### Reasons for Request - Continue on reverse side if necessary, corresponding the number of the section with the continuation.

- Justification**  
This is an essential route connecting Lewiston with Western Montana and Eastern Idaho.
- Associated Economic Benefits**  
This is a key stretch of highway that will allow Doug Andrus Distributing to better serve the Idaho Transportation Department in delivering road salt to different maintenance sheds. Increasing weights from 105,500 to 129,000 will be a massive boost to the efficiency of road salt transportation, allowing Doug Andrus and other competitors to help ITD lower the cost of transportation in the future. Also, Lewiston is a major hub in the shipment of sea going goods. The water ways coming into Lewiston from the ocean make it an ideal location for shipping and receiving many commodities. Getting these commodities to and from Lewiston in an efficient manner has a major impact on the viability of the port. Increasing the allowable weights on US 12 will help keep Lewiston competitive as a shipping location.
- Approximate Number of Trips Annually**  
171
- Commodities Being Transported**  
Road salt for the Idaho Transportation Department, grain, fertilizer, and lumber.
- Anticipated Start Date to Use Requested Routes** 8/1/16
