**Reasons for Request - Continue on reverse side if necessary, corresponding the number of the section with the continuation.**

- Justification**  
 This is a major route between Idaho's only sea port and Canada. Increasing weights from 105,500 to 129,000 will be a massive boost to the efficiency of freight transportation.
- Associated Economic Benefits**  
 Many products that are currently shipped out of Canada are routed around Idaho. Approving this route will allow carriers to take the shortest route bringing them through the state of Idaho. Doing so will require them to purchase fuel and pay road taxes in Idaho. It will allow residents and businesses in Northern Idaho, including the Idaho Transportation Department, to get the products they need in a more efficient manner and thus lower the cost of goods.
- Approximate Number of Trips Annually**  
 916
- Commodities Being Transported**  
 Road salt for the Idaho Transportation Department, fertilizer, and lumber.
- Anticipated Start Date to Use Requested Routes** 8/1/16
