

Snake River Bridge Improvements, Grandview

Key: 12281

Project Description:

Rehabilitation of the Snake River Bridge in Grandview will begin in mid-April. Construction will include bridge-deck repairs and other structural improvements.

Work Schedule:

During construction, one lane of the bridge will remain open, with temporary signals placed on either end of the structure to guide drivers across the one-lane bridge. Work will occur Monday through Friday during daytime hours. The entire project is scheduled to be complete this fall.

JC Constructors is the general contractor. The project cost is \$1.3 million.
