will be added for future updates.

Please see the Standard Drawings Change log on the website to view a summary of the revisions.

To update Standard Drawing documents dated June 2016, make the following changes:
