

Cardiac Risk Profile – ITD Headquarters

Do you know if you're at risk of having heart, liver, or kidney disease? Have you been tested for diabetes? Has it been a while since getting your cholesterol tested? Now is the time to participate in this simple test that could save your life.

When: March 14th

Time: 7:30am – 9:00am

Place: ITD Headquarters – HQ Auditorium

Cost: \$25 (Bring exact change, credit card, or make checks payable to SARMC)

To schedule an appointment go to: www.mysignup.com/ITD

PLEASE NOTE

YOU WILL NOT BE REIMBURSED BY BLUE CROSS FOR THIS SCREENING.

Cardiac Risk Profile tests for the following:

Cholesterol – Triglyceride – HDL – LDL – VLDL – Cholesterol /HDL Ratio – Glucose – Urea Nitrogen – Creatinine – Sodium – Potassium – Chloride – CO₂ – Calcium – Total Protein – Albumin – Globulin – Bilirubin – Alkaline Phosphatase – AST (SGOT) – ALT (SGPT)

In addition to the Cardiac Risk Profile, the following blood tests are also available with a prescription:

PSA – Prostate Screening.....	\$25. ⁰⁰
