

I-15, Rose Road Interchange Construction Phasing and Detours

- Bridge will be built half at a time, leaving the old bridge operational until half of the new bridge is built.
- All traffic will be transferred to the half of the new bridge when the old bridge is demolished and the second half of the new bridge is built.
- I-15 will operate in crossovers, at times, when the bridge is being built.
- On-Ramps will be closed for about a week when tying new ramp into existing ramp.
