

*Working together to plan for the future*

## FY2023-2029 Regional Transportation

### Improvement Program

Report No. 01-2023

Adopted by the COMPASS Board of Directors on October 17, 2022

Resolution No. 03-2023

Modified: November 1, 2022; December 2, 2022; and January 9, 2023

Amended: December 19, 2022.

The completion of this document was financed by U.S. Department of Transportation (DOT) funds through the Idaho Transportation Department and contributions from member agencies within Ada and Canyon Counties.

T:\FY23\600 Projects\685 TIP\FY2329TIP\Reports\Doc\FY2023TIPrpt.docx

*Working together to plan for the future*

**RESOLUTION NO. 03-2023**

**FOR THE PURPOSE OF APPROVING THE  
FY2023-2029 REGIONAL TRANSPORTATION IMPROVEMENT PROGRAM AND  
ASSOCIATED AIR QUALITY CONFORMITY DEMONSTRATION**

**WHEREAS**, the Community Planning Association of Southwest Idaho has been designated by the Governor of Idaho as the metropolitan planning organization responsible for transportation planning in Ada and Canyon Counties;

**WHEREAS**, the Infrastructure Investment and Jobs Act (IIJA), Title 23 United States Code Section 134, and Title 49 United States Code Section 5303 requires metropolitan planning organizations to develop and approve a transportation improvement program;

**WHEREAS**, the 1990 Clean Air Act Amendment requires all transportation plans and programs in nonattainment or maintenance areas demonstrate conformity to applicable state implementation plans for air quality improvement;

**WHEREAS**, IIJA, Title 23 United States Code Section 134 and Title 49 United States Code Section 5303 require projects contained in the transportation improvement program to be financially constrained;

**WHEREAS**, IIJA, Title 23 United States Code Section 134 and Title 49 United States Code Section 5303 require the transportation improvement program be developed and amended in consultation with all interested parties;

**WHEREAS**, a public comment period was held between August 15 and September 13. All comments were shared with the COMPASS Board of Directors for consideration;

**WHEREAS**, the Community Planning Association of Southwest Idaho desires to take timely action to ensure the availability of federal funds; and

**WHEREAS**, the Community Planning Association of Southwest Idaho has developed the FY2023-2029 Regional Transportation Improvement Program for Ada and Canyon Counties, and associated air quality conformity demonstration for Northern Ada County, in compliance with all applicable state and federal regulations.

**NOW, THEREFORE, BE IT RESOLVED**, that the Community Planning Association of Southwest Idaho Board of Directors approves the FY2023-2029 Regional Transportation Improvement Program and the associated air quality conformity demonstration.

**ADOPTED** this 17<sup>th</sup> day of October 2022.

<https://www.compassidaho.org/prodserv/cms-intro.htm>  
(Congestion Management System Technical Document)

## INTRODUCTION

A regional transportation improvement program (TIP) is a short-range (seven-year) capital improvement program (budget) of transportation projects consistent with federal regulations and area policies and strategies. The Statewide Transportation Improvement Program (STIP) is the state's short-range capital improvement program. The Idaho STIP references projects in Ada County and Canyon County via the Community Planning Association of Southwest Idaho's (COMPASS') TIP.

The TIP is developed through a cooperative process by COMPASS, the designated metropolitan planning organization (MPO) for the Boise Urbanized Area Transportation Management Area (TMA) and the Nampa Urbanized Area. This process involves extensive participation by:

- Ada County
- Ada County Highway District (ACHD)
- Boise State University
- Canyon County
- Canyon Highway District No. 4
- Capital City Development Corporation
- Idaho Department of Environmental Quality
- Idaho Transportation Department (ITD)
- Valley Regional Transit (VRT)
- Cities of
  - Boise
  - Caldwell
  - Eagle
  - Garden City
  - Greenleaf
  - Kuna
  - Melba
  - Meridian
  - Middleton
  - Nampa
  - Notus
  - Parma
  - Star
  - Wilder

The TIP must be consistent with the regional long-range transportation plan, [\*Communities in Motion 2040 2.0\*](#)<sup>1</sup> (CIM 2040 2.0). The COMPASS Board of Directors adopted CIM 2040 2.0 on December 17, 2018. [\*Communities in Motion 2050\*](#)<sup>2</sup> (CIM 2050) is expected to be adopted on December 19, 2022.

The first four years of the TIP are of particular interest since these years are considered "budgeted," while the remaining years are more informational in nature. The latter projects are listed to provide a framework for transportation needs that move from the planning stage to the implementation stage. Per federal regulations, information on the status of projects in the first year of the previous TIP is posted [online](#)<sup>3</sup> by the end of each calendar year.

This document includes all federally and state-funded projects and those non-federally funded projects deemed "regionally significant." The TIP projects identified

<sup>1</sup> *Communities in Motion 2040 2.0*: <http://compassidaho.org/CIM2040-2.0/>

<sup>2</sup> *Communities in Motion 2050*: <https://cim2050.compassidaho.org/>

<sup>3</sup> Annual Listing of Projects: <http://www.compassidaho.org/prodserv/transimprovement.htm#Annual>

in this document are within the estimates of available funds from a variety of sources, both federal and non-federal.

The Boise TMA includes the Cities of Boise, Eagle, Meridian, and Garden City; the Nampa Urbanized Area includes the Cities of Nampa, Caldwell, and Middleton. Both urbanized areas also include adjacent densely settled areas outside of city limits. The smoothed boundaries for the Boise and Nampa Urbanized Areas were adopted by the COMPASS Board of Directors, via Resolution 15-2013, on August 19, 2013. Urbanized area boundaries determined through the 2020 Census are not yet available. This information will be updated when new boundaries are provided by the Census Bureau<sup>4</sup>. COMPASS' planning area includes all of Ada and Canyon Counties (Figure 1), an area broadly referred to as the "Treasure Valley."

Northern Ada County is a "maintenance area" for two air pollutants – coarse particulate matter (airborne dust and other particulates; referred to as "PM<sub>10</sub>") and carbon monoxide. Northern Ada County violated the federal standards for these pollutants in the 1980s and early 1990s and has been in compliance ever since. Plans are in place to ensure the area maintains its compliance with these standards. COMPASS must show that the projects contained in this TIP "conform" to these plans – a process referred to as an "air quality conformity demonstration." This is discussed in more detail in Section VI. The Ada County air quality "maintenance area" encompasses the entire area of Ada County north of the Boise Base Line (Figure 2), which is an imaginary line located seven miles south of the City of Kuna.

This report includes additional detail in the following appendices:

- **APPENDIX A – FUNDING TYPES AND ACRONYMS**, provides a way to decipher transportation and federal jargon.
- **APPENDIX B – TRANSIT RIDERSHIP**, provides tabular and graphical representation of transit ridership in FY2022.
- **APPENDIX C – HISTORICAL AND PROJECTED BUDGET DATA**, provides additional information about transportation agency budgets.
- **APPENDIX D – PRIOR YEAR PROJECTS**, provides a list of projects that are still active, but no longer have budgeted funds. Projects could still need additional funding or release excess funding throughout the life of this program.
- **APPENDIX E – LIST OF PROJECTS**, provides a detailed list of projects that are funded with federal or state funds, or considered "regionally significant," no matter the funding source.
- **APPENDIX F – PUBLIC COMMENTS**, provides a summary as well as verbatim public comments received on the project list and all amendments that require a public comment period.

<sup>4</sup> 2020 Urbanized Area Boundaries expected by December 2022.

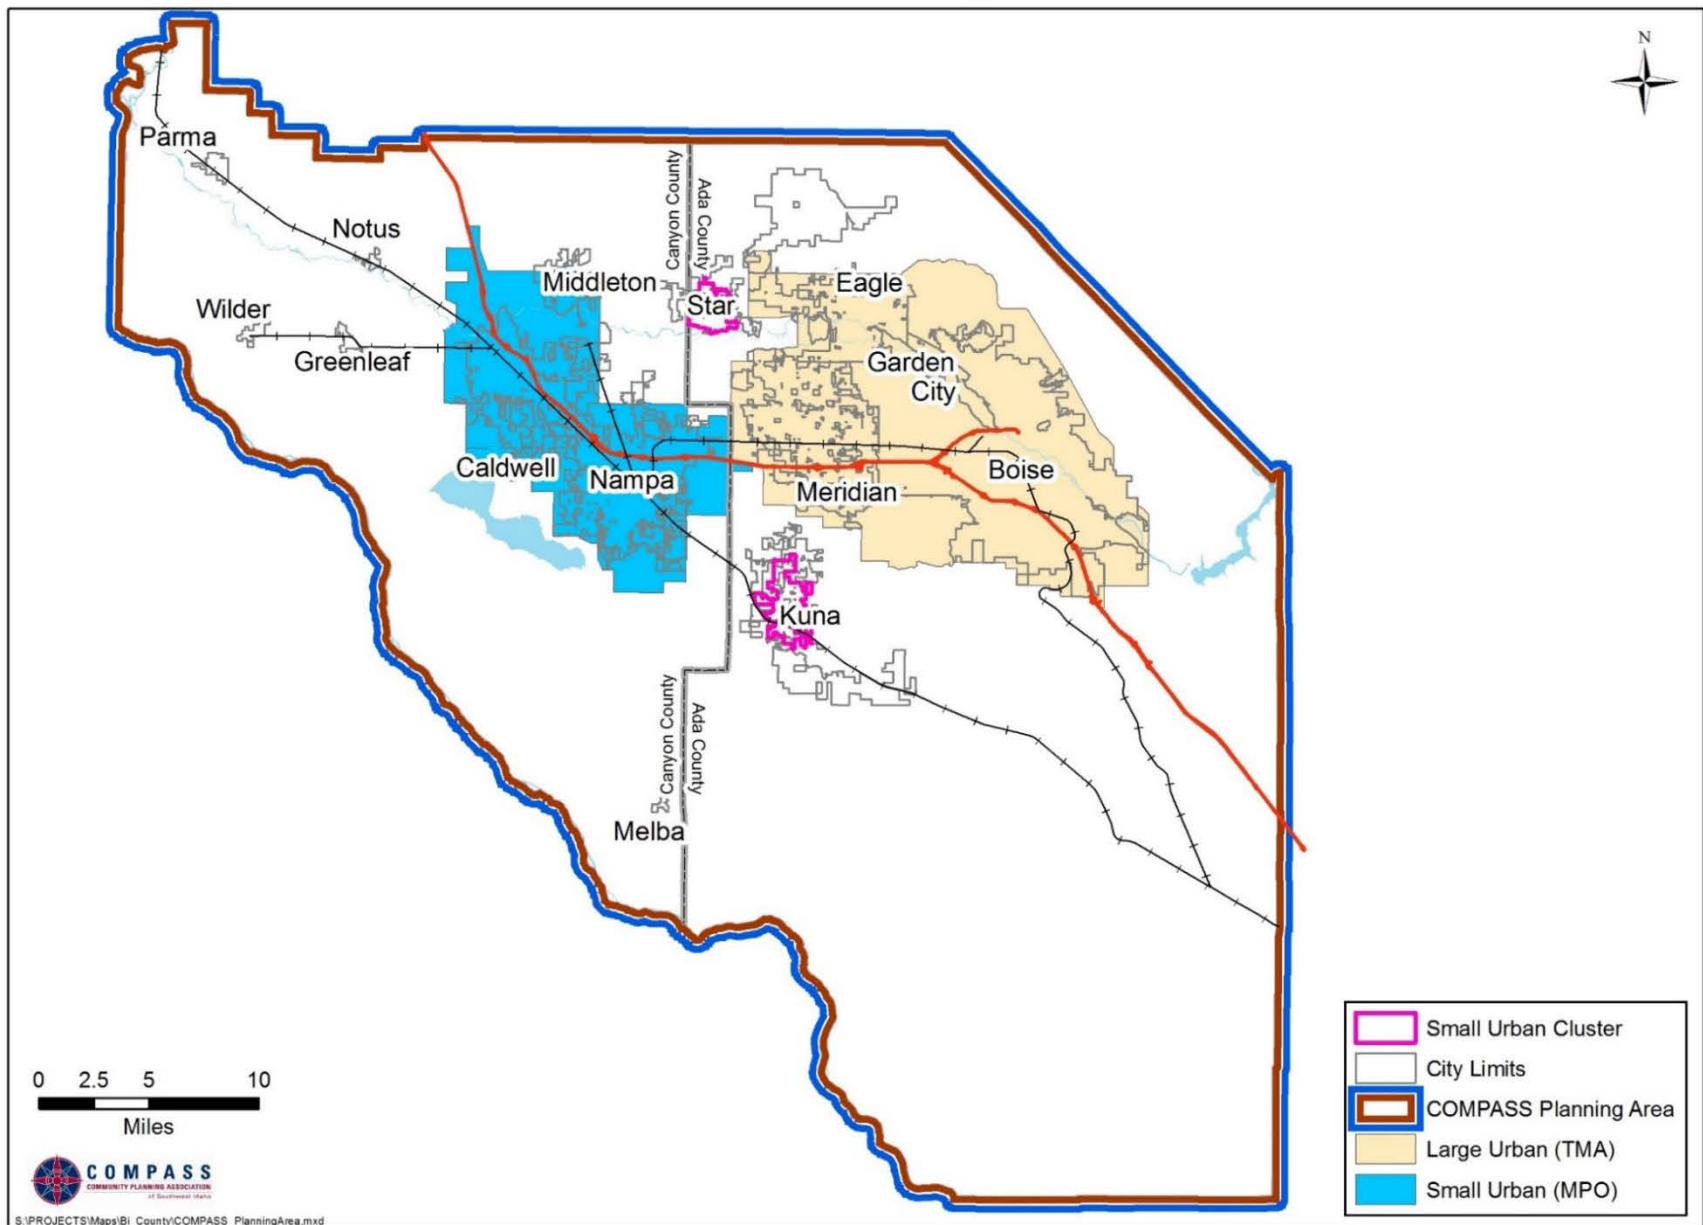

Figure 1: COMPASS Planning Area

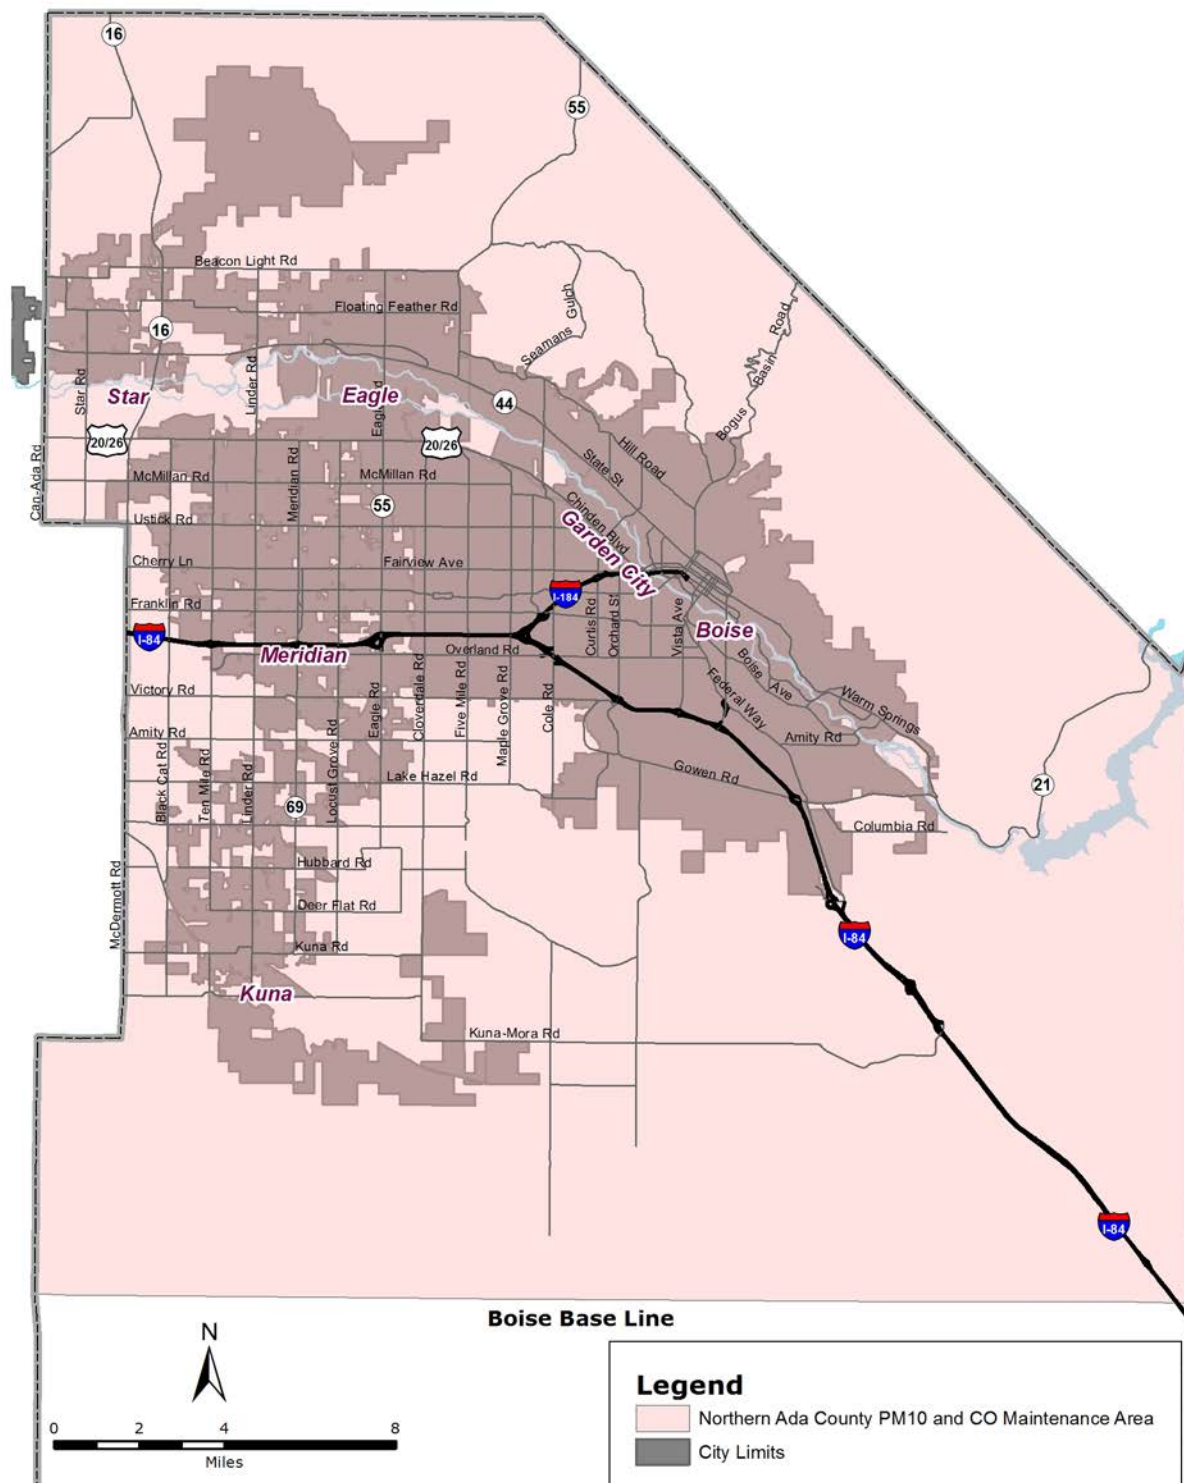

Figure 2: Northern Ada County Air Quality Maintenance Area

## I. INFLATION FACTORS

The Federal Highway Administration (FHWA) requires all reporting documents show project costs in the year of expenditure. This means project costs must be shown with inflationary factors expected by the year funds will be expended. Agencies in the State of Idaho currently use a 2% inflation factor to adjust the cost of future expenditures for most projects.

COMPASS also maintains a project list for balancing purposes in “current dollar format,” meaning the costs are not inflated. This format is posted on the [TIP web page](#)<sup>5</sup> and is the project list most typically used by COMPASS and sponsoring agencies.

## II. PUBLIC OUTREACH EFFORTS

The public outreach process for the annual TIP update begins approximately 16 months prior to its final approval. This effort includes requesting input from local governments in the Boise and Nampa Urbanized Areas, local governments outside of the urbanized areas within Ada and Canyon Counties, and the general public. Public outreach efforts were guided by, and complied with, requirements and recommendations outlined in the 2018 COMPASS Public Participation Plan (Chapter 2 of the [COMPASS Integrated Communication Plan](#)<sup>6</sup>).

**Local Government Input.** COMPASS staff met with local government staff in Ada and Canyon Counties to solicit their desired transportation projects for inclusion in this document from August through December 2021.

**COMPASS Regional Transportation Advisory Committee (RTAC).** RTAC is comprised of technical experts representing counties, cities, highway districts, state agencies, and other public agencies in Ada and Canyon Counties. RTAC members reviewed and ranked local project applications and recommended a list of projects to be funded to the COMPASS Board of Directors. RTAC members were also involved throughout the TIP development process, including recommending selection criteria in the COMPASS Funding Application Guide and federal performance measure targets.

**30-Day Public Comment Period.** Public comment on the draft FY2023-2029 TIP project list was solicited from August 15 through September 13, 2022. The public comment period was promoted through the COMPASS [website](#)<sup>7</sup>, COMPASS social media accounts, online community calendars, a news release, newspaper advertisements, legal notices, email blasts, and postcards.

<sup>5</sup> TIP web page: <https://www.compassidaho.org/prodserv/transimprovement.htm>

<sup>6</sup> COMPASS Integrated Communication Plan:

[https://www.compassidaho.org/documents/comm/FINAL\\_2018\\_COMPASS\\_Integrated\\_Communication\\_Plan.pdf](https://www.compassidaho.org/documents/comm/FINAL_2018_COMPASS_Integrated_Communication_Plan.pdf)

<sup>7</sup> COMPASS website: [www.compassidaho.org](http://www.compassidaho.org)

In addition to the TIP and associated air quality conformity demonstration, public comments on a proposed amendment to CIM 2040 2.0, were also solicited during the comment period.

COMPASS website. All draft TIP materials were available on the [“Comments and Questions” webpage](#)<sup>8</sup> from August 15 through September 13, 2022.

Public comment materials posted online included detailed and basic project lists, a “major changes” list, the draft air quality conformity demonstration (see Section VI), an interactive map of projects contained in the TIP, a TIP brochure, and fact sheets related to air quality conformity and understanding the TIP. Comment forms and information on how and where to comment, including information on open houses, were also posted online.

#### Open House.

COMPASS Hosted an open house on Wednesday September 7, 2022, from 3:00-6:00 PM at the COMPASS Office in the first-floor board room.

COMPASS also posted a [virtual presentation](#)<sup>9</sup> (Figure 3) on YouTube.

Libraries. COMPASS distributed TIP materials to 20 different library locations throughout the Treasure Valley.

Figure 3: COMPASS TIP Virtual Presentation

Legal Notice. COMPASS published a legal notice for the TIP public comment period in the *Idaho Statesman* and the *Idaho Press* on four dates: August 15 (*Idaho Statesman* only), August 16 (both newspapers), August 17 (both newspapers), and August 5 (*Idaho Press* only), 2021. COMPASS also published a legal notice for an amendment to the TIP on August 25, 2022, in both newspapers.

Display Advertisements. Display advertisements (Figure 4) promoting the public comment period and open house (as appropriate) appeared in:

- *Idaho Statesman*: August 15, August 22, and August 29, 2022
- *Idaho Press*: August 16, August 23, and August 30, 2022
- *Kuna Melba News*: August 17, August 24, and August 31, 2022
- *Meridian Press*: August 19, August 26, and September 2, 2022

<sup>8</sup> COMPASS “Comments and Questions”:  
<http://www.compassidaho.org/comm/comments.htm>

<sup>9</sup> Virtual presentation: [https://www.youtube.com/watch?v=u\\_Hq3tzxEP4&t=9s](https://www.youtube.com/watch?v=u_Hq3tzxEP4&t=9s)

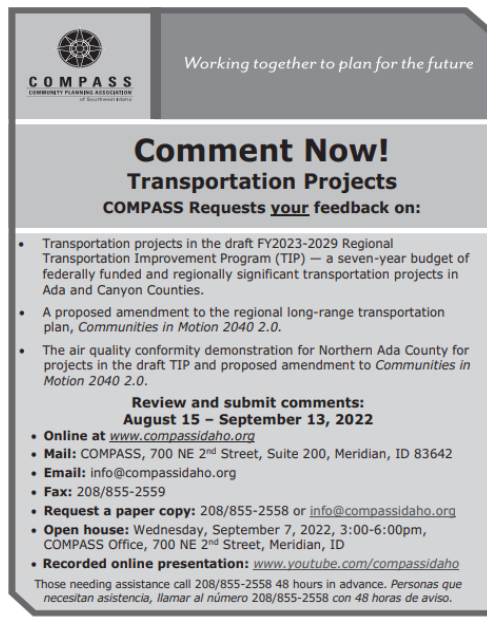

Figure 4: Newspaper Advertisement

No Spanish-language newspapers were in business in Ada or Canyon Counties during the public comment period.

Email and Mail. COMPASS sent four emails to 6,330 people publicizing the TIP public comment period. COMPASS mailed 13 postcards on August 12, 2022, to interested individuals who prefer to be contacted via US Mail.

Flyer. COMPASS created a flyer advertising the TIP public comment period and open house. Additionally, COMPASS requested that committee, workgroup, and agency members post flyers on their websites and other public locations in their jurisdictions.

Social Media. COMPASS posted information about the TIP public comment period on its social media throughout the public comment period.

- Facebook<sup>10</sup>: COMPASS posted information about the public comment period nine times from August 15 – September 13, 2021. These Facebook posts resulted in a total audience reach of 2,213 and 98 engagements.
- Twitter<sup>11</sup>: COMPASS tweeted information about the public comment period 8 times from August 15 – September 13, 2022. These tweets resulted in a total of 664 viewer impressions and 21 engagements.
- Instagram<sup>12</sup>: COMPASS posted information about the public comment period 8 times from August 15 – September 13, 2022. These posts resulted in 46 engagements.
- Nextdoor: COMPASS posted information about the public comment period on their Nextdoor account 8 times from August 15 – September 13, 2022. This resulted in

Brochure. COMPASS staff updated a brochure explaining the TIP; the English<sup>13</sup> and Spanish<sup>14</sup> versions were posted on the COMPASS website.

Spanish Translation. COMPASS translated the public comment flyer, TIP brochure, and the TIP comment form (hard copy and online) into Spanish. In addition, the

<sup>10</sup> Facebook: [www.facebook.com/compassidaho](https://www.facebook.com/compassidaho)

<sup>11</sup> Twitter: <https://twitter.com/COMPASSIdaho>

<sup>12</sup> Instagram: [www.instagram.com/compassidaho/](https://www.instagram.com/compassidaho/)

<sup>13</sup> Brochure (English): <https://www.compassidaho.org/documents/prodserv/trans/FY22/Brochures/TIPBrochureFY2023-29.pdf>

<sup>14</sup> Brochure (Spanish): <https://www.compassidaho.org/documents/prodserv/trans/FY22/Brochures/TIPBrochureFY2023-29%20Spanish.pdf>

COMPASS website has a Spanish translation option, allowing for translation of all web content.

Comments Received. The public was encouraged to submit written comments throughout the public comment period. Comments were accepted via email, letter, fax, or hard copy or online comment forms. Assistance was offered to those unable to submit comments in writing. Thirty public comments were received (see Appendix F). Figure 5 shows the demographic data collected from public comment forms submitted to COMPASS.

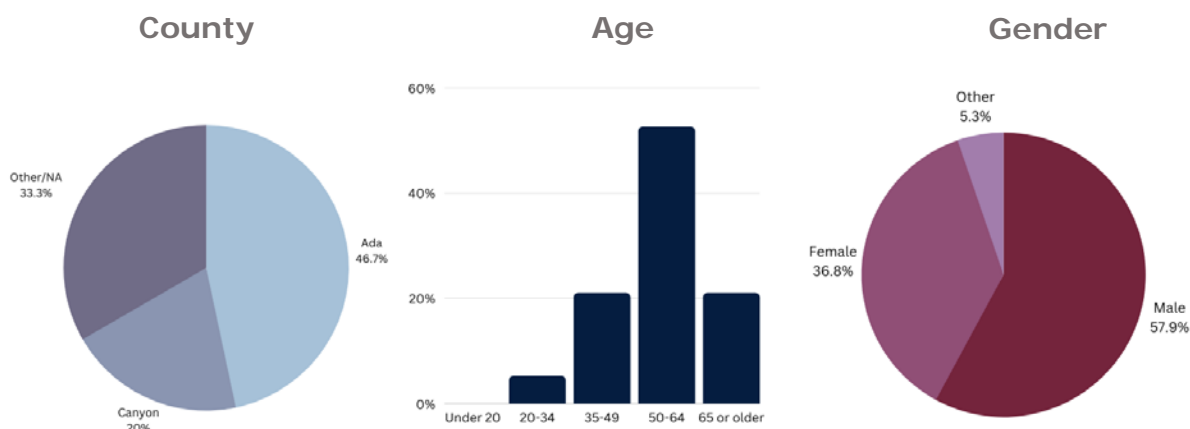

Figure 5: Public Comment Demographic Data

Disposition of Comments. Questions submitted as part of public comments were answered, and all comments were provided to RTAC and the COMPASS Board of Directors. Comments related to specific projects or studies were forwarded to the appropriate agencies. The disposition of individual comments is included with the verbatim comments and staff responses in Appendix F.

**Special Assistance.** COMPASS notifications, advertisements, other promotional information, and the COMPASS website, included the following statement for those who require special assistance in submitting comments:

*Those needing assistance, including assistance in submitting written comments, may call 208/855-2558 with 48 hours advance notice. Personas que necesitan asistencia especial, llamar al número 208/855-2558 con 48 horas de aviso.*

### III. PROJECT SELECTION

COMPASS serves as a regional forum for making decisions about transportation and related planning and sets priorities for spending federal transportation funds. COMPASS accepts applications annually for transportation funding and manages the following federal-aid programs:

- Surface Transportation Block Grant – Transportation Management Area (STBG-TMA for Boise Urbanized Area)

- Transportation Alternatives Program – Transportation Management Area (TAP-TMA for Boise Urbanized Area)
- Surface Transportation Block Grant – Urban (STBG-U for Nampa Urbanized Area)

The Carbon Reduction Program (CRP) in the TMA and the Nampa Urbanized Area brings new funds to the region to projects that help reduce the carbon footprint of transportation. Guidance for these funds was released after the deadlines for project selection. Projects will be added using CRP funds as soon as possible.

The CIM 2050 funding policy was adopted by the COMPASS Board of Directors in October 2021.

### Funding Policy

Use anticipated available funding in Ada and Canyon Counties to strategically address regional priorities as identified in the regional long-range transportation plan.

Focus federal formula funds in Ada County (Surface Transportation Block Grant – Transportation Management Area [STBG-TMA]) to maintain the existing transportation network and fill gaps in the alternative transportation system.

Use new available funding to strategically address regional priorities. Use federal formula funds in Canyon County (STBG-Urban) to address regional priorities as identified in the regional long-range transportation plan.

### Funding Goals

STBG-TMA (Boise Urbanized Area)

<b>Off-the-Top</b>	<b>Policy Amount</b>
COMPASS*	\$232,000
Ada County Highway District (ACHD) Commuteride	\$220,000
Safe Routes to School Education Program (Ada)	\$280,000
<b>Split of Remaining Funds</b>	
Local Network Improvements **	72%
Pathways (state highway or off-network) ***	12%
Public Transportation Capital	13%
Studies and Special Projects	3%

STBG-Urban (Nampa Urbanized Area)

<b>Off-the-Top</b>	<b>Policy Amount</b>
COMPASS*	\$99,000
Ada County Highway District (ACHD) Commuteride	\$55,000
Safe Routes to School Education Program (Ada)	\$50,000
<b>Split of Remaining Funds</b>	
Local Network Improvements **	85%
Alternative Transportation Capital	12%
Studies and Special Projects	3%

\*COMPASS Off-the-Top is \$331,000 total and divided between Boise Urbanized Area and Nampa Urbanized Area funds based on 70/30 split in population (Boise Urbanized Area/Nampa Urbanized Area)

\*\* See definition of local network improvements below

\*\*\* If application not sought or funds remains, funds split equally between local network improvements and public transportation capital

The funding splits will be calculated as a five-year rolling average to allow flexibility for a larger project in any of the categories to move forward and remain consistent with the policy.

Local Network Improvements - Includes all capital improvements to “maintain and improve the infrastructure and operational performance on the current system.”

Work may include:

- Overlays, rehabilitation, or rebuilds on a roadway
- Transportation improvements that save lives
- Filling gaps on on-system bicycle/pedestrian facilities (including crosswalks and adding/widening shoulders)
- Compliance with the Americans with Disabilities Act
- Improvements to the intelligent transportation system and similar operations systems
- Specific to Ada County:
  - Through-lane capacity is not eligible, except in cases of unanticipated funding opportunities.
- Specific to Canyon County:
  - Eligible for projects to maintain and add capacity.

Projects should reflect strategies outlined in the COMPASS [Congestion Management Process](#)<sup>15</sup>.

### COMPASS Scoring and Ranking Process

COMPASS issues an annual call for projects seeking applications for the federal and local funding sources administered by COMPASS. In response, project sponsors submit Phase I and Phase II project applications. The Regional Transportation Advisory Committee (RTAC) is then responsible for recommending a ranked list of project applications to the COMPASS Board of Directors for approval.

A rank will be assigned to all project applications regardless of project type, including applications to the following funding sources:

1. Federal funds
  - a. Boise Urbanized Area:
    - i. Surface Transportation Block Grant – Transportation Management Area (STBG-TMA)
    - ii. Transportation Alternatives Program – Transportation Management Area (TAP-TMA)

<sup>15</sup> Congestion Management Process: <https://www.compassidaho.org/prodserv/cms-intro.htm>

- iii. Carbon Reduction Program – Transportation Management Area (CRP-TMA)
  - b. Nampa Small Urban Area:
    - i. Surface Transportation Block Grant – Urban (STBG-U)
    - ii. Carbon Reduction Program – Urban (CRP-U)
      - 1. CRP-Urban funds will be combined with the STBG-Urban funds.
- 2. COMPASS funds
  - a. *Communities in Motion* Implementation Grants
  - b. Project Development Program

The ranking procedure can be found in detail in the [COMPASS Application Guide](#)<sup>16</sup>, Supplemental I (Scoring and Ranking Supplemental).

Project applications go through a multi-step process between the end of the call for projects and the allocation of funds (programming). Project applications proceed to scoring, then to ranking, before funds are awarded. However, the ranking process varies depending upon the type of project submitted and the type of funding sought. Project applications seeking federal-aid funding are scored before receiving a rank (except for studies and planning products). Project applications for COMPASS funds and applications for studies and plans remain unscored and are ranked using a paired comparison process. Additionally, all project applications are assigned a “Tier” indicating their alignment with *Communities in Motion 2050* (CIM 2050)

#### Projects Outside of COMPASS Administration

Programs managed by other agencies (ITD, VRT, and the Local Highway Technical Assistance Council [LHTAC]) follow the managing agency’s application and prioritization process. Once projects are selected for funding, they are submitted to COMPASS for inclusion in the TIP. RTAC reviews the full list of projects, including new projects and changes to existing projects, considering public comments received, and recommends it to the COMPASS Board of Directors for approval.

COMPASS staff is beginning a conversation with ITD staff regarding developing a process where COMPASS is more involved in project selection for all types of funding, as required in federal regulations.

## **IV. CONGESTION MANAGEMENT PROCESS**

The Congestion Management Process (CMP) is the application of strategies to improve transportation system performance and reliability by reducing the adverse impacts of congestion on the movement of people and goods. It is a systematic, cyclical, and regionally accepted approach for managing congestion that provides accurate, up-to-date information on transportation system performance and

<sup>16</sup> COMPASS Application Guide:  
<https://www.compassidaho.org/prodserv/resourcedev.html#appguide>

identifies strategies for mitigating congestion and achieving regional transportation goals and objectives. These mitigation strategies include:

- Transportation Demand Management (TDM) and active transportation
- Transportation Management and Operations (TSMO)
- Intelligent Transportation Systems (ITS)
- Transit operational improvements
- Roadway capacity improvements (when necessary)
- Freight and goods mobility

As a part of the CMP, COMPASS uses the National Performance Management Research Data Set (NPMRDS) to develop the Congestion Management Annual Report, which shows where and when congestion is occurring in the Treasure Valley. These reports are available on the [Congestion Management Process](http://www.compassidaho.org/prodserv/cms-intro.htm)<sup>17</sup> web page. This information helps COMPASS and its member agencies prioritize projects for congested areas and select which types of congestion mitigation strategies to apply. However, the data are limited and not available for every corridor. Figure 6 shows a map of the corridors where NPMRDS data are provided, highlighting the ten most congested roadway segments in Ada and Canyon Counties for 2021.

<sup>17</sup> Congestion Management Process: <http://www.compassidaho.org/prodserv/cms-intro.htm>

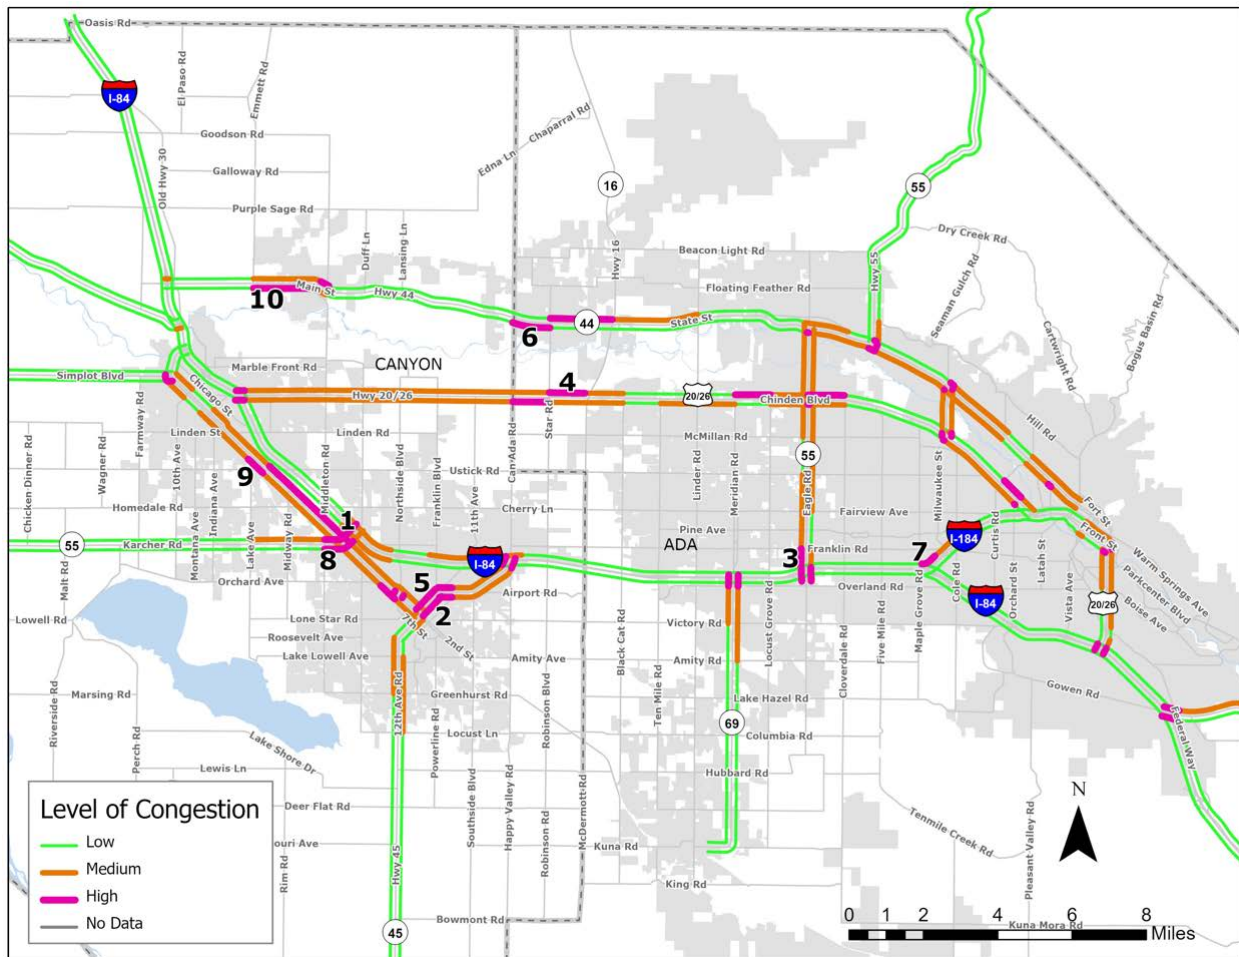

Figure 6: Top Ten Congested Tier 1 Network Segments Greater than Half a Mile (Peak period maximum, 2021)

For more details about how congestion is defined, please see the [Congestion Management Process](#)<sup>18</sup> web page.

Another way to look at congestion is in terms of reliability. This measure is discussed in detail in Section V, TIP Achievement. Figure 7 shows the segments considered “unreliable” on the National Highway System (NHS).

<sup>18</sup> Congestion Management Process: <http://www.compassidaho.org/prodserv/cms-intro.htm>

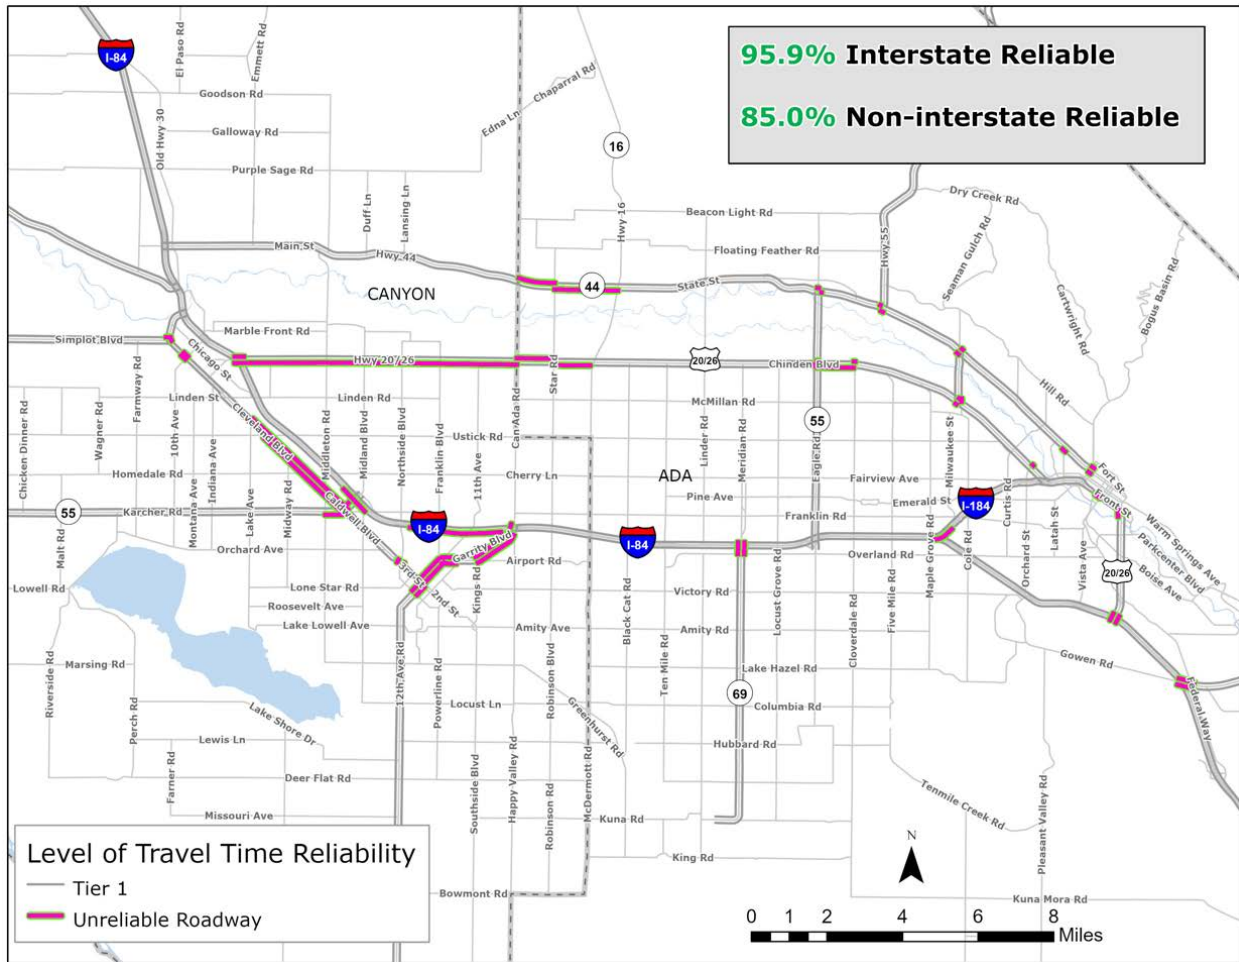

Figure 7: Level of Travel Time Reliability (2021)

The CMP also serves as a mechanism for monitoring the effects transportation projects have on system efficiency after they are completed. This information is helpful for monitoring the effectiveness of specific congestion management strategies as projects are funded and constructed/implemented. These findings are published in the Congestion Management Annual Report as well.

ITD and local agencies manage specific programs to address congestion issues.

## ITD

ITD's Safety and Capacity Program ensures projects are selected to provide safety, mobility, and economic benefits throughout the state. Projects are nominated by ITD district staff, and are then analyzed through a competitive process using the following criteria:

- Benefit/cost ratio
- Benefit as a result of the project to the gross state product
- Number of jobs created over a 20-year period as a result of the project

No single project may use more than 50% of the available funds.

Projects funded through ITD's safety and capacity programs are selected through this process. The following programs also provide a mechanism for ITD to fund projects to relieve congestion:

#### Grant Anticipation Revenue Vehicle (GARVEE)

The GARVEE program allows the state to issue bonds for large capital projects. The bonds are then repaid using future federal-aid funds. GARVEE funds were initially made available for 13 specific corridors across the state (later reduced to 12), including Interstate 84 and State Highway 16 in the Treasure Valley. The Idaho Legislature first approved the use of GARVEE funds in Idaho in 2005, then extended the GARVEE program in 2017 to allow for an additional \$300 million in bonding authority.

#### Transportation Expansion and Congestion Mitigation (TECM)

The Idaho Legislature also approved funding for the Transportation Expansion and Congestion Mitigation (TECM) program in 2017. This program is specifically for expansion and congestion-related projects. The TECM program was originally developed using 1% of the state's sales tax (not less than \$15 million per year). In 2019, the Idaho Legislature expanded the program to include the ability to bond against these funds for efficiency. In 2021, the Idaho Legislature increased funding levels to 4.5% of the state's sales tax (not less than \$80 million per year).

TECM funds are limited to the state highway system for projects selected by the Idaho Transportation Board to improve travel times and traffic flow and to mitigate traffic congestion. If the 4.5% in sales tax exceeds \$80 million, the amount above \$80 million is dedicated to local agencies as revenues increase and allocated through the Highway Distribution Account.

#### Sales Tax Anticipated Revenue (STAR)

In 2007, the Idaho Legislature passed a bill to create a funding mechanism for developers to build large transportation projects to mitigate traffic issues stemming from new commercial developments, and then be repaid using the new sales tax the developments create (known as "STAR Financing"). The bill was modified in 2008, expanding the accessibility of the new financing tool. ITD and local agencies may enter into a STAR financing agreement with a developer.

#### Congestion Mitigation/Air Quality (CMAQ)

ITD receives approximately \$13 million of CMAQ funds per year, of which \$3 million are set-aside for two areas in non-attainment of the National Ambient Air Quality Standards for fine particulate matter (2.5 microns in diameter or less; called "PM<sub>2.5</sub>"): the Cache Valley area in southeast Idaho and the Pinehurst area in north Idaho; neither of which is in the COMPASS planning area. ITD holds these funds, which will eventually lapse or be returned to FHWA if a rescission occurs.

The remaining \$10 million is allowed by federal regulation to be either transferred to another program or used on STBG-eligible activities. ITD chooses to use the CMAQ funds on STBG-eligible activities across the state.

## *Local Agencies*

### ACHD

ACHD is a county-wide transportation agency, responsible for local (non-ITD) roadways and related public right-of-way in Ada County, including within the city limits of the Cities of Boise, Meridian, Eagle, Kuna, Garden City, and Star. ACHD's right-of-way includes sidewalks, bikeways, roadways, bridges, storm drains, and other infrastructure dedicated to the movement of people, goods, and services.

ACHD's [Strategic Plan 2035](#)<sup>19</sup> includes two priority focus areas: (1) maintenance and safety needs by asset category (pavement, sidewalks, bridges, traffic signals and materials, and stormwater facilities) and (2) system enhancements for congestion management and relief. According to the ACHD [Integrated Five Year Work Plan](#)<sup>20</sup> (IFYWP), system enhancements in the form of widening a roadway are only intended to reach a corridor's "buildout" – the maximum number of lanes planned for a particular roadway. [ACHD's Master Street Map](#)<sup>21</sup> defines the buildout for each road. Once a road reaches its maximum number of lanes, no more lanes will be added. Congestion may still increase as land uses develop, which may require other measures to maximize efficiency of the network.

As shown in Figure 8, ACHD's IFYWP seeks to implement its Complete Streets Policy and meet the needs of all users with the project limits to take the most advantage of the work going on in the area.

Figure 8: ACHD's Complete Street Policy

### City of Nampa

According to the City of Nampa's [Transportation Master Plan](#)<sup>22</sup>, the city needs more than 141 network improvement projects through 2040, totaling \$532 million. The city's Transportation Master Plan provides a "path forward" by recommending continuous increases in city funds coupled with greater use of outside funds and

<sup>22</sup> City of Nampa Transportation Master Plan (2019):

<https://cityofnampa.us/DocumentCenter/View/10677/2019-Transportation-Master-Plan->

many new and creative resources. The City of Nampa continues to explore methods of funding its transportation needs.

### Development Impact Fees

[ACHD](#)<sup>23</sup>; [Canyon Highway District No. 4](#)<sup>24</sup>; Canyon County; and the Cities of Middleton, [Nampa](#)<sup>25</sup>, and Star use impact fee programs under [Idaho Code 67 Chapter 82](#)<sup>26</sup>. The Idaho Development Impact Fee Act allows collection of fees from developers to cover the costs associated with the new developments. Existing transportation deficiencies are covered with other resources.

### *Current Projects in the FY2023-2029 TIP*

The total cost of projects that are expected to improve congestion is about \$1.5 billion. Table 1, below, highlights all the projects in the TIP categorized under the congestion management strategies.

<sup>23</sup> ACHD Impact Fees:

<https://achdidaho.org/Departments/Engineering/DevelopmentServices/impactFees.aspx>

Subtotal							\$1,393,036,000
TOTAL							\$1,515,423,000

As of November 2022.

\*Descriptions of acronyms are available in Appendix A.

\*\*Strategies are defined in the [CMS Technical Document](#) (Appendix A)<sup>27</sup>

\*\*\*Total cost is shown in "year of expenditure" and includes all costs, not only programmed costs.

<sup>27</sup> CMS Technical Document:

<https://www.compassidaho.org/documents/prodserv/reports/2022CongestionManagementSystemTechnicalDocument.pdf>

## *Additional Projects*

### Local Expansion for Public Transportation

In FY2023, the City of Meridian started a fixed line service within the city. See additional information in the public transportation section for performance measures on page 37.

### Other Congestion-Related Projects Not Included in the TIP

The TIP does not list every project. Many projects are budgeted with local funding or may even be requirements of developers. Therefore, congestion-related improvements are much more numerous than reported in the TIP.

## **V. TIP ACHIEVEMENT**

Each project funded in the TIP supports one or more COMPASS performance measures as identified in CIM 2040 2.0; many projects also support federally required performance measures. COMPASS identifies which performance measure(s) each project supports.

COMPASS staff are constantly evaluating better ways to examine data to report achievements in a more meaningful way. As methods are developed, staff will update this report.

### **COMPASS Performance Measures**

CIM 2040 2.0 includes performance measures and targets addressing transportation, economic development, farmland, health, housing, land use, and open space.

Thirty-four [performance measures](#)<sup>28</sup> were approved for CIM 2040 2.0, adopted in 2018. To streamline reporting, the 34 measures were grouped into 8 "TIP Achievement Categories." COMPASS staff anticipates approval of *Communities in Motion 2050* (CIM 2050) by December 2022. The CIM 2050 performance measures will be incorporated into next update of the TIP. Table 2 provides a matrix demonstrating how the TIP achievement categories reflect performance measures as approved for CIM 2040 2.0.

<sup>28</sup> COMPASS Performance Measures:  
[https://www.compassidaho.org/documents/prodserv/CIM2040\\_20/TechDocs/Performance.pdf](https://www.compassidaho.org/documents/prodserv/CIM2040_20/TechDocs/Performance.pdf)

Table 2: TIP Achievement Categories

TIP Achievement Category	Example of Type of Projects	CIM 2040 2.0 and Federal Performance Measure Categories
Active Transportation	Projects to improve all aspects of non-motorized transportation, such as sidewalks or pathways	Transportation Active Transportation
Health	Projects with specific connections to grocery stores and public schools.	Health Walkability
Open Space	Projects specific to connections to open spaces and/or separated from a roadway, such as a greenbelt.	Open Space
Asset Management	Projects to maintain the current transportation system (roadway chip seals, roadway rehabilitation, bridge repair/rehabilitation/replacement, public transportation vehicle replacement, or sidewalk repair)	Public Transportation Transit Asset Management Pavement Condition Bridge Condition
Public Transportation	Projects for the operation and/or expansion of public transportation.	Public Transportation Operations
Safety	Projects that reduce number of auto, public transportation, and non-motorized crashes and make the overall system safer.	Transportation Safety Roadway Safety Public Transportation Safety
Support	Projects in support of the overall system (examples: planning, staff time, studies)	*
System Performance	Projects that add capacity to roadway segments, intersections, or bridges to help make the system more reliable for all who travel on it, including freight trips, and improvements to the intelligent transportation system/technology.	Transportation System Performance Level of Travel Time Reliability Truck Travel Time Reliability Congestion Mitigation Air Quality - Emissions

\*No performance measures are established for this category; however, support projects assist in developing plans and corridors for future projects that meet the goals and vision of CIM 2040 2.0.

## Federal Performance Measures

The federal transportation authorization bills, *Infrastructure Investment and Jobs Act* emphasizes performance-based planning and programming. MPOs have the option to either create regional targets or support statewide targets. For the roadway targets, the COMPASS Board of Directors chose to assist ITD in obtaining federal targets on a statewide basis, rather than to set specific regional targets. For transit-related targets, the COMPASS Board of Directors chose to assist VRT and ITD meet targets set by their respective Boards of Directors. Table 3 shows the federal target areas and deadlines for reporting, areas with currently approved targets are highlighted in gray.

Table 3: Federal Performance Measures

Icon	Target Area	Beginning MPO Target Deadline (updates)	Starting Reporting Deadline
	Safety	February 2018 (annually)	May 2018
	Transit Asset Management	October 2018 (annually)	October 2018
	Pavement Condition	November 2018 (every four years)	May 2019
	Bridge Condition		
	Level of Travel Time Reliability	November 2018 (every four years)	
	Freight Movement		
	Congestion Mitigation Air Quality – Emissions		
	Public Transportation Safety	December 2020 (annually)	June 2021
	Congestion Mitigation Air Quality – Traffic Congestion	November 2022 (biennially)	May 2023

Approved targets are provided below, with analysis regarding projected outcomes. It is important to note that support of statewide targets does NOT mean that COMPASS is required to address a regional “share” of the statewide goals; that is, COMPASS does not have specific goals for Ada and Canyon Counties. It simply means that COMPASS is supporting ITD’s statewide efforts. However, when available, regional data are shown for informational purposes.

Federal performance measures are incorporated into the overall COMPASS performance measures throughout this document and the project list.

### TIP Achievement Reporting

To further report on the support of CIM 2040 2.0 performance measures and federal performance measures, Table 4 provides an analysis of the distribution of funding and number of projects across all TIP achievement categories. A project may meet the goals of multiple performance measures. These measures are not weighted but are divided based on the number of performance measures for each project. For example, if a project meets the goals of two performance measures, 50% of the project cost is reported for each measure.

Table 4: Analysis of TIP Achievement

TIP Achievement Category	Number of Projects*	Dollar Amount**	Percentage of Dollar Amount
Active Transportation	72	\$144,177,000	8.88%

TIP Achievement Category	Number of Projects*	Dollar Amount**	Percentage of Dollar Amount
Health	27	\$27,186,000	1.67%
Open Space	26	\$39,487,000	2.43%
Asset Management	40	\$91,942,000	5.66%
Transit Asset Management	17	\$40,036,000	2.47%
Public Transportation	36	\$74,013,000	4.56%
Safety	125	\$485,843,000	29.93%
Support	35	\$41,192,000	2.54%
System Performance	51	\$390,127,000	24.03%
Freight Movement	3	\$4,930,000	0.30%
NHS Reliability (Level of Travel Time Reliability)	33	\$284,419,000	17.52%
		\$1,623,352,000	

As of November 2022.

\*Most projects are reported in multiple TIP achievement categories; therefore, the sum of the total number of projects would be skewed and is not reported.

\*\*Totals may not sum due to rounding. Reported in year of expenditure costs.

## Active Transportation

Active transportation relates to non-motorized modes of transportation and includes walking, biking, rolling, or other modes that require activity. There are no specific federal targets for active transportation other than safety targets, which are included in the safety section for performance measures. Projects that may be included for improvements to active transportation include everything from building a sidewalk or maintaining a pathway, to educating elementary school students on how to walk and bike safely.

There are 54 projects totaling almost \$572 million currently programmed in the TIP that include some aspect of active transportation. Many of the projects include multiple facets of transportation in one project, such as ACHD projects for pavement improvement, which include roadway rehabilitation, ramp improvements to meet the Americans with Disabilities Act (ADA) requirements, and sidewalk improvements including filling gaps in the existing sidewalk network.

### Health

There are two goal subsets for active transportation. Projects that connect the user to grocery stores and public schools are considered a health benefit. These types of trips are necessary and provide benefits to the user's health and education. Eight projects are specific to the health subset, with a total of about \$49 million budgeted through FY2027.

### Open Space

Connections to open spaces such as parks, rivers, and lakes, also provide health benefits, but are considered more recreational in nature. The open space subset includes projects to expand or improve a greenbelt or other connections to open spaces throughout the Treasure Valley. Six projects are specific to the open space subset, with a total of about \$36 million budgeted through FY2027.

### *Progress on Active Transportation*

Table 5 reports current trends on various measures for active transportation.

*Table 5: Trends on the Active Transportation System*

Category	Description	Trend
Walkability: public schools	Percentage of households within ½ mile walk of a school that can access the school using the walkable network	↑ 68.01% (2021) 67.90% (2020)
Walkability: transit stops	Percentage of households within ½ mile walk of a transit stop that can access the stop using the walkable network	↑ 82.03% (2021) 81.50% (2020)
Walkability: public parks	Percentage of households within ½ mile walk of a public park that can access the park using the walkable network	↓ 68.52% (2021) 69.2% (2020)
Percentage of roadway (arterial/collectors) with bicycle lanes/multiuse pathways	Percentage of arterial and collector roadway that have existing bikeways as defined as a division of a road marked off with painted lines, for use by cyclists, not including sharrows or other markings within automobile lanes, or multiuse pathways that allow for bicycle travel.	↓ 18.8% (2021) 22.5% (2019)
Miles of trails and pathways	Percentage of increase of the miles of trails and pathways from previous reporting period	↓ 571.7 (2021) 577 (2019)

Projects listed in Table 6 emphasize active transportation, including the subset categories of Health and Open Space, when appropriate, included in the FY2023-2029 TIP. The costs are shown only for FY2023-2027, as projects beyond the first five years are “illustrative.” Costs are shown in “year of expenditure,” (increased to reflect inflation).

*Table 6: Analysis of Active Transportation Projects, FY2023-2027*

Key Number	Project	Subset	Total Cost FY2022-2027 *
23833	Access to Opportunity, Boise and Garden City		\$6,430,000
20841	Bicycle and Pedestrian Bridge over North Channel of Boise River, Eagle	Health	\$4,377,000
23313	Bicycle and Pedestrian, Permanent Automated Counters, Boise, COMPASS		\$8,000
23026	Bicycle and Pedestrian, Permanent Automated Counters, Nampa, COMPASS		\$39,000
RD216-04	Eagle Road, Lake Hazel Road to Amity Road, Meridian		\$6,745,000
RC0133	Fairview Avenue, Locust Grove Road to SH-55 (Eagle Road), Meridian		\$5,300,000
23095	Five Mile Road Overpass and Widening, Boise	Health	\$4,252,000

Key Number	Project	Subset	Total Cost FY2022-2027*
23591	Five Mile Road, I-84 Overpass Construction, Boise	Health	\$10,522,000
RD203-04	Five Mile Road, Overland Road to Franklin Road, Boise	Health	\$18,145,000
22102	Franklin Boulevard and Karcher Road, Intersection Improvements, Nampa		\$3,556,000
102497	Franklin Road, McDermott Road to Black Cat Road, Ada County		\$6,995,000
23324	Garden Street Multi-Use Pathway, Cassia Park to Albion Street, Boise	Open Space	\$1,891,000
22602	Indiana and Orchard Shared Roadway, Canyon County	Open Space	\$5,303,000
RD209-18	Lake Hazel Road, Eagle Road to Cloverdale Road, Ada County	Open Space	\$12,948,000
RD209-28	Linder Road, SH-44 (State Street) to Floating Feather Road, Eagle	Health	\$8,971,000
22016	Midway Road, SH-55 (Karcher Road) to I-84B, Rehabilitation, Canyon County		\$3,470,000
13494	Old Highway 30, Plymouth Street Bridge, Caldwell	Open Space	\$13,709,000
RD207-01	Orchard Street Realignment, Gowen Road to Victory Road, Boise		\$24,587,000
23917	Pathway, Canyon Street, Phase 2, Nampa	Health	\$345,000
23307	Pathway, Federal Way and Broadway Avenue Multiuse Pathway, Boise	Health, Open Space	\$1,614,000
22385	Pathway, Greenbelt Completion, Boise State	Health, Open Space	\$873,000
13918	Pathway, Rail with Trail, Meridian	Open Space	\$735,000
20542	Pathway, SH-55 (Eagle Road), Franklin to Pine, Meridian		\$700,000
23685	Pathway, SH-55 (Eagle Road), McMillan to Bristol Heights, Boise	Health, Open Space	\$1,084,000
22931	Pathway, SH-55 (Eagle Road), Bristol Heights to US 20/26, Boise		\$362,000
19465	Pavement Preservation and ADA, Phase 1, Boise Area – FY2022		\$14,269,000
20122	Pavement Preservation and ADA, Phase 2, Boise Area – FY2022		\$2,569,000
20006	Pavement Preservation and ADA, Phase 3, Boise Area - FY2023		\$1,128,000
13964	Peckham Road, US-95 to Notus Road, Canyon County	Health, Open Space	\$4,341,000
20549	Pedestrian Improvements, US 20/26 (Chinden) at 43rd Street, Garden City	Health	\$307,000
NEW07	Reconnecting, Accessibility, and Improving Safety and Equity, Nampa	Health	\$5,000,000
20674	Roadway and ADA Improvements, Boise Area – FY2024		\$8,087,000
21896	Roadway and ADA Improvements, Boise Area – FY2026		\$10,027,000
22390	Roadway and ADA Improvements, Boise Area – FY2027		\$8,353,000

Key Number	Project	Subset	Total Cost FY2022-2027*
20259	Roadway and ADA Improvements, Part 1, Boise Area – FY2023		\$7,645,000
23674	Smart Trip Treasure Valley, ACHD		\$453,000
20493	SR2S, VRT, Ada County – FY2023		\$171,000
21910	SR2S, VRT, Ada County – FY2024		\$210,000
23943	SR2S, VRT, Ada County – FY2025		\$214,000
23834	SR2S, VRT, Ada County – FY2026		\$231,000

22924	SR2S, VRT, Canyon County – FY2023		\$65,000
23843	SR2S, VRT, Canyon County – FY2025		\$60,000
23924	SR2S, VRT, Canyon County – FY2027		\$50,000
IN210-03	State Street, Hertford Way to Ellens Ferry, Boise	Open Space	\$9,131,000
RC0299	Ten Mile Road, Victory Road to Overland Road, Meridian		\$3,036,000
23179	Transit - State Street Premium Corridor, Part 2, Boise Area, VRT	Health, Open Space	\$10,571,000
22165	US 20/26 (Chinden), I-84 to Middleton Road, Canyon County		\$67,146,000
20594	US 20/26 (Chinden), Linder Road to Locust Grove, Meridian and Eagle	Health	\$7,688,000
20367	US 20/26 (Chinden), Phyllis Canal Bridge to SH-16, Ada County		\$15,607,000
23337	US 20/26, Middleton Road to Star Road, Ada and Canyon Counties		\$233,634,000
200919	Ustick Road, Black Cat Road to Ten Mile Road, Meridian	Health	\$4,686,000
RD207-24	Ustick Road, Ten Mile Road to Linder Road, Meridian		\$7,390,000
22600	Western Heritage Byway, Swan Falls Road, ACHD	Open Space	\$6,664,000
		<b>Total</b>	<b>\$571,997,000</b>

As of November 2022.

\*Costs are shown in “year of expenditure” (increased to inflect inflation). Costs may also include other aspects of some projects, such as road work.

# Asset Management

## Transit Asset Management

On August 26, 2019, the COMPASS Board of Directors adopted a position to support regional transit asset management targets for “state of good repair” as described in VRT’s [Transit Asset Management \(TAM\) Plan](#)<sup>29</sup>.

On August 1, 2022, the VRT Board adopted the TAM Plan for FY2023-2026. The plan outlines the processes and tools used to perform condition assessments, investment prioritization, and target setting to improve the state of good repair of regional public transportation assets. The plan also provides an inventory and condition assessment for all assets under the responsibility of group plan participants: ACHD, Boise State University, and VRT (Table 7).

Table 7: Transit Asset Management Targets

Asset Category	Performance Measure	FY2022 Target	FY2022 Actual	FY2023 Target
Rolling Stock	<b>Age</b> - Percent of revenue vehicles that have met or exceeded their Useful Life Benchmark (ULB)	24.67%	19.82%	24.67%
Equipment		12.70%	29.11%	12.70%
Facilities	<b>Condition</b> - Percent of facilities with a condition rating below 3.0	42.86%	30.00%	42.86%

Green highlight = met FY2021 targets

Peach highlight = did not meet FY2021 target

\$32 million in vehicle and equipment replacements (and improvements) is budgeted in the FY2023-2029 TIP. VRT is conducting facility master planning that will provide additional data and cost estimates that will aid in programming the remaining in state of good repair needs. The FY2023-2029 draft TIP includes approximately \$32 million programmed between FY2023 and FY2026 (the TAM horizon period) for transit capital projects to address replacement and capital expansion needs. A list of prioritized capital improvement projects (TAM and capital enhancements), known as the Transportation Development Plan, was completed in FY2022.

VRT is proactive in applying for competitive transit capital grants to address this backlog and leverage available local funding with federal funding whenever possible. VRT continues to see shortfalls in local revenue in the small urban area leading to challenges addressing capital replacement and deferred maintenance. VRT is working closely with local governments to address the shortfall.

<sup>29</sup> Transit Asset Management Plan: <https://www.valleyregionaltransit.org/wp-content/uploads/2021/08/2021TAMPlan.pdf>.

Projects listed in Table 8 emphasize transit asset management (state of good repair) included in the FY2023-2029 TIP. The costs are shown only for FY2023-2026, as the TAM Plan is based on a four-year horizon. The TAM Plan is posted on VRT's [website](#)<sup>30</sup>.

*Table 8: Analysis of Transit Asset Management Projects, FY2023-2026*

Key Number	Project	Asset Category	Total Cost FY2023-2026
18788	Transit - Rolling Stock, Infrastructure, and Technology, Boise Area, VRT	Rolling Stock, Equipment, Facilities	\$384,000
19122	Transit - Rolling Stock, Infrastructure, and Technology, Boise Area, VRT	Rolling Stock, Equipment, Facilities	\$2,552,000
23667	Transit - Rolling Stock, Infrastructure, and Technology, Boise Area, VRT – FY2023	Rolling Stock, Equipment, Facilities	\$186,000
20659	Transit - Rolling Stock, Infrastructure, and Technology, Boise Area, VRT – FY2024	Rolling Stock, Equipment, Facilities	\$1,754,000
21903	Transit - Rolling Stock, Infrastructure, and Technology, Boise Area, VRT – FY2025	Rolling Stock, Equipment, Facilities	\$1,758,000
22393	Transit - Rolling Stock, Infrastructure, and Technology, Boise Area, VRT – FY2026	Rolling Stock, Equipment, Facilities	\$1,758,000
18781	Transit - Rolling Stock, Infrastructure, and Technology, Nampa Area, VRT	Rolling Stock, Equipment, Facilities	\$1,101,000
20136e	Transit - Rolling Stock, Infrastructure, and Technology, Nampa Area, VRT	Rolling Stock, Equipment, Facilities	\$1,372,000
20136b	Transit - Vehicle Replacements, TVT	Rolling Stock	\$264,000
20136f	Transit - Vehicle Replacement, ACHD	Rolling Stock	\$892,000
NEW04	Transit - Vehicle Replacements, Boise Area, VRT	Rolling Stock, Equipment	\$20,000,000
Total			\$32,021,000

As of November 2022.

### *Pavement Condition*

On August 20, 2018, the COMPASS Board of Directors adopted a position to support statewide pavement condition targets established by ITD, which is to maintain a certain percentage of pavement on the NHS in “good” condition, as well as maintain a minimum percentage of pavement in “poor” condition (Table 9).

<sup>30</sup> Transit Asset Management Plan: <https://www.valleyregionaltransit.org/wp-content/uploads/2021/08/2021TAMPlan.pdf>

Table 9: Pavement Conditions on the NHS and FY2022 Targets

Type of Roadway	Pavement Condition	FY2019 Regional Condition Percentage	FY2019 Statewide Condition Percentage	FY2020 Regional Condition Percentage	FY2020 Statewide Condition Percentage	FY2021 Regional Condition Percentage	FY2021 Statewide Condition Percentage	FY2022 Target
Interstate	Good	42.00%	59.00%	70.0%	59.7%	38.90%	58.70%	> 50%
Interstate	Poor	0.00%	1.00%	0.0%	0.4%	0.10	0.30%	< 4%
Interstate	No Data	26.00%	3.00%	0.0%	0.7%	61.00%	41.00%	
Total		<b>100%</b>	<b>100%</b>				<b>100%</b>	
Non-Interstate	Good	39.00%	41.00%	42.2%	46.3%	36.70%	40.3%	> 50%
Non-Interstate	Poor	0.00%	1.00%	0.2%	0.8%	0.70%	0.70%	< 8%
Non-Interstate	No Data	19.00%	15.00%	0.4%	0.8%	62.60%	59.0%	
Total		<b>100%</b>	<b>100%</b>				<b>100%</b>	

Green highlight = meets FY2022 targets

Peach highlight = does not meet FY2022 targets

Gray = target

2021 pavement conditions are shown on the COMPASS TIP Viewer (interactive map) found on the COMPASS [website](#)<sup>31</sup>.

Pavement condition targets aim to keep a certain percentage of pavement in good condition. It is less costly to keep roads in good condition than to repair roads in poor condition. Costs increase exponentially when more involved treatments are needed to repair them (Figure 9).

### Prevention Saves Costs

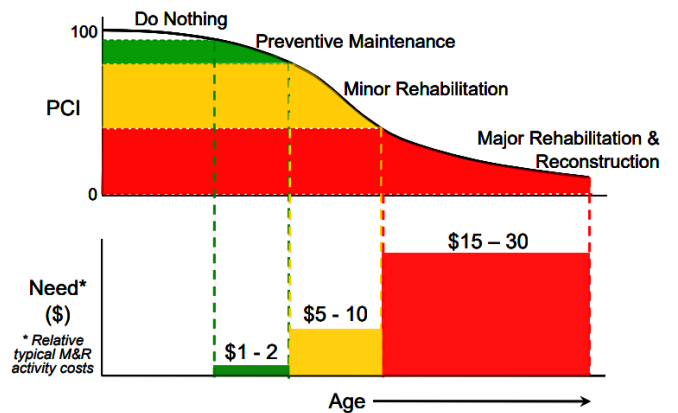

Figure 9: Pavement Asset Management Cycle, graphic from David Hein, PE, ARA, used with permission.

COMPASS currently does not have the tools to estimate exactly how projects will accomplish overall pavement condition goals. However, projects are selected by

<sup>31</sup> COMPASS TIP Viewer:

<https://compassidahomaps.arcgis.com/apps/Cascade/index.html?appid=b0a54a77f8d047aa9b8b479347cc0463> Contact COMPASS staff if you need assistance at 208-855-2558.

ITD and local agencies to strategically produce the best treatment for dollars available. Many projects shown in the TIP are “placeholders” for pavement management work. Since projects in the TIP start five years or more from the date they are added, the local agency selects the segments of roadway that are most appropriate for the funding when the design phase begins. Through projects in the FY2023-2029 TIP between FY2023 and FY2027, as projects beyond the first five years are “illustrative,” local agencies plan to spend:

- More than \$72 million on pavement condition improvements on local roadways
- About \$2.9 million on local NHS roadways
- As well as additional projects to maintain the existing local system with local funds (not listed in the TIP)

In addition, ITD plans to spend:

- About \$9 million on the interstate
- Almost \$62 million on pavement condition improvements on non-interstate NHS roadways.

Details of these projects can be found in Table 10.

*Table 10: Projects that Improve Pavement Condition on the NHS, FY2023-2027*

Key Number	Project	NHS			Local, Not NHS
		Interstate	Non-Interstate	Local	
13905	10th Avenue ITS and Overlay, Caldwell			\$2,857,000	
23833	Access to Opportunity, Boise and Garden City				\$6,430,000
19951	Highway 30, Sand Hollow Road to SH-44, Canyon County				\$3,829,000
20212	I-84, Garrity Interchange to Ten Mile Interchange, Canyon and Ada Counties	\$3,460,000			
23544	I-84, Interchange Ramps, District 3	\$5,691,000			
22016	Midway Road, SH-55 (Karcher Road) to I-84B, Rehabilitation, Canyon County				\$3,239,000
19465	Pavement Preservation and ADA, Phase 1, Boise Area - FY2022				\$14,269,000
20122	Pavement Preservation and ADA, Phase 2, Boise Area – FY2022				\$2,569,000
20006	Pavement Preservation and ADA, Phase 3, Boise Area - FY2023				\$1,034,000
NEW07	Reconnecting, Accessibility, and Improving Safety and Equity, Nampa				\$5,000,000
20674	Roadway and ADA Improvements, Boise Area – FY2025				\$8,087,000
21896	Roadway and ADA Improvements, Boise Area – FY2026				\$10,027,000
22390	Roadway and ADA Improvements, Boise Area – FY2027				\$9,920,000

Key Number	Project	NHS			Local, Not NHS
		Interstate	Non-Interstate	Local	
20259	Roadway and ADA Improvements, Part 1, Boise Area – FY2023				\$7,631,000
20612	SH-21, Pavement Preservation, Ada and Boise Counties		\$5,628,000		
23535	SH-21, Pavement Preservation, Boise		\$1,218,000		
23626	SH-45, Junction SH-78 to Deer Flat Road, Sealcoat, Canyon County		\$1,292,000		
23542	SH-55 (Eagle Road), I-84 to SH-44, Microseals, Ada County		\$3,297,000		
20506	SH-55, SH-44 (State Street) to Payette River Bridge, Rehabilitation		\$22,071,000		
22699	SH-69, Pavement Preservation, Kuna to Meridian		\$2,627,000		
20536	US 20/26 and SH-44, Pavement Rehabilitation, Ada County		\$3,827,000		
22677	US 20/26 and SH-44, Surface Treatments, Ada and Canyon Counties		\$10,802,000		
23167	US-95, Parma North City Limit to I-84, Canyon and Payette Counties		\$9,578,000		
23162	US-95, Pavement Preservation, Canyon County		\$1,216,000		
<b>Total</b>		<b>\$9,151,000</b>	<b>\$61,556,000</b>	<b>\$2,857,000</b>	<b>\$72,035,000</b>

As of November 2022.

Note: The "Capital Maintenance," "Pavement Preservation and ADA," and "Roadway and ADA Improvement" projects listed above may not have specific segments identified. Some segments may be on the NHS.

Deferred maintenance is no longer required for local agencies in their annual reports and is currently unknown at a regional level.

### Bridge Condition

On August 20, 2018, the COMPASS Board of Directors adopted a position to support statewide bridge condition targets established by ITD, which aim to improve or maintain a certain percentage of bridges in "good" condition and a minimum percentage of bridges in "poor" condition on the NHS (Table 11).

Table 11: Bridge Conditions and FY2022 Targets

Bridge Condition	FY2019 Regional Condition Percentage	FY2019 Statewide Condition Percentage	FY2020 Regional Condition Percentage	FY2020 Statewide Condition Percentage	FY2021 Regional Condition Percentage	FY2021 Statewide Condition Percentage	FY2022 Target
Good	29.09%	17.75%	28.38%	18.58%	33.00%	20.95%	At least 19%
Poor	0.45%	4.30%	0.00%	2.80%	2.30%	3.52%	<3%
Other	70.46%	77.95%	71.62%	81.42%	64.70%	75.53%	
Total	100%	100%	100%	100%	100%	100%	

Green highlight = meets FY2022 targets

Peach highlight = does not meet FY2022 targets

Gray = target

2021 bridge conditions are shown on the COMPASS TIP View (interactive map) on the COMPASS [website](#)<sup>32</sup>.

In the COMPASS planning area, one bridge on the NHS is in poor condition: 10<sup>th</sup> Avenue just north of the railroad in the City of Caldwell. A replacement project for this bridge is not yet funded. However, over \$17 million is scheduled for improvements on NHS bridges and over \$23 million for bridges on non-NHS bridges. See Table 12 for a list of bridge projects in the TIP.

Table 12: Projects that Improve Bridge Condition in the FY2023-2029 TIP

Key Number	Project <sup>1</sup>	Current Condition	Year Built	Treatment	Total Project Cost on NHS	Total Project Cost on Non-NHS
22878	*Homedale Road, Curve Improvements, Canyon Highway District (Deer Flat North Canal Bridge)	No data	No data	Replace/Widen		\$999,000
21967	I-84 Bridge Repairs, City of Caldwell			Preservation	\$1,706,000	
	Boise River	Good	1983			
	10 <sup>th</sup> Avenue	Good	1983			
RD209-28	*Linder Road, SH-44 (State Street) to Floating Feather Road, Eagle (includes two bridges)	No data	no data	Replace/Widen		\$8,971,000
20536	*Microseals, Ada and Canyon Counties (US 20/26 south of Front Street to south side of Boise River [Broadway Bridge])	Good	2016	Preservation	\$3,827,000	
13494	Old Highway 30, Plymouth Street Bridge, Caldwell	Obsolete	1922	New		\$13,709,000
23879	SH-21, Mores Creek Bridge Repair, Ada County	Fair	1953	Repair	\$6,550,000	
20227	US 20/26 (Chinden), Phyllis Canal, Bridge Rehabilitation, near Meridian	Good	1956	Replacement	\$5,287,000	
<b>Total</b>					<b>\$17,370,000</b>	<b>\$23,044,000</b>

As of November 2022.

\*Project cost includes the roadway segment.

## Public Transportation

### Operations

Currently, there are no targets specifically for the operations of public transportation. The intent is to maintain current service levels and expand the service as funding permits.

VRT staff have been working towards further improving service as outlined in [Valley Connect 2.0](#)<sup>33</sup>.

The VRT Board of Directors approved service changes which were implemented on October 3, 2022. These changes add new fixed-route service in the City of Meridian and move VRT closer to the goals outlined in Valley Connect 2.0. The addition of the 30 Pine route results in first-time availability of Americans with Disability Act complementary paratransit service in the City of Meridian. This curb-to-curb service is provided to persons with disabilities who cannot use the fixed-route service. The paratransit service is available up to  $\frac{3}{4}$  mile on either side of the 30 Pine route (and at the ends of the route).

The 45 Boise State University/College of Western Idaho (CWI) via Fairview route (formerly the 45 Boise State University/CWI Express) was rerouted from Interstate 84 to Cherry Lane/Fairview when traveling between Boise State University and CWI. This route provides more service opportunities in growing areas, increases transit access (536% increase in access for residents and 188% increase access to jobs) and repurposes low-performing service.

The October 3, 2022, service changes also impact the following routes:

- 7A Fairview/Ustick
- 40 Nampa/Meridian Express
- 42 Happy Day to Towne Square Mall
- 43 Caldwell Express

All transit service route changes are explained in more detail on VRT's [website](#)<sup>34</sup>.

See Table 13 for a list of public transportation operations projects in the TIP. Almost \$29 million is scheduled for the operations of public transportation in the in the FY2023-2029 TIP. Note that some of the operating costs are funded with local funds by local agencies and are not reported in the TIP.

<sup>34</sup> Link to maps regarding VRT's service changes: [www.valleyregionaltransit.org/planning/service-changes/](http://www.valleyregionaltransit.org/planning/service-changes/)

Table 13: Projects for Public Transportation Operations in FY2023-2027, in the FY2023-2029 TIP

Key Number	Project	Years of Service	Type of Service	Total Cost
20043	Transit - Above and Beyond ADA Paratransit, Nampa Area	2023-2027	Paratransit	\$1,680,000
19691	Transit - Acquisition of Service, Boise Area, VRT	2023-2027	Purchase of Service	\$3,149,000
19464a	Transit - Acquisition of Service, Nampa Area, VRT	2023-2027	Purchase of Service	\$3,086,000
19983	Transit - Fixed Line Service, Rural Areas, TVT	2023-2024	Fixed Line	\$4,182,000
18786	Transit - Operations - Fixed Route and Mobility Management, Nampa Area, VRT	2023-2027	Fixed Line and Mobility Management	\$9,323,000
19041	Transit - Operations - Mobility Management, Boise Area, VRT	2023-2027	Mobility Management	\$7,070,000
19464f	Transit – Operations, Kuna Senior Center	2023-2024	Operations	\$96,000
19464g	Transit – Purchase of Service Rural Areas, VRT	2023-2024	Purchase of Service	\$290,000
<b>Total</b>				<b>\$28,576,000</b>

As of November 2022.

## Ridership

Total transit ridership from October 1, 2021, through August 31, 2022, increased over 20% from the same period of the prior year. However, total ridership is still down approximately 29% from the same period in FY2019 (pre-pandemic). (Note: not all ridership data is comparable between FY2019 and FY2022 due to availability of data between the two fiscal years, but the data is similar.)

See tabular and graphical representation ridership throughout FY2022 in Appendix B.

## Safety

### Roadway Safety

On December 18, 2017, the COMPASS Board of Directors adopted a position to support the statewide safety targets established by ITD.

RTAC recommended updated statewide safety targets on November 20, 2019, which seek to improve upon the benchmark five-year statewide average (2013-2017) (Table 14), considering population growth trends. The COMPASS Board of Directors approved the safety targets on December 16, 2019. While the current approved FY2021 target (gray) is for the years 2015-2019, projects in the FY2023 -

2029 TIP will help ITD reach future targets. Updated information is not available in time for this report.

Table 14: Idaho Statewide Safety Targets

Idaho	Benchmark	Actual Average	Actual Average	Actual Average	State and Regional Safety Targets
	2013-2017	2014-2018	2015-2019	2016-2020	2021
Fatalities	223	227	234	234	< 247
Serious Injuries	1,293	1,297	1,269	1,217	< 1,285
Fatalities by VMT*	1.33	1.33	1.35	1.34	< 1.38
Serious Injury by VMT*	7.74	7.59	7.29	6.94	< 7.21
Non-Motorist Fatalities and Serious Injuries	117	121.8	121.2	120.6	< 120

\*VMT = vehicle miles traveled per 100 million miles

Green highlight = meets FY2022 targets

Peach highlight = does not meet FY2022 targets

Gray = target

Projects with an emphasis on safety in the FY2023-2029 TIP are shown in Table 15. Only projects shown between FY2023 and FY2027 are included in the analysis, as projects beyond FY2027 are considered illustrative. An analysis is provided regarding how each project is expected to decrease overall crashes, as this is the finest level of analysis staff can conduct at this time. Reduction in overall crashes based on measures reported in the Crash Modification Factors (CMF) Clearinghouse will result in reduction of fatalities and serious injuries as well, which are the actual targets. (The CMF Clearinghouse contains predictive data based on studies of similar projects across the nation.) Not every safety measure has predictive data to determine changes in crash rates.

Overall, projects that emphasize safety in the FY2023-2029 TIP are projected to prevent an estimated 792 crashes in Ada and Canyon Counties. Over \$442 million is budgeted towards projects with safety benefits.

Table 15: Analysis of Safety Projects in the FY2022-2028 TIP

Key Number	Project <sup>1</sup>	Total Cost	Counter Measures <sup>2</sup>	Expected % Change Based on CMF <sup>3</sup> Data	Expected Actual Change in Crashes <sup>4</sup>
13905	10th Avenue ITS and Overlay, Caldwell	\$3,016,000	Resurface pavement; lane use control on Interstate.	9.000%	-3.35
23883	2nd Street South, Safety Improvements, Nampa	\$1,552,000	Add streetlights, RRFB crossing, two-way two-lane, left turn lane and 4-5-foot paved shoulder.	32.000%	-20.76

Key Number	Project <sup>1</sup>	Total Cost	Counter Measures <sup>2</sup>	Expected % Change Based on CMF <sup>3</sup> Data	Expected Actual Change in Crashes <sup>4</sup>
23833	Access to Opportunity, Boise and Garden City	\$6,430,000	Signalize crossings; add intersection lighting, ADA ramps/signals, and multiuse bike/ped paths.	18.000%	-26.72
20841	Bicycle and Pedestrian Bridge over North Channel of Boise River, Eagle	\$4,251,000	New bike/ped bridge; add guardrail	40.000%	-1.86
23313	Bicycle & Pedestrian, Permanent Automated Counters, Boise, COMPASS	\$8,000	One bike/ped counter.	No CMF	N/A
23026	Bicycle & Pedestrian, Permanent Automated Counters, Nampa, COMPASS	\$39,000	Five bike/ped counters.	No CMF	N/A
13484	Centennial Way Roundabout, Caldwell	\$4,352,000	From 6-legged to roundabout intersection (not interchange)	44.000%	-13.82
RD216-04	Eagle Road, Lake Hazel Road to Amity Road, Meridian	\$6,745,000	Widen to five lanes; bike/ped facilities both sides; roundabout.	27.000%	-1.74
RC0133	Fairview Avenue, Locust Grove Road to SH-55 (Eagle Road), Meridian	\$5,300,000	Widen from 5 to 7 lanes; bike/ped facilities both sides.	0.078%	-5.28
23095	Five Mile Road Overpass and Widening, Boise	\$4,252,000	Widen from 2 to 5 lanes; bike/ped facilities both sides; widen bridge from 2 to 4 lanes; add sidewalks.	0.247%	-0.2
23591	Five Mile Road, I-84 Overpass Construction, Boise	\$10,522,000	Widen from 2 to 5 lanes; bike/ped facilities both sides; widen bridge from 2 to 4 lanes; add sidewalks.	0.158%	-0.13
RD203-04	Five Mile Road, Overland Road to Franklin Road, Boise	\$18,145,000	Widen to five lanes; bike/ped facilities both sides.	0.434%	-21.01

Key Number	Project <sup>1</sup>	Total Cost	Counter Measures <sup>2</sup>	Expected % Change Based on CMF <sup>3</sup> Data	Expected Actual Change in Crashes <sup>4</sup>
22102	Franklin Boulevard and Karcher Road, Intersection Improvements, Nampa	\$3,556,000	Widen lane; curb and gutter; sidewalks and ramps, roundabout; relocate power pole.	7.150%	-13.72
22103	Franklin Boulevard, Freight Improvements near 3rd Avenue North, Nampa	\$8,987,000	Intersection signal; relocate at-grade rail crossing; add access.	0.692%	-0.55
102497	Franklin Road, McDermott Road to Black Cat Road, Ada County	\$6,995,000	Widen road; bike/ped facilities both sides.	0.315%	-1.7
23324	Garden Street Multi-Use Pathway, Cassia Park to Albion Street, Boise	\$1,891,000	Multiuse pathway; multiuse bridge over canal; pipe channel.	0.630%	-0.13
19951	Highway 30, Sand Hollow Road to SH-44, Canyon County	\$4,106,000	Rebuild highway; lighting; improve intersection; left-turn lanes both approaches.	0.059%	-1.09
22878	Homedale Road, Curve Improvements, Canyon Highway District	\$999,000	Widen bridge from 2 to 4 lanes; widen shoulders; thermoplastic rumble strips; flatten curve slopes.	0.324%	-0.26
23181	I-84 and I-184, Signage Replacement, Ada County - FY 2024	\$520,000	Bridge deck preservation; approach maintenance; guardrails.	0.027%	-20.06
23188	I-84 and SH-44 Interchange Replacement, Canyon County	\$17,317,000	Replace interstate bridge	0.580%	-3.13
23437	I-84, Centennial Interchange to Franklin Interchange, Caldwell	\$121,500,000	Widen Interstate; auxiliary lanes; improve drainage.	0.384%	-17.74
22746	I-84, Cole Road and Overland Road Interchange, Lighting Improvements, Boise	\$255,000	Upgrade two interchange lighting infrastructures.	0.259%	-6.42

Key Number	Project <sup>1</sup>	Total Cost	Counter Measures <sup>2</sup>	Expected % Change Based on CMF <sup>3</sup> Data	Expected Actual Change in Crashes <sup>4</sup>
20212	I-84, Garrity Interchange to Ten Mile Interchange, Canyon and Ada Counties	\$3,666,000	Resurface pavement in Nampa and Meridian.	0.142%	-15.36
23544	I-84, Interchange Ramps, District 3	\$6,141,000	Restore ramp pavement surfaces.	0.873%	-106.64
23336	I-84, Karcher Road Interchange, Nampa	\$33,750,000	Widen I-84 Interchange; running right turn lane; additional lane.	0.485%	-28.71
23456	I-84, Meridian Road Interchange to Eagle Road Interchange, Design, Meridian	\$1,505,000	Evaluate adding I-84 Interchange auxiliary lanes (on and off ramps).	0.120%	-0.1
23708	I-84, Striping - FY2023	\$560,000	Restripe line in Ada, Canyon, Elmore, and Payette Counties.	0.129%	-45.81
23803	I-84, Striping - FY2024	\$725,000	Restripe line in Ada, Canyon, Elmore, and Payette Counties.	0.129%	-45.81
23804	I-84, Striping - FY2025	\$725,000	Restripe line in Ada, Canyon, Elmore, and Payette Counties.	0.129%	-45.81
23805	I-84, Striping - FY2026	\$725,000	Restripe line in Ada, Canyon, Elmore, and Payette Counties.	0.129%	-45.81
23806	I-84, Striping - FY2027	\$725,000	Restripe line in Ada, Canyon, Elmore, and Payette Counties.	0.129%	-45.81
22712	I-84B (Garrity Boulevard) and Stamm Lane Intersection Improvements, Nampa	\$2,122,000	Increase lanes; upgrade signalization; bike/ped lanes.	0.195%	-1.72
22602	Indiana and Orchard Shared Roadway, Canyon County	\$5,303,000	Four-foot paved shoulder for 1.5 miles.	0.290%	-6.73
RD207-29	Lake Hazel Road, Cloverdale Road to Five Mile Road, Ada County	\$6,318,000	Widen to five lanes; bike/ped facilities both sides.	0.219%	-3.29

Key Number	Project <sup>1</sup>	Total Cost	Counter Measures <sup>2</sup>	Expected % Change Based on CMF <sup>3</sup> Data	Expected Actual Change in Crashes <sup>4</sup>
RD207-18	Lake Hazel Road, Eagle Road to Cloverdale Road, Ada County	\$12,948,000	Widen to five lanes; bike/ped facilities both sides.	0.217%	-1.47
RD207-30	Lake Hazel Road, Five Mile Road to Maple Grove Road, Ada County	\$6,160,00	Widen to five lanes; bike/ped facilities both sides.	0.224%	-3.77
RD216-05	Lake Hazel Road, Maple Grove Road to Cole Road, Ada County	\$4,061,000	Widen to five lanes; bike/ped facilities both sides.	0.540%	-3.78
RC0207	Linder Road, Overland Road to Franklin Road, Widen and Overpass, Meridian	\$25,063,000	Widen roadway.	0.570%	-5.36
RD209-28	Linder Road, SH-44 (State Street) to Floating Feather Road, Eagle	\$8,971,000	Widen to five lanes; bike/ped facilities both sides; remove and replace two bridges.	0.931%	-9.49
RD207-19	Linder Road, US 20/26 (Chinden) to SH-44 (State), Ada County	\$20,907,000	Widen from 3 to 5 lanes; sidewalks and ramps; widen three bridges.	0.502%	-50.03
13487	Middleton Road and Ustick Road Roundabout, Caldwell	\$4,502,000	From 4-legged intersection to roundabout.	0.631%	-3.15
22016	Midway Road, SH-55 (Karcher Road) to I-84B, Rehabilitation, Canyon County	\$3,470,000	Rehabilitate pavement; shared-use shoulder.	0.071%	-1.78
13494	Old Highway 30, Plymouth Street Bridge, Caldwell	\$13,709,000	Construct separate two-lane bridge; convert old bridge to bike/ped bridge.	0.285%	-1.43
RD207-01	Orchard Street Realignment, Gowen Road to Victory Road, Boise	\$24,587,000	Widen to five lanes; bike/ped facilities both sides; three roundabouts; reconstruct intersection.	0.508%	-5.69
23917	Pathway, Canyon Street, Phase 2, Nampa	\$365,000	Widen pathway; extend 700 feet.	N/A	N/A
23307	Pathway, Federal Way and Broadway Avenue Multiuse Pathway, Boise	\$1,614,000	10-foot multiuse pathway; bike/ped facilities.	0.113%	-0.02

Key Number	Project <sup>1</sup>	Total Cost	Counter Measures <sup>2</sup>	Expected % Change Based on CMF <sup>3</sup> Data	Expected Actual Change in Crashes <sup>4</sup>
22385	Pathway, Greenbelt Completion, Boise State	\$873,000	Widen pathway from 8 to 12 feet.	N/A	N/A
13918	Pathway, Rail with Trail, Meridian	\$540,000	Multiuse path one-half mile long and parallel to railroad tracks; 8-foot separation between road and pathway where possible.	0.540%	-0.11
20542	Pathway, SH-55 (Eagle Road), Franklin to Pine, Meridian	\$700,000	Multiuse path widening sidewalk to 10 feet; lighting; and 8-foot separation between road and pathway where possible.	0.231%	-16.31
23685	Pathway, SH-55 (Eagle Road), McMillan to Bristol Heights, Boise	\$1,084,000	Multiuse pathway; 8-foot separation between road and pathway where possible.	0.540%	-0.22
22931	Pathway, SH-55, Bristol Heights to US 20.26, Boise	\$362,000	Design and construct multiuse pathway.	0.630%	-0.25
19465	Pavement Preservation and ADA, Phase 1, Boise Area - FY2022	\$14,269,000	Preserve pavement on 12 segments; improve adjoining sidewalks to be ADA compliant.	0.065%	-2.48
20122	Pavement Preservation and ADA, Phase 2, Boise Area - FY2022	\$2,569,000	Preserve pavement on 12 segments; improve adjoining sidewalks to be ADA compliant.	0.071%	2006
20006	Pavement Preservation and ADA, Phase 3, Boise Area - FY2022	\$1,111,000	Preserve pavement on 12 segments; improve adjoining sidewalks to be ADA compliant.	0.022%	-0.07
22101	Peckham Road Intersections, Canyon County	\$557,000	Reconstruct three rural intersections.	0.870%	-1.39

Key Number	Project <sup>1</sup>	Total Cost	Counter Measures <sup>2</sup>	Expected % Change Based on CMF <sup>3</sup> Data	Expected Actual Change in Crashes <sup>4</sup>
13964	Peckham Road, US-95 to Notus Road, Canyon County	\$4,341,000	Resurface pavement, curb and gutter; add 8-foot barrier between path and improved sidewalks.	0.055%	-0.26
22018	Pedestrian Improvements and Widening, Montana Avenue, Caldwell	\$2,358,000	Add sidewalk, pedestrian crossings, and RRFBs.	Zero previous ped crashes	N/A
20549	Pedestrian Improvements, US 20/26 (Chinden) at 43rd Street, Garden City	\$307,000	Pedestrian crossing on highway.	Zero previous ped crashes	N/A
20537	Railroad Crossing, Benjamin Lane, Boise	\$336,000	Crossing signal; high-visibility crosswalk; constant warning detection.	Zero previous ped crashes	N/A
23378	Railroad Crossing, Cherry Lane, Nampa	\$550,000	Crossing signals; gates; resurface crossing pavement.	Zero previous ped crashes	N/A
23379	Railroad Crossing, Karcher Road, Nampa	\$550,000	Crossing signals; gates; resurface crossing pavement.	Zero previous ped crashes	N/A
20358	Railroad Crossing, Lemp Lane, Canyon County	\$260,000	Crossing signals; gates.	Zero previous ped crashes	N/A
20355	Railroad Crossing, Look Lane, near Caldwell	\$861,000	Relocate/realign crossing; crossing signals; gates; planking.	0.253%	-0.25
20606	Railroad Crossing, Old Fort Boise Road, Canyon County	\$250,000	Crossing signals; gates.	0.254%	-0.56
NEW07	Reconnecting, Accessibility, and Improving Safety and Equity, Nampa	\$5,000,000	Modernize and expand sidewalk network; shared-use path; pedestrian bridge; modernize two railroad underpasses.	0.312%	-0.25
20674	Roadway and ADA Improvements, Boise Area - FY2024	\$8,087,000	Preserve pavement; ADA adjoining sidewalks.	0.142%	-0.8

Key Number	Project <sup>1</sup>	Total Cost	Counter Measures <sup>2</sup>	Expected % Change Based on CMF <sup>3</sup> Data	Expected Actual Change in Crashes <sup>4</sup>
21896	Roadway and ADA Improvements, Boise Area - FY2026	\$10,027,000	Preserve pavement on two segments; ADA adjoining sidewalks.	0.142%	-9.88
22390	Roadway and ADA Improvements, Boise Area- FY2027	\$9,920,000	Preserve pavement, ADA adjoining sidewalks. Would have been higher decrease but no segments specified.	0.142%	-0.03
22816	Roadway and ADA Improvements, Boise Area - FY2028	\$8,349,000	Preserve pavement, ADA adjoining sidewalks. Would have been higher decrease but no segments specified.	0.142%	-0.03
23323	Roadway and ADA Improvements, Boise Area - FY2029	\$9,107,000	Preserve pavement, ADA adjoining sidewalks. Would have been higher decrease but no segments specified.	0.142%	-0.03
20259	Roadway and ADA Improvements, Part 1, Boise Area - FY2023	\$7,631,000	Preserve pavement; ADA adjoining sidewalks.	0.142%	-0.57
23409	SH-16, Franklin Road to Ustick Road, Canyon County	\$49,129,000	From 2 to 4 lanes; add two intersections; add three overpasses.	0.085%	-0.51
23410	SH-16, I-84 to Franklin Road, Nampa	\$19,580,000	Construct Interchange; lighting; increase shoulders; ramps with right turn; extend lanes.	0.334%	-0.2
23408	SH-16, Ustick Road to US 20/26, Ada County	\$78,708,000	Construct 4-lane segment with intersections; ramps; construct overpass.	0.623%	-9.84
23546	SH-19, Simplot Boulevard to I-84, Caldwell	\$1,856,000	Pavement surfaces restored.	0.142%	-5.06
23879	SH-21, Mores Creek Bridge Repair, Ada County	\$6,902,000	Repair and paint highway bridge and approaches.	N/A	N/A

Key Number	Project <sup>1</sup>	Total Cost	Counter Measures <sup>2</sup>	Expected % Change Based on CMF <sup>3</sup> Data	Expected Actual Change in Crashes <sup>4</sup>
20612	SH-21, Pavement Preservation, Ada and Boise Counties	\$5,628,000	Chip seal pavement surface.	0.142%	-1.42
23535	SH-21, Pavement Preservation, Boise	\$1,218,000	Sealcoat highway pavement surface.	0.142%	-0.91
20266	SH-44 (State Street), SH-16	\$7,671,000	Add westbound and eastbound lanes.	0.024%	-7.73
20574	SH-44 (State Street), Star Road to SH-16, Ada County	\$13,324,000	Widen highway adding lanes both directions.	0.024%	-7.49
23182	SH-44, RWIS near SH-16, Ada County	\$519,000	Install RWIS	0.018%	-1.66
22717	SH-45 and Locust Lane Intersection, Nampa	\$2,851,000	Highway traffic signal.	0.440%	-2.29
23561	SH-45, Deer Flat Road to I-84B, Canyon County	\$10,294,000	Restore highway pavement surfaces.	0.188%	-2.29
23626	SH-45, Junction SH-78 to Deer Flat Road, Sealcoat, Canyon County	\$1,292,000	Sealcoat highway pavement surface.	0.142%	-26.38
23542	SH-55 (Eagle Road), I-84 to SH-44, Microseals, Ada County	\$3,297,000	Sealcoat highway pavement surface.	0.142%	-62.82
22715	SH-55 (Karcher Road), Farmway Road to Middleton Road, Design, Canyon	\$178,834,000	Widen highway; median traffic separation; signalization each mile; U-turns at half-miles.	1.307%	-73.7
23335	SH-55 (Karcher Road), Pear Lane to Farmway Road, Design, Canyon County	\$38,400	Engineer and acquire ROW to widen corridor from 2 to 5 lanes)	0.325%	-6.24
23163	SH-55, Pavement Preservation, Owyhee and Canyon Counties	\$962,000	Sealcoat highway pavement surface.	0.142%	-1.14
20506	SH-55, SH-44 (State Street) to Payette River Bridge, Rehabilitation	\$22,071,000	Rehabilitate 18 miles of highway pavement.	0.142%	-4.4
22699	HS-69, Pavement Preservation, Kuna to Meridian	\$2,627,000	Sealcoat highway pavement surface.	0.142%	-21.21

Key Number	Project <sup>1</sup>	Total Cost	Counter Measures <sup>2</sup>	Expected % Change Based on CMF <sup>3</sup> Data	Expected Actual Change in Crashes <sup>4</sup>
IN210-03	State Street, Hertford Way to Ellens Ferry, Boise	\$8,555,000	Widen north/south legs to four lanes and east/west legs to seven lanes; bike/ped transit facilities.	0.319%	-7.16
RC0299	Ten Mile Road, Victory Road to Overland Road, Meridian	\$3,036,000	Widen to five lanes; bike/ped facilities both sides.	0.217%	-2.82
23179	Transit - State Street Premium Corridor, Part 2, Boise Area, VRT	\$10,571,000	Accessible bus stops; lighting; multiuse pathway; bicycle crossings and lanes; street crossings.	0.461%	-105.98
22165	US 20/26 (Chinden), I-84 to Middleton Road, Canyon County	\$67,146,000	Widen highway; median traffic separation; add two intersection signalizations.	0.687%	-39
20594	US 20/26 (Chinden), Linder Road to Locust Grove, Meridian, and Eagle	\$7,688,000	Widen highway; add lane in both directions; upgrade signalization.	0.285%	-21.6
19944	US 20/26 (Chinden), Locust Grove Road to SH-55 (Eagle Road), Ada County	\$18,620,000	Widen highway.	0.570%	-19.95
20367	US 20/26 (Chinden), Phyllis Canal Bridge to SH-16, Ada County	\$15,607	Widen highway; add lane in both directions; bike/ped facilities.	0.270%	-8.53
20227	US 20/26 (Chinden), Phyllis Canal Bridge, Rehabilitation, near Meridian	\$851,000	Replace highway culvert due to restrictions for freight.	N/A	N/A
20536	US 20/26 and SH-44, Pavement Rehabilitation, Ada County	\$3,827,000	Restore pavement surfaces to three segments.	0.142%	-8.32
22677	US 20/26 and SH-44, Surface Treatments, Ada and Canyon Counties	\$10,802,000	Surface treatments to four segments in Ada and Canyon Counties	0.218%	-71.23

Key Number	Project <sup>1</sup>	Total Cost	Counter Measures <sup>2</sup>	Expected % Change Based on CMF <sup>3</sup> Data	Expected Actual Change in Crashes <sup>4</sup>
23337	US 20/26, Middleton Road to Star Road, Ada and Canyon Counties	\$233,634,000	Engineer and ROW to widen corridor from 2 to 5 lanes; intersection signalization at each mile.	1.455%	-5.242
23167	US-95, Parma North City Limit to I-84, Canyon and Payette Counties	\$9,578,000	Resurface pavement on rural highway.	0.260%	-3.07
23162	US-95, Pavement Preservation, Canyon County	\$1,216,000	Sealcoat highway pavement surface.	0.142%	-6.11
200919	Ustick Road, Black Cat Road to Ten Mile Road, Meridian	\$4,686,000	Widen roadway; bike/pedestrian facilities both sides.	0.162%	-2.14
203719	Ustick Road, Star Road to McDermott Road, Ada County	\$5,677,000	Widen roadway to five lanes; bike/ped facilities both sides.	0.292%	-2.69
RD207-24	Ustick Road, Ten Mile Road to Linder Road, Meridian	\$7,390,000	Widen roadway to five lanes; bike/ped facilities both sides.	0.232%	-3.39
22600	Western Heritage Byway, Swan Falls Road, ACHD	\$6,664,000	Add five-foot shoulder; improve accessibility.	0.097%	-0.39
Total Cost and Projected Reduction in Crashes		\$442,271,000			-792 crashes

As of November 2022.

<sup>1</sup>Only safety projects with construction in the first five years of the TIP are included in this table.

<sup>2</sup>Only safety improvements that have Crash Modification Factors applied are analyzed here.

<sup>3</sup>CMF=Crash Modification Factors

<sup>4</sup>Based on crash history. Information is not available for every safety-related project.

### Public Transportation Safety

On November 2, 2020, the Public Transportation Agency Safety Plan (PTASP) was approved by the Valley Regional Transit Board of Directors.

Targets were set based on historical data gathered through reviewing trending information over the past two years. These data are collected monthly and analyzed to ensure Valley Regional Transit is progressing toward the targets. Table 16 provides the safety targets and safety performance for public transportation.

Table 16: Valley Regional Transit Public Transportation Safety Targets

	FY2022 Target Fixed Route	FY2022 Actual Fixed Route	FY2022 Target Demand- Response	FY2022 Actual Demand- Response
<b>Fatalities</b>				
Total number of fatalities report to the NTD	0	0.00	0	0.00
Rate of fatalities per total VRM	0	0.00	0	0.00
<b>Injuries</b>				
Total number of injuries reported to the NTD	2	7.00	3	1.00
Rate of injuries per total VRM	0.12	0.00	0.03	0.00002
<b>Safety Events</b>				
Total number of safety events reported to the NTD	5	14.00	3	1.00
Rate of safety events per total VRM	0.21	1.001130	0.34	0.162785
<b>System Reliability</b>				
Mean distance between major mechanical failures by mode (VRM)	16,643.92	26,892.69	11,151.84	87,758.29

Approved November 2022.

NTD=National Transit Database

VRM=Vehicle Revenue Miles

Green highlight = meets FY2022 targets

Peach highlight = does not meet FY2022 targets

Gray = target

## Support

Certain projects, such as planning or studies, support the overall system. These projects may not specifically “move the needle” on specific performance measures but allow progress to be made on these measures in the future or assist in maintaining our current transportation system.

Approximately \$43 million is programmed for planning and studies to further transportation improvements from FY2023 through FY2027. See Table 17 for a list of support projects in the TIP.

Table 17: Support Projects in FY2023-2027, in the FY2023-2029 TIP

Key Number	Project	Years of Service	Type of Service	Total Cost
23456	I-84, Meridian Road Interchange to Eagle Road Interchange, Design, Meridian	2022-2023	Study	\$1,505,000
23599	MS4 Permit and Storm Water Management Program, Ada County	2023	Program Development and Documentation	\$250,000
18854	Planning and Mobility Implementation, Boise Area, VRT	2023-2027	Planning	\$6,287,000

Key Number	Project	Years of Service	Type of Service	Total Cost
18842	Planning and Mobility Implementation, Nampa Area, VRT	2023-2027	Planning	\$5,729,000
20271	Planning, Communities in Motion Update, COMPASS	2023-2026	Planning	\$636,000
20560	Planning, COMPASS – FY2023	2023	Planning	\$232,000
21889	Planning, COMPASS – FY2024	2024	Planning	\$331,000
22387	Planning, COMPASS – FY2025	2025	Planning	\$430,000
22800	Planning, COMPASS – FY2026	2026	Planning	\$232,000

23772	Planning, FHWA Metropolitan Planning Funds, COMPASS – FY2027	2027	Planning	\$1,459,000
19144	Planning, FTA Metropolitan Planning Funds, COMPASS	2023-2027	Planning	\$2,080,000
23182	SH-44, RWIS near SH-16, Ada County	2024	Data Collection	\$519,000
23630	Study (PEL), SH-44, I-84 to Star Road, Canyon County	2023	Study	\$3,000,000
22394	Study, Big Data Purchase, COMPASS	2025	Study	\$150,000
23311	Study, Chinden Drainage and Design Plan, Garden City	2025	Study	\$200,000
23312	Study, Coordinate Local Waterway-Pathway Plans, COMPASS	2025	Study	\$120,000
22395	Study, Fiscal Impact Analysis, COMPASS	2023	Data Tool	\$60,000
23341	Study, I-84, SH-44 to Centennial Way, Canyon County	2024	Study	\$3,700,000
23676	Study, Safety Action Plan, COMPASS	2027	Study	\$250,000
23175	Study, SH-16, SH-44 to Junction SH-52, Environmental Reevaluation	2023	Study	\$3,000,000
7827	Study, SH-44, Star Road to SH-44 (Eagle Road)	2023	Study	\$6,516,000
23677	Study, Transportation Demand Management Plan, COMPASS	2027	Study	\$150,000
Total				\$43,003,000

As of November 2022.

## System Performance

Projects that help make the transportation system more reliable are reported in the system performance section.

Almost \$1.3 billion is budgeted to improve system performance in various ways in Ada and Canyon Counties in the FY2023-2029 TIP between FY2023 and FY2027 (Table 18).

*Table 18: Projects that Improve System Performance Between FY2023 and FY2027 in the FY2023-2029 TIP*

Key Number	Project	Entity/NHS?	Treatment	Total Project Cost
13905	10th Avenue ITS and Overlay, Caldwell	Non-Interstate/Yes	Overlay and ITS	\$3,016,000
13484	Centennial Way Roundabout, Caldwell	Non-Interstate/Yes	Roundabout	\$4,352,000
RD216-04	Eagle Road, Lake Hazel Road to Amity Road, Meridian	Non-Interstate/No	Widen	\$6,745,000
RC0133	Fairview Avenue, Locust Grove Road to SH-55 (Eagle Road), Meridian	Non-Interstate/Yes	Widen	\$5,300,000
23095	Five Mile Road Overpass and Widening, Boise (Design and Right-of-Way)	Non-Interstate/No	Widen and Replace Overpass	\$4,252,000
22102	Franklin Boulevard and Karcher Road, Intersection Improvements, Nampa	Non-Interstate/No	Intersection Improvements	\$3,556,000
22878	Homedale Road, Curve Improvements, Canyon Highway District	Non-Interstate/No	Widen	\$999,000
23437	I-84, Centennial Interchange to Franklin Interchange, Caldwell	Interstate/Yes	Widen	\$121,500,000
23336	I-84, Karcher Road Interchange, Nampa	Interstate/Yes	Widen	\$33,750,000
22712	I-84B (Garrity Boulevard) and Stamm Lane Intersection Improvements, Nampa	Interstate/Yes	Intersection Improvements	\$2,122,000
RD209-18	Lake Hazel Road, Eagle Road to Cloverdale Road, Ada County	Non-Interstate/No	Widen	\$12,948,000
RD209-28	Linder Road, SH-44 (State Street) to Floating Feather Road, Eagle	Non-Interstate/No	Widen	\$8,971,000
13487	Middleton Road and Ustick Road, Roundabout, Caldwell	Non-Interstate/No	Intersection Improvements	\$4,502,000
13494	Old Highway 30, Plymouth Street Bridge, Caldwell	Non-Interstate/No	Widen	\$13,709,000
RD207-01	Orchard Street Realignment, Gowen Road to Victory Road, Boise	Non-Interstate/No	Realign and Widen	\$24,587,000

Key Number	Project	Entity/NHS?	Treatment	Total Project Cost
22101	Peckham Road Intersections, Canyon County	Non-Interstate/No	Intersection Improvements	\$557,000
23409	SH-16, Franklin Road to Ustick Road, Canyon County	Non-Interstate/No	New	\$49,129,000
23410	SH-16, I-84 to Franklin Road, Nampa	Non-Interstate/No	New	\$51,122,000
20788	SH-16, I-84 to US 20/26 and SH-44, Ada and Canyon Counties	Non-Interstate/No	New	\$274,173,000
23408	SH-16, Ustick Road to US 20/26, Ada County	Non-Interstate/No	New	\$78,708,000
20266	SH-44 (State Street), SH-16 to Linder Road, Ada County	Non-Interstate/Yes	Widen	\$7,671,000
20574	SH-44 (State Street), Star Road to SH-16, Ada County	Non-Interstate/Yes	Widen	\$13,324,000
22715	SH-55 (Karcher Road), Farmway Road to Middleton Road, Canyon	Non-Interstate/Yes	Widen	\$178,834,000
IN210-03	State Street, Hertford Way to Ellens Ferry, Boise	Non-Interstate/No	Widen	\$9,131,000
RC0299	Ten Mile Road, Victory Road to Overland Road, Meridian	Non-Interstate/No	Widen	\$3,036,000
22165	US 20/26 (Chinden), I-84 to Middleton Road, Canyon County	Non-Interstate/Yes	Widen	\$67,146,000
20594	US 20/26 (Chinden), Linder Road to Locust Grove, Meridian and Eagle	Non-Interstate/Yes	Widen	\$7,688,000
20367	US 20/26 (Chinden), Phyllis Canal Bridge to SH-16, Ada County	Non-Interstate/Yes	Widen	\$15,607,000
23337	US 20/26, Middleton Road to Star Road, Ada and Canyon Counties	Non-Interstate/Yes	Widen	\$233,634,000
200919	Ustick Road, Black Cat Road to Ten Mile Road, Meridian	Non-Interstate/Yes	Widen	\$4,686,000
RD207-24	Ustick Road, Ten Mile Road to Linder Road, Meridian	Non-Interstate/Yes	Widen	\$7,390,000
<b>Total</b>				<b>\$1,252,145,000</b>

*As of November 2022.*

In addition to the projects above, which already have construction scheduled, there are many projects with preliminary studies or development that could lead to funding for the construction phase in the future.

#### *Level of Travel Time Reliability*

On August 20, 2018, the COMPASS Board of Directors adopted a position to support statewide level of travel time reliability targets established by ITD, which

are to improve travel time reliability on the NHS (note that this does not mean to *improve* travel times, but to improve the *consistency* of travel times) (Table 19).

Table 19: Level of Travel Time Reliability and FY2022 Targets

Interstate							
Condition	FY2019 Regional Percentage	FY2019 Statewide Percentage	FY2020 Regional Percentage	FY2020 Statewide Percentage	FY2021 Regional Percentage	FY2021 Statewide Percentage	FY2022 Target
Reliable	90.40%	97.20%	95.40%	98.60%	95.90	98.80%	> 90%
Not Reliable	9.60%	2.80%	4.60%	1.40%	4.10%	1.20%	
Total	100%	100%	100%	100%	100%	100%	
Non-Interstate							
Condition	FY2019 Regional Percentage	FY2019 Statewide Percentage	FY2020 Regional Percentage	FY2020 Statewide Percentage	FY2021 Regional Percentage	FY2021 Statewide Percentage	FY2022 Target
Reliable	76.20%	84.80%	82.60%	89.50%	85.00%	91.10%	> 70%
Not Reliable	23.80%	15.20%	17.40%	10.50%	15.00%	8.90%	
Total	100%	100%	100%	100%	100%	100%	

Green highlight = meets FY2022 target

Travel time reliability provides a more complete look at the on-the-ground experience for the road user than simply reporting congestion, as travel times can vary greatly day-to-day (Figure 10). Congestion on roadways and other factors, such as weather, events, or construction, often makes it difficult to predict how long it will take to travel from one destination to another. One day, it may take 20 minutes to travel from the City of Nampa to the City of Boise, and another day, it may take an hour. The overall goal of level of travel time reliability targets is to make travel times *predictable*. The intent of these targets is not necessarily to decrease the amount of time it takes to travel, although many of the projects will do just that, but to make travel times as consistent and predictable as possible.

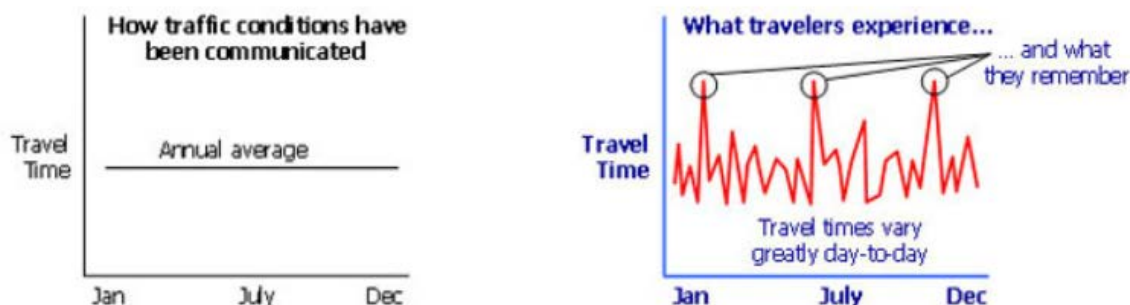

Figure 10: Reliability Measures Capture the Benefits of Traffic Management, from FHWA's Performance Measure website

Level of travel time reliability is defined as the ratio of the longer travel times (80th percentile) to a "normal" travel time (50th percentile), using data from the Federal Highway Administration's NPMRDS, or an equivalent data source. Data are collected

in 15-minute segments during all time periods between 6:00 a.m. and 8:00 p.m. local time.

Travel time reliability measures how consistent travel times are from one point to another, from one day to the next. To determine reliability, data on travel time are examined to see how they vary over time. If the difference between the normal travel time (50th percentile) and the longer travel time (80th percentile) is greater than 50%, then the segment is unreliable.

Improvements in the reliability of the NHS due to projects programmed through the TIP will be reported in the Congestion Management Annual Report, discussed in Section IV. A sample of the measurement is provided in Figure 11.

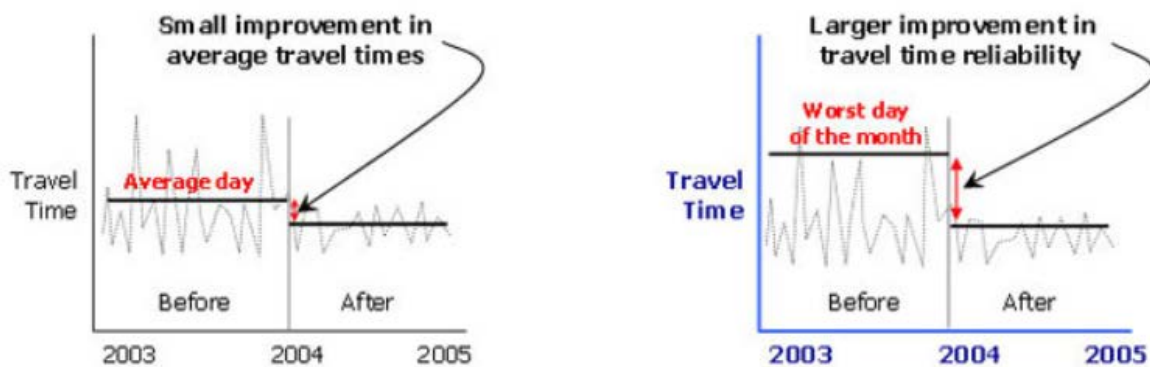

Figure 11: Sample Improvements in Average Travel Times, from FHWA's Performance Measure website

The 2020 level of travel time reliability on the NHS is provided in the 2020 Congestion Management Annual Report, available on the COMPASS [website](https://www.compassidaho.org/documents/prodserv/reports/2020_Congestion_Management_Annual_Report.pdf)<sup>35</sup>. Figure 12, below, is an excerpt of this report showing segments (by direction) that are reliable (gray) and not reliable (red).

<sup>35</sup> 2020 Congestion Management Annual Report:  
[https://www.compassidaho.org/documents/prodserv/reports/2020\\_Congestion\\_Management\\_Annual\\_Report.pdf](https://www.compassidaho.org/documents/prodserv/reports/2020_Congestion_Management_Annual_Report.pdf)

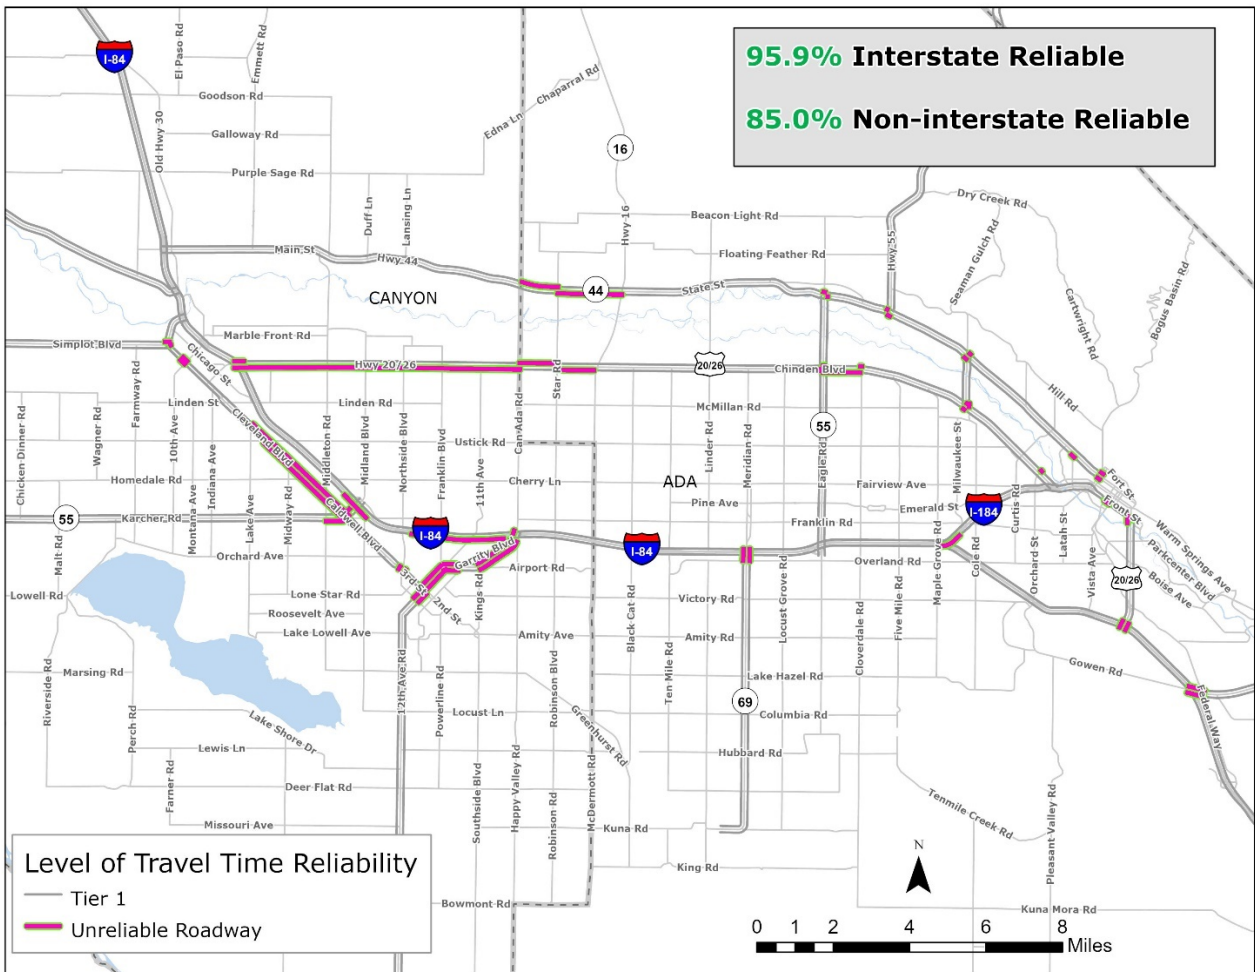

Figure 12: 2021 NHS Level of Travel Time Reliability

In the FY2023-2029 TIP, almost \$1.1 billion is budgeted for travel time reliability measures specifically on the NHS.

### Truck Travel Time Reliability (Freight Movement)

On August 20, 2018, the COMPASS Board of Directors adopted a position to support freight movements through statewide level of truck travel time reliability targets established by ITD, which is to improve upon truck travel time reliability on the interstate system (note that this does not mean to *improve* travel time, but to improve the *consistency* of travel times — similar to the level of travel time reliability above, but specific to truck travel on the interstate system) (Table 20). The overall goal of truck travel time reliability is to make freight travel more predictable. Delivery of goods and services in a timely manner is important to the success of the freight industry and the industries it serves.

Table 20: Truck Travel Time Reliability and FY2022 Target

Interstate							
Condition	FY2019 Regional Reliability Score	FY2019 Statewide Reliability Score	FY2020 Regional Reliability Score	FY2020 Statewide Reliability Score	FY2021 Regional Reliability Score	FY2021 Statewide Reliability Score	FY2022 Target
Reliable	1.50	1.20	1.32	1.17	1.46	1.18	<1.3

Green highlight = meets 2022 target

Peach highlight = does not meet 2022 target

The target of less than 1.3 means it would take less than 30% longer at a highly congested level of service to travel through that same segment. The target of less than 1.3 is the statewide target for interstate travel. Regional travel through Ada and Canyon Counties is likely to score higher due to higher rate of congestion in the area.

Freight movement is assessed by the Truck Travel Time Reliability (TTTR) Index. Reporting is divided into five periods: morning peak, midday, and afternoon peak Mondays through Fridays; weekends; and overnights for all days. The TTTR ratio is similar to the level of travel time reliability described earlier, but instead of the 80th percentile, truck travel time reliability is assessed by dividing the 95th percentile time by the normal time (50th percentile) for each segment. The maximum TTTR is the comparative number for truck travel on the interstate. See Table 21 for an example of how the index works.

Table 21: Truck Travel Time Reliability (TTTR) Index Example

Segment: Longer Travel Time (95 <sup>th</sup> ) divided by Normal Travel Time (50 <sup>th</sup> ) = # seconds ÷ by #seconds = TTTR		
Monday - Friday	6am – 10am	TTTR=72 sec ÷ 50 sec = 1.44
	10am – 4pm	TTTR = 1.39
	4pm – 8pm	TTTR = 1.49
Weekends	6am – 8pm	TTTR = 1.31
Overnight	8pm – 6am	TTTR = 1.20
Maximum TTTR		1.49
Measure: TTTR Index <ul style="list-style-type: none"> <li>Length x Max TTTR = Length-weighted TTTR</li> <li>Σ (All segment length weighted TTTR) ÷ Σ (All segment lengths)</li> </ul>		

This example segment does not meet the target of less than 1.3; therefore, it is considered “not reliable.”

The 2020 truck travel time reliability on the interstate is provided in the 2020 Congestion Management Annual Report, available on the COMPASS [website](#)<sup>36</sup>. Figure 13, below, is an excerpt of this report showing segments that are considered fair (orange) and poor (pink) in regard to truck travel time reliability on the interstate system.

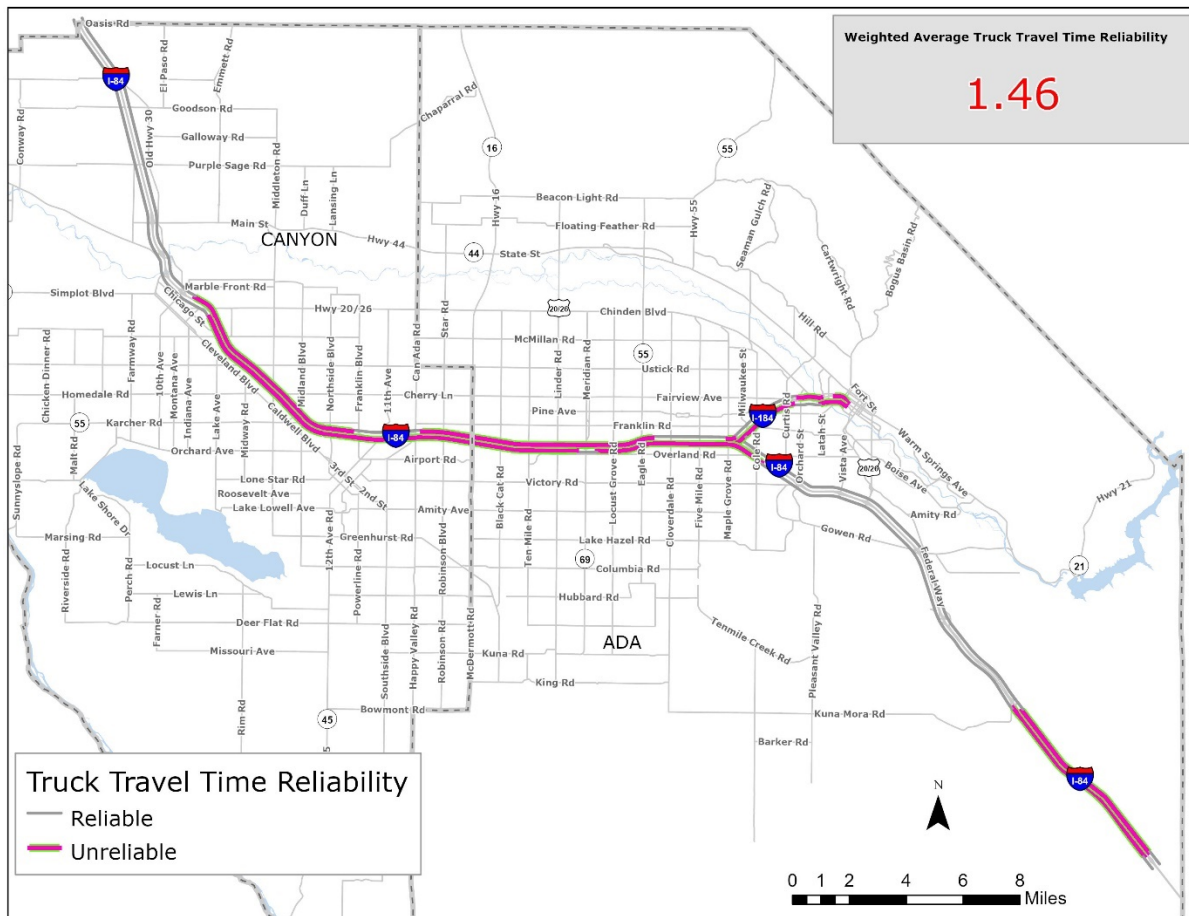

Figure 13: 2021 Truck Travel Time Reliability on the Interstate

Almost \$127 million is budgeted to improve truck travel time reliability on Interstate 84 in the FY2023-2029 TIP (Table 22). Within the funded projects, several segments currently not performing well will be widened, which is expected to increase the reliability of these segments and could possibly improve reliability on adjacent segments of the interstate as well. As these projects are completed, COMPASS will report on how truck travel times and the reliability of travel on Interstate 84 change in the [Congestion Management Annual Report](#)<sup>37</sup>.

Several projects were funded over the last few years that are currently under construction. These projects will increase capacity on the interstate in segments

<sup>36</sup> 2020 Congestion Management Annual Report: [https://www.compassidaho.org/documents/prodserv/reports/2020\\_Congestion\\_Management\\_Annual\\_Report.pdf](https://www.compassidaho.org/documents/prodserv/reports/2020_Congestion_Management_Annual_Report.pdf)

<sup>37</sup> Congestion Management Process: <http://www.compassidaho.org/prodserv/cms-intro.htm>

currently considered fair to poor in truck travel time reliability. These projects are not specifically shown in the FY2023-2029 TIP, as no funds are currently budgeted:

- Widening Interstate 84 from the Karcher Road Interchange to Franklin Boulevard in the City of Nampa
- Widening Interstate 84 from the City of Caldwell to the Karcher Road Interchange in the City of Nampa
- Replacing the Ustick Road Overpass over Interstate 84

*Table 22: Projects that Improve Truck Travel Time Reliability on the Interstate in the FY2023-2029 TIP*

Key Number	Project*	Treatment	Total Project Cost
23437	I-84, Centennial Interchange to Franklin Interchange, Caldwell	Widen	\$121,500,000
20212	I-84, Garrity Interchange to Ten Mile Interchange, Canyon and Ada Counties	Resurface	\$3,666,000
23456	I-84, Meridian Road Interchange to Eagle Road Interchange, Design, Meridian	Study/ Design to add Auxiliary Lane	\$1,505,000
<b>Total</b>			<b>\$126,671,000</b>

As of November 2022.

#### *CMAQ – Emissions*

On August 20, 2018, the COMPASS Board of Directors adopted a position to support the CMAQ emissions target established by ITD. The ITD target is zero, as ITD does not claim “emission reductions” when CMAQ funds are used on a project; therefore, no changes to vehicles emissions because of this funding are reported. See page 16 for more information on how CMAQ funds are used in Idaho.

## **VI. AIR QUALITY CONFORMITY**

The Clean Air Act mandates any transportation project in nonattainment or maintenance areas using federal funds or deemed to be “regionally significant,” as defined by the Interagency Consultation Committee, cannot contribute to a degradation of air quality. Thus, transportation plans must “conform” to air quality plans. Transportation conformity is demonstrated in a nonattainment or maintenance area when it can be shown, within the applicable guidelines and regulations, that planned transportation projects listed in a transportation program (e.g., a TIP) or plan will not cause or contribute to exceedances of the U.S. Environmental Protection Agency’s (EPA’s) health-based air quality standards. A finding of nonconformity would prevent the implementation of certain federally funded and/or regionally significant transportation projects.

The air quality conformity demonstration finds that the projects contained in the FY2023-2029 TIP meet air quality conformity requirements for Northern Ada County.

The [Northern Ada County PM<sub>10</sub> State Implementation Plan, Maintenance Plan: Ten-Year Update](#)<sup>38</sup> contains motor vehicle emissions budgets for three pollutants: PM<sub>10</sub>, oxides of nitrogen, and volatile organic compounds. Emissions budget tests, as required by 40 Code of Federal Regulations (CFR) 93.118, demonstrate conformity of the FY2023-2029 TIP. The [Northern Ada County Air Quality Maintenance Area Second 10-Year Carbon Monoxide Limited Maintenance Plan](#)<sup>39</sup> does not contain any motor vehicle emissions budgets. However, COMPASS conducts a build versus no-build carbon monoxide emissions analysis per the carbon monoxide limited maintenance plan in accordance with EPA's limited maintenance plan option.

The complete air quality conformity demonstration, *Conformity Demonstration for the FY2023-2029 Regional Transportation Improvement Program, Communities in Motion 2040 2.0 amendment, and Communities in Motion 2050*, Report Number 02-2023, is provided under separate cover and can be found [online](#).<sup>40</sup>

## VII. REGIONALLY SIGNIFICANT PROJECTS

The TIP includes all federally funded and "regionally significant" projects, regardless of funding source, in COMPASS' planning area. If federal funds are not used on the project, the listing is considered more informational in nature and may not include as much detail or review as a federally funded project.

40 CFR 93.101 defines a regionally significant project as:

... a transportation project (other than an exempt project) that is on a facility which serves regional transportation needs (such as access to and from the area outside of the region, major activity centers in the region, major planned developments such as new retail malls, sports complexes, etc., or transportation terminals as well as most terminals themselves) and would normally be included in the modeling of a metropolitan area's transportation network, including at a minimum all principal arterial highways and all fixed guideway transit facilities that offer an alternative to regional highway travel.

## VIII. LOCAL PLANNING ACTIVITIES

The TIP was developed in accordance with the area's development goals and priorities as specified in the long-range transportation plan. The following planning documents were consulted in preparing this TIP:

<sup>38</sup> Northern Ada County Maintenance Plan:

<https://www2.deq.idaho.gov/admin/LEIA/api/document/download/15913>

<sup>39</sup> Northern Ada County Second 10-Year Carbon Monoxide Limited Maintenance Plan:

<https://www2.deq.idaho.gov/admin/LEIA/api/document/download/15914>

<sup>40</sup> Air Quality Conformity Demonstration: <http://www.compassidaho.org/prodserv/aq-demo.htm>.

*2020-2024 Integrated Five-Year Work Plan*, ACHD, September 2020.

*2040 Long-Range Transportation Plan*, ITD, December 2019.

*ACHD's 2016 Capital Improvement Plan*, ACHD, August 2016.

*Blueprint Boise*, City of Boise, November 2011.

*Campus Master Plan*, Boise State University, January 2016.

*Communities in Motion 2040 2.0*, regional long-range transportation plan for Ada and Canyon Counties, COMPASS, December 2018.

*Downtown Boise Mobility Study*, VRT, October 2005.

*Draft 2021-2025 Integrated Five-Year Work Plan*, ACHD, June 2020.

*Draft FY21 to FY27 Idaho Transportation Investment Program (ITIP)*, Draft for Public Comment, ITD, July 2020.

*Idaho Public Transportation Plan*, ITD, April 2018.

*Northern Ada County Air Quality Maintenance Area Second 10-Year Carbon Monoxide Limited Maintenance Plan*, Idaho Department of Environmental Quality (DEQ), September 2012.

*Northern Ada County PM<sub>10</sub> State Implementation Plan, Maintenance Plan: Ten-Year Update*, DEQ, March 2013<sup>41</sup>.

*State Street Corridor Strategic Plan*, ACHD and City of Boise, February 2004.

*State Street Corridor Transit Oriented Development Policy Guidelines*, State Street Corridor partners, April 2008.

*State Street Transit and Traffic Operational Plan, Implementation Plan*, ACHD, City of Boise, and Valley Regional Transit, June 2011.

*Treasure Valley Transportation System: Operations, Management, and ITS*, March 2014.

*Valley Connect 2.0*, VRT, April 2018.

<sup>41</sup> On May 17, 2013, EPA announced receipt of the maintenance plan and issued determination of adequacy of the motor vehicle emission budgets for transportation conformity purposes.

## **IX. FINANCIAL CONSTRAINT**

The TIP is a financially driven document. Financial constraint is required by federal law and guidance, meaning that the TIP can only be programmed to the level that funding is available. In addition, financial constraint must show that agencies receiving the funds programmed through this document are able to continually maintain and operate the transportation systems for which they receive funding. Based on COMPASS' analyses, funding is reasonably assumed to be available for the projects contained in this document.

COMPASS uses ITD's funding assumptions to estimate available funds for highways and public transportation programs.

### **A. Highway Funding Assumptions**

The Infrastructure Investment and Jobs Act (IIJA) (also known as the Bipartisan Infrastructure Law [BIL]), Public Law No 117-58, is the current federal transportation authorization act. The IIJA became law on November 15, 2021 and establishes funding authorization for FY2022 through FY2026.

The FAST Act transportation program structure continues under the IIJA with the additional three new programs; the Carbon Reduction Program, the Promoting Resilient Operations for Transformative, Efficient, and Cost Saving Transportation (PROTECT) program, and the National Electric Vehicle Infrastructure (NEVI) program.

Highway funding assumptions for individual funding sources are based on apportionment levels provided in the IIJA and from ITD forecasts of state funding levels. Actual funding levels are often not known until after the beginning of each fiscal year (October 1). Therefore, assumptions are made regarding future funding to allow uninterrupted development of projects. The following list of highway funding assumptions and guidelines was used to develop the highway funding levels shown in the TIP.

#### **1. Federal-Aid Funding Assumptions**

Program funding levels are reflective of apportionments in the IIJA. FY2027 through FY2029 funding levels are flat-lined based on FY2026 funding levels in IIJA, as IIJA expires in FY2026.

Funds in the list of projects (Appendix E) are shown in year-of-expenditure dollars, meaning the costs are inflated to reflect anticipated costs based on the year the project will occur. Inflation is estimated at 2% annually.

Obligation authority is assumed to be equal to 100% of estimated apportionments. Funding forecasts do not include year-end redistribution or obligation authority not used by other states.

## 2. State Funding Assumptions

Estimates of state funds available for capital construction consider projected revenues, the reservation of state matching funds for federal aid, and other operational needs not shown in ITD's funding program.

The amount of state highway funding can be impacted by legislation passed in any given year. There were several bills passed during the FY2022 legislative session that influenced transportation funding.

**House Bill 772** authorized General Fund transfers of \$120,000,000 to the Strategic Initiative Program and \$80,000,000 to the Local Highway Distribution Fund.

**House Bill 787** authorized a General Fund transfer of \$100,00,000 to the Transportation Expansion and Congestion Mitigation (TECM) fund and approved bonding up to \$325,000,000.

**Senate Bill 1231** repealed the requirement to provide a report on collection and use of House Bill 312 revenue.

**Senate Bill 1359** authorized a General Fund transfer of \$252,900,000 million to dedicated funds of which went to the Aeronautics Program, \$18,000,000 went to the Strategic Initiatives Program, \$210,000,000 went to the Strategic Initiatives (Local) Program, and \$18,500,000 went to the GARVEE Debt Service Fund.

The estimated state funding for FY2023 through FY2029 for highway capital construction ranges from \$232,800,000 to \$433,9000,000 annually.

## 3. Bonding Debt Assumptions

ITD uses Grant Anticipation Revenue Vehicle (GARVEE) revenue bonds to help fund transportation projects. These bonds do not pledge the full faith and credit of the state. Idaho Code allows no more than 30% of ITD's federal apportionment to be used for debt service. The department uses federal highway revenue to repay the bonds. Idaho Code allows no more than 30% of ITD's federal apportionment to be used for debt service.

Prior to FY2017, the Idaho Legislature authorized ITD to secure financing to fund \$857,000,000 of infrastructure improvements in the GARVEE program. Projects funded by those pre-FY2017 authorizations were completed and closed out during FY2016.

In March 2017, the Idaho Legislature authorized the issuance of up to \$300,000,000 in new GARVEE bonds to fund additional projects to be selected by the Idaho Transportation Board.

Estimated debt service is approximately \$64,600,000 annually, including the original \$857,000,000 and the new \$300,000,000 legislative authorization. Approximately \$60,000,000 of the debt service are federal funds and approximately \$4,600,000 are state matching funds.

In 2022, the Idaho Transportation Board approved issuance of \$1.6 billion in bonds as part of the Leading Idaho initiative to fund safety and expansion projects around the state of Idaho. The first bonds were issues in early 2022 for \$216,000,000. Debt service on this first state bond series is approximately \$13,100,000 annually.

## **B. Public Transportation Funding Assumptions**

ITD is the direct recipient of FTA funding for rural and some small urban programs, and VRT is the direct recipient for large urban and other small urban programs. The funds managed by ITD and VRT support fixed route and paratransit services, mobility management, program administration support, transportation services for the elderly and people with disabilities, buses and bus facilities, and general operations and maintenance of the public transportation system in Ada and Canyon Counties.

Under IIJA, estimated federal funding for the rural and small urban programs through ITD is estimated at \$18,300,000 in FY2023. Estimated funding for non-ITD recipients (transit service providers in the urbanized areas) is \$17,400,000 in FY2023.

Dedicated state funds of \$312,000 annually are available for vehicle replacement needs under the Vehicle Investment Program and are awarded through a statewide competitive application process.

## **C. Reference to MPOs**

The Idaho STIP does not list projects located in MPO planning areas but refers to the local TIP in each MPO area; therefore, all projects located in Ada or Canyon Counties are only listed in the COMPASS TIP. Unlike ITD, the COMPASS Board of Directors opted not to group projects; therefore, all projects are listed individually in the COMPASS TIP.

## **Financial Status of ITD Projects**

The FY2023-2029 STIP provides financial data and financial constraint for ITD projects.

ITD seeks to make the best use of its resources and assets through a mixture of performance management and financing options. Idaho's transportation revenue comes from three sources. The State of Idaho receives 32.0% of its transportation funds from federal revenues such as the National Highway Trust Fund and the Airport and Airways Trust Fund, 52.7% from state revenues generated by transportation-related taxes and fees paid by Idaho citizens into the state's

Highway Distribution Account (HDA) and air-fuel tax accounts, and 15.2% from other revenues such as local match (Table 23).

Table 23: ITD Appropriations – FY2023 (as of March 23, 2022)

<b>Fund Sources</b>	<b>State</b>	<b>Federal</b>	<b>Other</b>	<b>Total</b>

Net Local to Distribute	\$165.9	\$49.8	\$215.7
Cities (30%)	\$49.8	\$14.9	\$64.7
Counties and Highway Districts (70%)	\$116.1	\$34.9	\$151.0

Amounts in millions and rounded and may not add, due to rounding.

Based on August 2021 Forecast

New revenue is the result of 2015 legislation (HB312)

ITD's STIP outlines the department's transportation revenues and expenditures for capital improvement and preservation projects from FY2023 through FY2029. It contains projects impacting highways, public transportation, aeronautics, bicycle and pedestrian facilities, and safety that will both maintain and improve a wide variety of transportation choices in all areas of the state. It also includes reference to projects found in Idaho's five MPOs' TIPs.

ITD's budget policy section estimates revenues into the state HDA based on past performance and future economic and use factors (Table 25). The amounts shown include the match and federal funds estimated to be available to programmed projects.

	Funds expressed in Year-of-Expenditure Dollars assuming 2% annual inflation.															
	Funding levels assume 100% Obligation Authority.															

## Financial Status of Project Sponsoring Entities

### Roadway Jurisdictions

While local agencies with roadway jurisdiction develop their own budgets and allocate funding to transportation projects in their jurisdictions, each agency is required to report budgetary information to ITD on an annual basis through the annual "Road and Street Report." The following information is summarized from each agency's Road and Street Report to provide background budgetary information. Deferred maintenance is no longer a required element of the Roads and Streets Report.

In FY2021, the local roadway jurisdictions in Ada and Canyon Counties budgeted only 6.9% of their budget to capital construction projects. Most of their funds (47.44%) were budgeted for reconstruction and routine maintenance, demonstrating that maintaining the existing system is a very high priority for the region. Another 28.84% was budgeted for "other expenses," such as property purchase and engineering. Equipment consumed 9.22% of the budgets. Finally, administrative costs were 7.61% of the overall expenses for roadway jurisdictions.

Tables 26 through 28 provide FY2021 financial information from local agencies with roadway jurisdictions in Ada and Canyon Counties. Additional information is provided in Appendix C. Detailed information is available by contacting COMPASS staff at [info@compassidaho.org](mailto:info@compassidaho.org).

### Valley Regional Transit (VRT)

VRT, the regional transit authority, is the main recipient of the FTA funds in the Treasure Valley — specifically formula funds for the Boise and Nampa Urbanized Areas and programs for elderly persons or persons with disabilities and for bus and bus facilities in the Boise Urbanized Area.

All local match for the large and small urban areas, outside of directly generated revenues, comes from the voluntary contributions of local jurisdictions from their general funds. Local contributions are determined through the annual budgeting process of each local jurisdiction. This ties VRT's funding levels directly to the annual funding priorities of local jurisdictions. Future service and capital expenditures depend on local jurisdiction priorities and financial capacity; as local priorities change, so does the forecast for public transportation service levels and capital investments.

Budget projections, including inflation, predict that without additional funding, service could be negatively affected and/or VRT would need to push out needed maintenance and capital projects in the Boise and Nampa Urbanized Areas. See additional details in Appendix C. VRT reports a capital shortfall of \$17 million.

Table 29 provides VRT's FY2023 summary budget. VRT's future budget is based on historical trends and assumes continuation of funding from local jurisdictions at least at the current rate, plus an approximate 2% increase to cover inflation.

To provide more certainty to the public transportation program, VRT develops a five-year service and capital plan called the Transportation Development Plan (TDP). This plan provides more opportunities to align local funding priorities with multi-year public transportation investments.

Table 29: VRT FY2023 Budget Summary by Budget Area

## Fiscal Year 2023 Budget Summary by Budget Area

### REVENUES

**Grand Total Revenues, All Sources****\$ 30,213,935****Grand Total Expenses****\$ 30,213,935****General Statement of Financial Constraint**

The projects programmed in this document can reasonably be funded through anticipated funding sources. The percentage of programmed funds per available funds for each year is provided in Table 30.

*Table 30: Percentage of Programmed vs. Available Funds Per Year*

2022	2023	2024	2025	2026	PD
99.83%	99.94%	99.74%	98.93%	98.35%	95.86%

Table 31 demonstrates available funding versus programmed funding for all funding sources in the COMPASS planning area. Funds in programs not managed by COMPASS are available if funds are programmed; there is not a specific budget for the COMPASS planning area for these programs. Projection of local revenues is based on assumptions of continued development and economic activities in the area. Considering these facts, it is concluded that the sponsoring agencies listed in this document are capable of providing the required local match and that the document meets the requirement of financial constraint.

Table 31: COMPASS Region Available vs. Programmed Funding

As of November 2022. All amounts shown in \$1,000, most including required local match and shown in year of expenditure – inflated.

\*Descriptions of funding sources and definitions of abbreviations are available in Appendix A “Funding Types and Acronyms”

\*\*PD=Preliminary Development, meaning the project does not have a construction year, but may begin design work. Column includes projects reported as funded in FY2028 or FY2029.

\*\*\*Funds are shown as federal only because local match rates vary from 0% to 80%. Available funds for year shown only, but program may include previous year carry-over funds.

\*\*\*\*Includes carry over funds in 2024 from the Coronavirus Response and Relief Supplemental Appropriations Act, 2021

^ Corrections in process that will reduce FY2023 programmed total by \$335,000.

Blue highlight = programs managed by COMPASS or VRT.

## X. PROGRAM FUNDING ALLOCATIONS

The TIP is required to provide a breakdown of federal and regionally significant projects into roadway and alternative solutions. This information is in Table 32.

Many projects are complex, containing various transportation elements. The following assumptions were made when developing these data:

- Roadway projects that do not include some aspect of transit, sidewalks, bicycle lanes, and/or air quality improvements are shown as 100% roadway solutions.
- Projects dedicated to transit, pathway, bicycle lanes, or sidewalk improvements are shown as 100% alternative solutions.
- Roadway projects that also have some aspect of transit, pathway, bicycle lanes, and/or sidewalks are shown as 75% roadway and 25% alternative solutions.
- Projects that affect air quality, such as ITS projects, are shown as 50% road and 50% air quality.
- Roadway projects that also include sidewalk improvements and signal improvements are shown as 50% roadway, 25% alternative solutions, and 25% air quality.
- Other projects that cannot be classified into one of the above categories, such as planning and safe routes to school coordination, are included as "other."

Table 32: Share of Project Costs Allocated by Type of Project

Year	Total Programmed Funds*	Amount Allocated to Roadway Solutions	Amount Allocated to Alternative Solutions	Amount Allocated to Air Quality	Amount Allocated to Other	Percent to Roadways Solutions	Percent to Alternative Solutions	Percent to Air Quality	Percent to Other
2023	\$459,268	\$381,681	\$63,135	\$4,398	\$10,031	83.11%	13.75%	0.96%	2.18%
2024	\$600,265	\$560,698	\$32,836	\$1,835	\$4,896	93.41%	5.47%	0.31%	0.82%
2025	\$168,155	\$142,120	\$22,016	\$0	\$4,019	84.52%	13.09%	0.00%	2.39%
2026	\$125,585	\$89,888	\$29,464	\$3,562	\$2,672	71.58%	23.46%	2.84%	2.13%

2029	\$31,075	\$23,030	\$6,353	\$0	\$1,691	74.11%	20.44%	0.00%	5.44%
PD	\$101,759	\$71,982	\$25,279	\$4,084	\$414	70.74%	24.84%	4.01%	0.41%
<b>Total</b>	<b>\$1,601,892</b>	<b>\$1,349,485</b>	<b>\$208,818</b>	<b>\$14,848</b>	<b>\$28,718</b>	<b>84.24%</b>	<b>13.04%</b>	<b>0.93%</b>	<b>1.79%</b>

As of November 2022.

\*Shown in year of expenditure – inflated. (Totals do not sum due to rounding)

\*Funds shown in \$1,000.

\*Required match and local funds included.

## **APPENDIX A: FUNDING TYPES AND ACRONYMS**

Provides a way to decipher transportation and federal jargon.

## Funding Sources and Uses

Federal funds administered by ITD are received from FHWA, the Federal Transit Administration (FTA), the Federal Aviation Administration, and the National Highway Safety Administration. Federal-aid projects generally require state or local matching funds of 7.34% to 50%, depending on the type of project and funding source.

Federal and state funding combined allow the state to preserve and improve the current transportation system. Table 33 provides a brief description of those funding sources.

COMPASS staff created a [funding fact sheet](#)<sup>42</sup> titled *Transportation Funding Terms and Acronyms...Unraveling the Jargon*, for a more succinct version of the information below, including definitions of transportation acronyms.

The information below reflects typical use of funds and is provided to help the reader understand terms used in the TIP. It is NOT intended to set policy regarding the use of federal or state funds. Federal and state regulations provide additional details that further describe how funds can and cannot be used, and by whom.

Contact COMPASS with specific questions on any funding source or type of project.

Table 33: Funding Sources and Uses

Funding source*	What it is used for	Example	Whose can use this funding in Ada/Canyon Counties**
Bridge (Local)	Replacing or rehabilitating local (non ITD) bridges.	Fixing a current bridge or replacing an old bridge with a new one.	Local highway districts or cities
Coronavirus Aid, Relief, and Economic Security Act (CARES)	Projects to keep the public transportation assets and services viable through the COVID pandemic.	Operational expenses, bus replacement, increased sanitation.	Public transportation providers in the Boise and Nampa Urbanized Areas
Coronavirus Aid, Relief, and Economic Security Act (CARES)	Projects to keep the public transportation assets and services viable through the COVID pandemic.	Operational expenses, bus replacement, increased sanitation.	Public transportation providers in the Boise and Nampa Urbanized Areas
Federal Lands Access Program (FLAP)	Projects that enhance access to federal lands. Program managed by the Western Federal Lands division of the US Department of Transportation.	Improvements to Bogus Basin Road.	Any (must be associated with federal lands)

<sup>42</sup> Funding Terms Fact Sheet:

<http://www.compassidaho.org/prodserv/transimprovement.htm#understand>.

Funding source*	What it is used for	Example	Whose can use this funding in Ada/Canyon Counties**
Federal Rail Crossing (Fed RRX)	Projects that enhance transportation safety at railroad crossings using federal funds.	Rebuild railroad crossing or add crossing arms.	Any
FTA 5303	FTA funding for metropolitan planning.	Funding for COMPASS to conduct regional transportation planning.	COMPASS
FTA 5307 LU	Planning, developing, improving, and operating public transportation services in large urban areas with populations over 200,000.	Purchasing new buses, or paying operating costs, such as fuel and drivers' salaries.	Public transportation providers in the Boise Urbanized Area (generally, northern Ada County)
FTA 5307 SU	Planning, developing, improving, and operating public transportation services in small urban areas with a population between 50,000 and 200,000.	Purchasing new buses, or paying operating costs, such as fuel and drivers' salaries.	Public transportation providers in the Nampa Urbanized Area (generally, eastern Canyon County)
FTA 5310 LU	Public transportation services and equipment that directly benefit the elderly and people with disabilities in large urban areas with populations over 200,000.	Purchasing buses or vans for senior centers.	Public transportation providers in the Boise Urbanized Area (generally, northern Ada County)
FTA 5310 R	Public transportation services and equipment that directly benefit the elderly and people with disabilities in rural areas with a population less than 50,000.	Purchasing buses or vans for senior centers.	Public transportation providers outside of the Boise and Nampa Urbanized Areas
FTA 5310 SU	Public transportation services and equipment that directly benefit the elderly and people with disabilities in small urban areas with a population between 50,000 and 200,000.	Purchasing buses or vans for senior centers.	Public transportation providers in the Nampa Urbanized Area (generally, eastern Canyon County)
FTA 5311	Planning, developing, improving, and operating public transportation services in large urban areas with populations under 50,000.	Purchasing new buses, or paying operating costs, such as fuel and drivers' salaries.	Rural public transportation providers

Funding source*	What it is used for	Example	Whose can use this funding in Ada/Canyon Counties**
FTA 5339 LU	Capital funding to replace or rehabilitate buses or bus facilities, purchase buses and related equipment, and to construct bus-related facilities in large urban areas with a population over 200,000.	Purchasing buses or building bus shelters.	Public transportation providers in the Boise Urbanized Area (generally, northern Ada County)
FTA 5339 R	Capital funding to replace or rehabilitate buses or bus facilities, purchase buses and related equipment, and to construct bus-related facilities in small urban areas with a population between 50,000 and 200,000.	Purchasing buses or building bus shelters.	Public transportation providers in rural areas (5,000 population or less)
FTA 5339 SU	Capital funding to replace or rehabilitate buses or bus facilities, purchase buses and related equipment, and to construct bus-related facilities in small urban areas with a population between 50,000 and 200,000.	Purchasing buses or building bus shelters.	Public transportation providers in the Nampa Urbanized Area (generally, eastern Canyon County)
Freight	Capital funding to improve freight movement on prioritized freight corridors.	Providing wider turning movements at an intersection.	ITD, local highway districts, or cities (but must be on prioritized freight corridor)
Highway Safety Improvement Program (HSIP)(Local)	A project that improves safety on locally managed roadways.	Adding safety lighting along a corridor.	Local highway districts or cities
House Bill 132 and House Bill 312 (HB132 and HB312)	Increased taxes for projects to keep roads and bridges in good condition.	Rehabilitating a road.	ITD (other agencies receive these funds, but they are not reported in the TIP)
Interstate Maintenance (IM)	A project to resurface, restore, rehabilitate, or reconstruct most routes on an Interstate System.	Replacing an interchange on I-84.	ITD
Local Participating	A project that is primarily federally funded, but the sponsoring agency (and/or others) pay more than the minimum required match. Thus, the local agencies are "participating" in the funding.	Any project where the sponsoring agency (and/or others) chooses to pay more than the minimum to help make the project more competitive when projects are selected for funding.	Any
Local (Regionally Significant)	Locally funded projects (no state or federal funds) that are included in the TIP because they meet the definition of "regionally significant."	Adding an additional traffic lane between two intersections on a major roadway, using local (not state or federal) funds.	Local highway districts or cities

<b>Funding source*</b>	<b>What it is used for</b>	<b>Example</b>	<b>Whose can use this funding in Ada/Canyon Counties**</b>
National Highway Performance Program (NHPP)	A project that provides support for the condition and performance of the National Highway System.	Intersection improvements at a congested intersection on a state highway.	ITD
Metropolitan Planning	FHWA funding for metropolitan planning.	Funding COMPASS to conduct regional transportation planning.	COMPASS
Private Developer	A project funded by a private developer or organization that is regionally significant.	Improvements to a major roadway or intersection, such as a principal arterial.	Private Developers
Sales Tax Anticipated Revenue (STAR)	Refunding money to a developer who pays for transportation improvements up front. Refunds come from anticipated sales tax generated by the new development.	Improvements funded by a developer, such as widening a road to accommodate increased traffic at a new shopping mall.	Private Developers
State Funds	Any project on a state-owned facility. Funds are very flexible.	Any type of road improvement, including operations, technology, planning, support projects, and limited alternative transportation.	ITD
State Rail Protection Account	Provides the match funds for the federal railroad crossing project, which requires 10% local match.	Improve the surface of a railroad crossing and/or add lighting and safety gates.	Local highway districts or cities
Surface Transportation Block Grant – Rural (STBG – R)	Mainly roadway projects in small towns and rural areas with populations under 5,000. However, this funding has flexibility to fund a broad range of projects, including studies, maintenance, sidewalks, bike lanes, and more.	Nearly any type of road construction project, including projects such as road widening or chip sealing.	Jurisdictions in areas with populations under 5,000
Surface Transportation Block Grant – State (STBG – State)	Mainly roadway projects for use anywhere in the state. However, this funding has flexibility to fund a broad range of projects, including studies, maintenance, sidewalks, bike lanes, and more.	Nearly any type of road construction project, including projects such as road widening or chip sealing.	ITD
Surface Transportation Block Grant – Transportation Management Area (STBG – TMA)	Mainly roadway projects in urbanized areas of 200,000 or greater population. However, this funding has flexibility to fund a broad range of projects, including studies, maintenance, sidewalks, bike lanes, transit capital projects, and more.	Nearly any type of road construction project, including projects such as road widening or chip sealing.	Generally jurisdictions in the Boise Urbanized Area

<b>Funding source*</b>	<b>What it is used for</b>	<b>Example</b>	<b>Whose can use this funding in Ada/Canyon Counties**</b>
Surface Transportation Block Grant – Urban (STBG – U)	Mainly roadway projects in urbanized areas with populations between 5,000 and 200,000. However, this funding has flexibility to fund a broad range of projects, including studies, maintenance, sidewalks, bike lanes, transit capital projects, and more.	Nearly any type of road construction project, including projects such as road widening or chip sealing.	Jurisdictions in the Nampa Urbanized Area
Transportation Expansion and Congestion Mitigation (TECM)	Projects to expand the existing system to relieve congestion on state highway.	Widening a highway.	ITD
Transportation Alternatives Program State (TAP – State)	Projects that support “alternative” (non-motorized) transportation options anywhere in the state.	Building a walking or biking path.	Any local transportation agency, city, or county (including jurisdictions in the Boise Urbanized Area)
Transportation Alternatives Program – Transportation Management Area (TAP – TMA)	Projects that support “alternative” (non-motorized) transportation options in urbanized areas of 200,000 or greater population.	Building a walking or biking path.	Generally, jurisdictions in the Boise Urbanized Area
Transportation Alternatives Program Urban (TAP – Urban)	Projects that support “alternative” (non-motorized) transportation options in urbanized areas of 50,000 to 200,000 population.	Building a walking or biking path.	Any local transportation agency, city, or county

\*Funding Source: The source of funds used to fund the project. These can include funds from federal, state, or local sources.

\*\*Who can use this funding? Many types of funding are designated for specific uses, by specific types of agencies, for specific types of areas (e.g., rural vs urban). The information in this column shows the types of agencies within Ada and Canyon Counties who may apply for particular types of funding for particular types of projects. With the exception of TMA funds, all other funding sources can be used by other appropriate agencies throughout Idaho as well, based on funding definitions.

## Acronyms

Table 34 provides general acronyms and terms found throughout the TIP or in discussions about projects and funding.

*Table 34: General Acronyms and Terms Used in the TIP*

Acronym or Term	Definition
ACHD	Ada County Highway District; the agency responsible for all non-state roadways in Ada County.
ACCHD	Association of Canyon County Highway Districts
ADA	Americans with Disabilities Act; civil rights legislation prohibiting discrimination against persons with disabilities.
Boise Area / Boise Urbanized Area / Large Urban (LU)	Generally, northern Ada County, including the cities of Boise, Eagle, Garden City, and Meridian. For FHWA funding: Generally, eligible for Transportation Management Area (TMA) funds. For FTA funding: Eligible for "large urban" (LU) funds.
COMPASS/CPA	Community Planning Association of Southwest Idaho
HD	Highway district
Federal-aid Roadway	Road that is functionally classified as a collector or higher, making it eligible for federal funding.
Federal funding	Transportation funding collected by the federal government, then distributed to the states for use on both state and local transportation projects. The main purpose of the TIP is to budget federal funding.
Federal Highway Administration (FHWA)	An agency within the US Department of Transportation (DOT) that provides financial and technical assistance to state and local governments for the construction, maintenance, and preservation of the nation's highways, bridges, and tunnels.
Federal Transit Administration (FTA)	An agency within the US Department of Transportation (DOT) that provides financial and technical assistance to local public transportation systems.
FY	Fiscal year (refers to the federal fiscal year, which runs October 1 – September 30).
GARVEE	Grant Anticipation Revenue Vehicle (bonds).
Hwy (Highway)	Used with a funding program (e.g., State Hwy – System Support)
I-84	Interstate 84.
IN	Part of an ACHD key number. Local key numbers are used when a project is regionally significant, but 100% locally funded.
Idaho Transportation Department (ITD)	The state agency responsible for state and national highways in Idaho, such as Interstate 84, US 20/26, and State Highway 55. ITD receives state and federal funding for transportation projects, primarily from state and federal fuel taxes and state registration fees.
ITS	Intelligent transportation systems: advanced technologies to improve the efficiency and safety of transportation systems.
Key number (KN)	A unique identification number assigned to each project in the TIP.
Local funding	Funding collected by local agencies, such as Ada County Highway District, for use on local projects.
Local match	The portion of a primarily federally funded project paid for with state or local funds. While match is required for most federally funded projects, the minimum required amount varies based on the type of funding.
MPO	Metropolitan planning organization (COMPASS is the MPO for Ada and Canyon Counties).

Acronym or Term	Definition
NAM	Part of a City of Nampa key number. Local key numbers are used when a project is regionally significant, but 100% locally funded.
Nampa Area / Nampa Urbanized Area / Small Urban (SU)	Generally, eastern Canyon County, including the cities of Nampa, Caldwell, and Middleton. For FHWA funding: Eligible for “urban” funds. For FTA funding: Eligible for “small urban” (SU) funds.
National Environmental Policy Act (NEPA)	A law that requires the assessment of the environmental effects of proposed actions prior to making decisions on federally funded projects. A “NEPA study” refers to the documentation required for compliance with NEPA.
PD	Preliminary Development: design may begin, but construction is not yet programmed (budgeted) in a specific year.
PM	Performance Measure. Refers to either of two sets of performance measures reported in the TIP: one to meet the vision of goals of the regional long-range transportation plan ( <i>Communities in Motion</i> ) and one that meets federal requirements.
ORN	OTIS reference number (temporary key number).
OTIS	Office of Transportation Investment Systems (Department at ITD).
RC	Part of an ACHD key number. Local key numbers are used when a project is regionally significant, but 100% locally funded.
RD	Part of an ACHD key number. Local key numbers are used when a project is regionally significant, but 100% locally funded.
Rural (R)	For FHWA funding: An area with less than 5,000 in population. For FTA funding: An area with less than 50,000 in population.
SH	State highway (e.g., SH-16).
SR2S	Safe Routes to School; a program to improve the health of children by enabling and encouraging them to walk and bike to school safely.
State funding	Transportation funding collected by the State of Idaho for use by ITD and local roadway agencies.
TIP	Regional Transportation Improvement Program. A seven-year budget of projects in Ada and Canyon Counties paid for with federal or state transportation dollars and/or that are “regionally significant.”
Transportation Management Area (TMA)	Any urbanized area over 200,000 in population. The Boise Urbanized Area (generally, northern Ada County) is the only TMA in Idaho. TMAs receive dedicated transportation funding not shared with the rest of the state. See specific policy regarding TMA funds at <a href="http://www.compassidaho.org/documents/prodserv/trans/TMApolicy.pdf">www.compassidaho.org/documents/prodserv/trans/TMApolicy.pdf</a> .
TVT	Treasure Valley Transit, a private, non-profit public transportation company operating in rural southwest Idaho
Urban (U)	For FHWA funding: An area with more than 5,000 in population. For FTA funding: An area with more than 50,000 in population.
US	When used with a number, refers to a US highway (e.g., US-20).
VRT	Valley Regional Transit; the regional public transportation authority for Ada and Canyon Counties.

## **APPENDIX B: TRANSIT RIDERSHIP**

Provides tabular and graphical representation of transit ridership in FY2022.

Tables 39 through 44 provide summarized information projecting budgeting information for FY2022 - FY2027 extrapolated from the Road and Street Reports, using a five-year average of year-to-year changes in total income and total disbursement ratios.

The projections predict that most agencies will need additional funds to cover historical levels of expenses, use reserve accounts, or remove projects in order to balance their budgets in the future. Including budget reports from FY2020, during the pandemic, may provide uncertain projection results for the future.

Source: Valley Regional Transit Financial Statements FY2017-2021.

Table 46 includes inflationary factors for the overall budget projections from FY2021-2025 for VRT. It is anticipated that, if inflation affects the overall system as predicted, additional funding will be needed for operations as well as capital replacements in order to maintain current service levels.

Assumptions:

- The Transportation Development Plan (TDP) is intentionally balanced. Expenses and revenues are shown as the same.
- Expenses are not simply grown by an inflationary number (2.5%), they also consider planned investments.
- Local revenues are also not simply grown at a standard rate but are based on the funding requests discussed with our funding partners through the TDP process.
- Capital expenses are not forecast using an historical average, rather they are based on specific projects.

## **APPENDIX D: PRIOR YEAR PROJECTS**

Provides a list of projects that are still active, but no longer have budgeted funds. Projects could still need additional funding or release excess funding throughout the life of this program.

# Projects in Prior STIPs

## With No Final Voucher or Equivalent

Prior Year Projects Outside of MPO Areas

SUBJECT TO REVISION DUE TO REASONS SUCH AS FUNDING, OBLIGATION LIMITATION, PROJECT SCOPE, COST, AND POLICY/REGULATION/RULE CHANGES

Key No.	Location	Dist.	Year	Major Program	Sponsor	Project Status	Lifetime Cost
9967	SH 55, MARSING TO NEW MEADOWS, CORRIDOR PLAN	3	2007	Federal-Aid, State Highway System	STATE OF IDAHO (ITD)	Awarded (or equiv.)	685,660.00
9968	US 95, OR LN TO NEW MEADOWS, CORRIDOR PLAN	3	2007	Federal-Aid, State Highway System	STATE OF IDAHO (ITD)	Awarded (or equiv.)	686,500.00
9969	SH 69, KUNA TO MERIDIAN, CORRIDOR PLAN	3	2009	Federal-Aid, State Highway System	STATE OF IDAHO (ITD)	Awarded (or equiv.)	293,500.00

10939	I 84, MERIDIAN RD IC, ADA CO	3	2014	Federal-Aid, State Highway System	STATE OF IDAHO (ITD)	Project Closed	7,163,980.56
11350	TRANSIT, BSU BUS MTNCE FACILITY (FTA TRANSFER)	3	2016	Federal-Aid, Local Road System	BOISE STATE UNIVERSITY	Development	543,000.00
Provides for a bus maintenance facility, park and ride lot, bus storage, and bus wash off the Boise State University campus.							
11386	TRANSIT, BOISE URBANIZED AREA	3	2012	Federal-Aid, State Highway System	VALLEY REGIONAL TRANSIT	Development	828,000.00
11583	LOCAL, VRT BUS REPLACEMENT	3	2012	Federal-Aid, Local Road System	ADA COUNTY HD	Project Closed	469,000.00
11588	US 20, BROADWAY BR, BOISE	3	2015	Federal-Aid, State Highway System	STATE OF IDAHO (ITD)	Awarded (or equiv.)	21,807,040.00
12044	SH 55, EAGLE RD; FAIRVIEW AVE TO SH 44	3	2012	Federal-Aid, State Highway System	STATE OF IDAHO (ITD)	Project Closed	6,276,687.91
12046	SH 55, INT KARCHER & MIDDLETON RDS, NAMPA	3	2014	Federal-Aid, Local Road System	NAMPA	Awarded (or equiv.)	5,785,051.64
12048	STC-3016, S CEMETERY RD; SH 44 TO WILLOW CR, MIDDLET	3	2021	Federal-Aid, Local Road System	MIDDLETON	Awarded (or equiv.)	4,683,000.00
Construct a new 0.284 mile roadway segment linking SH-44 and Middleton Road by way of Sawtooth Lake Drive in Middleton.							
12179	TRANSIT, CAPITAL LEASE OR PURCHASE/MAINT, NAMPA FY1	3	2015	Federal-Aid, State Highway System	VALLEY REGIONAL TRANSIT	Development	180,000.00
Provide vehicle lease or purchase for fixed line, demand response, and support activities, and associated equipment and maintenance in the Nampa Urbanized Area. (Federal = \$769,438.)							
12204	TRANSIT, TREASURE VALLEY IDAHO TRANSIT FACILITIES - F	3	2012	Federal-Aid, State Highway System	VALLEY REGIONAL TRANSIT	Project Closed	975,000.00
12361	SH 19, RRXing EAST OF GREENLEAF	3	2012	State Funded Program	STATE OF IDAHO (ITD)	Project Closed	179,689.10
12362	OFFSYS, PINTO RD RRX #819706P, W OF CALDWELL	3	2012	State Funded Program	CANYON HD Number 4	Project Closed	41,040.26
12364	LOCAL, FY15 TRANSIT VEHICLE PURCHASE, NAMPA	3	2016	Federal-Aid, Local Road System	VALLEY REGIONAL TRANSIT	Awarded (or equiv.)	970,000.00
Provide up to six replacement vehicles in the Nampa Urbanized Area. Vehicles are currently leased.							
12368	STP-7403, FRANKLIN RD; BLACK CAT TO TEN MILE, ADA CO	3	2016	Federal-Aid, Local Road System	ADA COUNTY HD	Awarded (or equiv.)	12,219,732.00
Widen Franklin Road from two-lane to five-lane from Black Cat Road to Ten Mile Road. Work includes curb, gutter, drainage swales, sidewalks, and bicycle facilities, and reconstructing the intersection at Franklin Road and Black Cat Road with a seven-lane							
12383	SH 55, INT KARCHER RD & LAKE AVE, CANYON CO	3	2017	State Funded Program	STATE OF IDAHO (ITD)	Project Closed	3,425,957.00
12916	SH 16, INT SH 44, US 20, & LOCAL RDS	3	2013	Federal-Aid, State Highway System	STATE OF IDAHO (ITD)	Project Closed	431,166.00

13025	SH 55, INT MIDWAY RD, NR NAMPA	3	2017	State Funded Program	STATE OF IDAHO (ITD)	Project Closed	2,930,088.00
13050	STP-7220, STATE ST ITS, SH 16 TO 23RD, BOISE VRT	3	2012	Federal-Aid, Local Road System	ADA COUNTY HD	Development	250,378.00
13052	STP-7933, 21ST AVE, CLEVELAND TO CHICAGO, CALDWELL	3	2016	Federal-Aid, Local Road System	CALDWELL	Project Closed	2,690,621.00
Widen 21st Avenue from Chicago Street to Cleveland Boulevard from a two-lane to five-lane arterial. Work will include sidewalks, traffic signals, and railroad crossings.							
13053	LOCAL, TRANSIT - NAMPA MAINTENANCE FACILITY	3	2012	Federal-Aid, Local Road System	VALLEY REGIONAL TRANSIT	Awarded (or equiv.)	1,305,795.00

# Projects in Prior STIPs

## With No Final Voucher or Equivalent

Prior Year Projects Outside of MPO Areas

SUBJECT TO REVISION DUE TO REASONS SUCH AS FUNDING, OBLIGATION LIMITATION, PROJECT SCOPE, COST, AND POLICY/REGULATION/RULE CHANGES

Key No.	Location	Dist.	Year	Major Program	Sponsor	Project Status	Lifetime Cost
13054	STC-7165, FARMWAY RD / HIGHWAY 44, PARMA HD #2	3	2017	Federal-Aid, Local Road System	NOTUS-PARMA HD Number 2	Project Closed	2,224,162.00
This project will repair a deteriorating truck bypass route by reconstructing approximately 0.62 miles of the Hwy 44 extension to Farmway Rd and improve the surface of approximately 0.87 miles of Farmway Road. It will include installation of guardrail on two concrete bridge crossings over canals.							
13055	NHS-7773, 10TH AVE BR, CALDWELL	3	2019	Federal-Aid, Local Road System	CALDWELL	Awarded (or equiv.)	3,445,949.00
Replace bridge on 10th Ave. over Indian Creek in Caldwell. Work includes a bicycle and pedestrian tunnel under the bridge.							
13057	I 84, MERIDIAN IC TO FIVE MILE RD	3	2014	Federal-Aid, State Highway System	STATE OF IDAHO (ITD)	Project Closed	26,824,548.00
13059	SH 44, LINDER RD TO BALLANTYNE, EAGLE	3	2013	State Funded Program	STATE OF IDAHO (ITD)	Project Closed	11,434,790.00
13349	SH 55, EAGLE RD: MERIDIAN TOWN CENTER - STAGE 3	3	2021	State Funded Program	PRIVATE	Development	580,926.31
Add one lane southbound from River Valley Street to Franklin Road. The project will be constructed by the developer of the Meridian Towne Center shopping center using State Tax Anticipated Revenue; project is funded by the developer.							
13387	SH 55, SNAKE RV BR, MARSING	3	2020	State Funded Program	STATE OF IDAHO (ITD)	Awarded (or equiv.)	17,969,679.42
This project will replace the existing bridge at mile post 2.605 over the Snake River on Hwy-55 at Marsing. The bridge is nearing the end of its service life. Improvements include widened shoulders and added sidewalks.							
13389	SH 45, SNAKE RV BR, WALTERS FERRY	3	2017	Federal-Aid, State Highway System	STATE OF IDAHO (ITD)	Awarded (or equiv.)	6,857,423.00
This project will preserve the existing bridge over the Snake River on Hwy-45 at Walters Ferry (milepost 10.5) in Canyon County which is in critical condition due to scour, i.e., the water has flushed away the streambed to the point where some of the bridge piles are not embedded deep enough. Improvements include repairing and replacing expansion joints, scour mitigation, repair of pier walls, and a concrete overlay for the deck.							
13463	SH 44, JCT I 84 TO STAR	3	2016	Federal-Aid, State Highway System	STATE OF IDAHO (ITD)	Project Closed	6,658,185.00
This project will rehabilitate Hwy-44 from I-84 in Canyon County to Plummer Road in Star in order to extend the service life and improve the riding surface. Other improvements include guardrail replacement, ensuring accessibility for people with disabilities at intersections, and replacing two failing culverts.							
13464	I 84, FY17 D3 PAVEMENT STRIPING	3	2017	Federal-Aid, State Highway System	STATE OF IDAHO (ITD)	Project Closed	1,366.77
This project will re-paint pavement striping on sections of I-84 that have been deemed unsafe due to fading. Pavement markings are necessary to maintain traveler safety.							
13476	SH 44, SH 55 INTERSECTION IMPROVEMENT, EAGLE	3	2022	State Funded Program	STATE OF IDAHO (ITD)	Awarded (or equiv.)	9,708,783.00
This project will expand the current intersection configuration to increase capacity as well as remove all four existing free-flowing right-turn lanes. Work includes pavement widening and resurfacing, installation of raised medians, signing/stripping improvements, pedestrian access, signalization, Intelligent Transportation System improvements, and localized drainage improvements.							
13479	LOCAL, FY17 CAPITAL MAINTENANCE, ACHD	3	2017	Federal-Aid, Local Road System	ADA COUNTY HD	Awarded (or equiv.)	7,310,006.62
Supplement the local maintenance program, to complete work such as overlays on arterials and collectors in the Boise Urbanized Area. More details can be found in ACHD's Design and Construction Review online: <a href="http://www.achdidaho.org/Projects/DCR/DCR.pdf">http://www.achdidaho.org/Projects/DCR/DCR.pdf</a>							
13480	LOCAL, FY14 CAPITAL MAINTENANCE, BOISE, VRT	3	2016	Federal-Aid, Local Road System	VALLEY REGIONAL TRANSIT	Awarded (or equiv.)	986,000.00
13481	STP-7220, INT STATE ST & COLLISTER DR, BOISE	3	2018	Federal-Aid, Local Road System	ADA COUNTY HD	Awarded (or equiv.)	13,704,274.00
Intersection improvements at State Street and Collister Drive in the City of Boise.							
13482	LOCAL, FY18 CAPITAL MAINTENANCE, VRT, BOISE	3	2019	Federal-Aid, Local Road System	VALLEY REGIONAL TRANSIT	Awarded (or equiv.)	619,951.43
For replacement transit bus or replacement transit facility in 2018.							
13486	STP-8423, COLORADO & HOLLY SIGNAL/PED IMPR, NAMPA	3	2020	Federal-Aid, Local Road System	NAMPA	Awarded (or equiv.)	1,506,500.00
Install traffic signals and pedestrian-friendly improvements at the intersection of Colorado Avenue and Holly Street in Nampa. The project is located on STP-8423 between mile points 1.299 and 1.921.							
13489	LOCAL, INT IMPROVEMENTS, CANYON HD #4	3	2014	Federal-Aid, Local Road System	CANYON HD Number 4	Project Closed	676,423.37
13492	SMA-7169, INT LINDER & DEER FLAT RDS, KUNA	3	2020	Federal-Aid, Local Road System	ADA COUNTY HD	Awarded (or equiv.)	4,912,225.00
Improve the intersection at Linder Road and Deer Flat Road in Kuna, including curb, gutter, sidewalk, and bike lanes. The project is located on SMA-7169 at mile point 101.495.							
13509	LOCAL, FY13 MAINTENANCE SET ASIDE, VRT	3	2013	Federal-Aid, Local Road System	VALLEY REGIONAL TRANSIT	Awarded (or equiv.)	669,709.00
13510	LOCAL, FY15 CAPITAL MAINTENANCE, VRT, BOISE	3	2016	Federal-Aid, Local Road System	VALLEY REGIONAL TRANSIT	Awarded (or equiv.)	556,000.00
For replacement transit bus or replacement transit facility in FY2015.

SUBJECT TO REVISION DUE TO REASONS SUCH AS FUNDING, OBLIGATION LIMITATION, PROJECT SCOPE, COST, AND POLICY/REGULATION/RULE CHANGES

Key No.	Location	Dist.	Year	Major Program	Sponsor	Project Status	Lifetime Cost
13511	LOCAL, FY16 CAPITAL MAINTENANCE, VRT, BOISE	3	2016	Federal-Aid, Local Road System	VALLEY REGIONAL TRANSIT	Awarded (or equiv.)	1,368,906.00
For replacement transit bus or replacement transit facility in FY2016.							
13902	LOCAL, FY17 CAPITAL MAINTENANCE, VRT, BOISE	3	2017	Federal-Aid, Local Road System	VALLEY REGIONAL TRANSIT	Development	287,000.00
For replacement transit bus or replacement transit facility in FY2017 in the Boise Urbanized Area.							
13903	LOCAL, FY19 CAPITAL MAINTENANCE, PH 1, ACHD	3	2019	Federal-Aid, Local Road System	ADA COUNTY HD	Awarded (or equiv.)	6,190,195.00
Supplement the local maintenance program to complete work such as overlays on arterials and collectors in the Boise Urbanized Area. Pavement rehabilitation, select pipe replacement, and upgrade of adjacent pedestrian ramps on: Amity Rd., Enterprise St. to Production St.; Annett St., Victory Rd. to Targee St.; Boise Ave., Leadville Ave. to Gekeler Lane; Division Ave., Enterprise St., Amity Rd. to Commerce Ave.; Latah St., Overland Rd. to Alpine St.; and Fairview Ave., Locust Grove Rd. to Cloverdale Rd.							
13906	LOCAL, FY20 CAPITAL MAINTENANCE, VRT, NAMPA	3	2020	Federal-Aid, Local Road System	VALLEY REGIONAL TRANSIT	Awarded (or equiv.)	159,000.00
Replace public transportation bus or facility in the Nampa Urbanized Area.							
13912	LOCAL, FY19 & FY20 ADA COUNTY SR2S, VRT	3	2019	Federal-Aid, Local Road System	VALLEY REGIONAL TRANSIT	Awarded (or equiv.)	328,000.00
Safe Routes to School project to support up to three full-time staff serving schools in Ada County, with a focus on the Boise and Meridian School Districts. The Treasure Valley YMCA will receive pass-through funds for this project.							
13931	SH 45, NORTHSIDE BLVD TO GRANT ST, CANYON COUNTY	3	2017	State Funded Program	STATE OF IDAHO (ITD)	Project Closed	5,021,017.00
13941	US 20, INT CHINDEN & LOCUST GROVE RD, ADA CO	3	2017	Federal-Aid, State Highway System	STATE OF IDAHO (ITD)	Project Closed	1,242.15
13954	I 84B, FY15 8 ADA RAMPS, NAMPA	3	2015	State Funded Program	NAMPA	Project Closed	53,500.00
Provides for Americans with Disabilities Act (ADA) ramp improvements at eight locations on I-84B (Garrity Boulevard) in Nampa.							
14344	LOCAL, S MIDLAND BLVD PEDESTRIAN SIGNAL, NAMPA	3	2017	Federal-Aid, Local Road System	NAMPA	Project Closed	189,462.00
This project will place a HAWK pedestrian-activated signal at the Wilson Pathway where it crosses Midland Boulevard. Pedestrian pre-warning signals and thermo crosswalk markings will also be installed to improve safety concerns at the intersection.							
14363	LOCAL, DEER FLAT BICYCLE /PEDESTRIAN PLAN, CANYON C	3	2014	Federal-Aid, Local Road System	CANYON HD Number 4	Development	230,000.00
18701	LOCAL, FY21 CAPITAL MAINTENANCE, PH 1, ACHD	3	2021	Federal-Aid, Local Road System	ADA COUNTY HD	Awarded (or equiv.)	5,243,087.00
Supplement the local pavement preservation program to complete pavement improvements on federal-aid roadways in the Boise Urbanized Area. Work includes improvements to adjoining sidewalks to meet Americans with Disabilities Act (ADA) requirements. Segments include: Fairview Avenue, Maple Grove Road to Milwaukee Road; Curtis Road, Fairview Avenue to Ustick Road; Surprise Way, Amity Road to State Highway 21; Linden Street, Broadway Avenue to Gekeler Lane; Boise Avenue, Broadway Avenue to Gekeler Lane; and Pleasant Valley Road, Hollilynn Drive to Gowen Road.							
18728	LOCAL, FY20 CAPITAL MAINTENANCE, ACHD	3	2020	Federal-Aid, Local Road System	ADA COUNTY HD	Awarded (or equiv.)	4,833,547.00
Supplement the local maintenance program to complete work such as overlays on arterials and collectors within the Boise Urbanized Area.							
18833	SH 55, EAGLE RD; SIGNAL EQUIPMENT UPGRADES	3	2019	State Funded Program	STATE OF IDAHO (ITD)	Awarded (or equiv.)	583,000.00
Completes the SH-55 (Eagle Road) corridor with adaptive signals in order to help address heavy volumes of traffic.							
18838	OFFSYS, MILL CR ELEM SCHOOL SR2S, GREATER MIDDLETO	3	2017	Federal-Aid, Local Road System	MISCELLANEOUS	Project Closed	299,662.00
This project includes a 12-foot pathway from Cornell Street to Mill Creek Elementary. It will cross a new bridge and connect to a pathway to Johnson Park Estates and the back entrance to Mill Creek Elementary. An eight-foot pathway will also be construct							
18847	LOCAL, FY19 CAPITAL MAINTENANCE, VRT	3	2019	Federal-Aid, Local Road System	VALLEY REGIONAL TRANSIT	Awarded (or equiv.)	1,316,999.78
Replace public transportation bus or facility in FY 2019 in the Boise Urbanized Area. See Valley Regional Transit's Program of Projects for more details.							
18905	LOCAL, FY21 ROLLING STOCK, INFRASTRUCTURE, TECH, VR	3	2021	Federal-Aid, Local Road System	VALLEY REGIONAL TRANSIT	Awarded (or equiv.)	2,496,000.00
Fund capital replacement projects, such as rolling stock, infrastructure, and technology, identified in the Transit Asset Management Plan in FY2021 in the Boise Urbanized Area.							
18954	OFFSYS, HEIGHTS ELEM SCHOOL SR2S, MIDDLETON	3	2016	Federal-Aid, Local Road System	MIDDLETON	Awarded (or equiv.)	221,565.00
This project will add missing segments of sidewalk that lead to Heights Elementary on the west side of Cemetery Road in Middleton.

Prior Year Projects Outside of MPO Areas

SUBJECT TO REVISION DUE TO REASONS SUCH AS FUNDING, OBLIGATION LIMITATION, PROJECT SCOPE, COST, AND POLICY/REGULATION/RULE CHANGES

Key No.	Location	Dist.	Year	Major Program	Sponsor	Project Status	Lifetime Cost
19057	LOCAL, ROLLING STOCK, INFRASTRUCTURE AND TECHNOLO	3	2020	Federal-Aid, Local Road System	VALLEY REGIONAL TRANSIT	Awarded (or equiv.)	2,243,747.00
Fund capital projects identified in the Transit Asset Management Plan in 2020 in the Boise Urbanized Area.							
19180	US 20, BROADWAY BR GIRDERS, BOISE	3	2015	Federal-Aid, State Highway System	STATE OF IDAHO (ITD)	Project Closed	3,118,590.00
This project has been split out of KN 11588 to pre-order steel girder and H piles before the actual bridge contract will be in place, to stay on schedule.							
19181	US 20, BROADWAY BR, CHRIST CHAPEL MITIGATION	3	2015	Federal-Aid, State Highway System	STATE OF IDAHO (ITD)	Project Closed	306,785.00
The Christ Chapel Mitigation required prior to Broadway bridge construction.							
19289	I 84, FIVE MILE RD TO ORCHARD RD & RAMPS, BOISE	3	2017	Federal-Aid, State Highway System	STATE OF IDAHO (ITD)	Awarded (or equiv.)	1,895,220.00
This project will diamond grind the concrete travel lanes to restore roughness of the driving surface and address rutting on the mainline of I-84 from milepost 48.1 to milepost 51.3 including all ramps for the flying WYE and the Cole Interchange. Other improvements include partial concrete slab replacement and joint repair.							
19303	LOCAL, PLANNING, TRAVEL SURVEY DATA COLLECTION, CO	3	2021	Federal-Aid, Local Road System	COMPASS	Development	850,000.00
Collect local travel data from households and bus riders to update and recalibrate the regional travel demand model.							
19345	STATE, I 84 AND SH 21 BRIDGE REPAIRS	3	2017	Federal-Aid, State Highway System	STATE OF IDAHO (ITD)	Project Closed	3,326,810.00
This project will provide bridge deck preservation and preventative maintenance to the bridges, bridge approaches and guardrail in various locations throughout District 3.							
19389	LOCAL, FY21 COMPASS PLANNING (3)	3	2020	Federal-Aid, Local Road System	COMPASS	Project Closed	331,000.00
This project will assist COMPASS in meeting federal transportation planning responsibilities.							
19417	OFFSYS, FRIENDS RD RRX, GREENLEAF	3	2017	State Funded Program	GREENLEAF	Awarded (or equiv.)	65,000.00
Remove existing crossing material (Asphalt/Gravel) and Install new insulated concrete planking. Install new rail crossing signs.							
19442	I 84, OREGON ST LN TO CALDWELL BRIDGE REHABS	3	2019	Federal-Aid, State Highway System	STATE OF IDAHO (ITD)	Awarded (or equiv.)	3,967,123.00
Rehabilitate six bridges on I-84 in Ada and Canyon Cos. at: Sand Hollow Rd. crossing, Franklin Rd., Galloway Rd, Purple Sage Rd., SH-44 (Middleton), and US-20 (Parma), as well as 5 additional bridges outside of the COMPASS Planning Area.							
19461	OFFSYS, ACADEMY RD BVRR RRX, GREENLEAF	3	2018	Federal-Aid, Local Road System	GREENLEAF	Awarded (or equiv.)	60,600.00
Remove existing crossing material (Asphalt/Gravel) and Install new insulated concrete planking. Install new rail crossing signs.							
19521	LOCAL, FY20 ACHD COMMUTERIDE	3	2020	Federal-Aid, Local Road System	ADA COUNTY HD	Awarded (or equiv.)	275,000.00
This project will continue to improve and market the rideshare program while coordinating and operating the multi-county vanpool program.							
19571	LOCAL, PLANNING, COMMUNITIES IN MOTION MAJOR UPDAT	3	2020	Federal-Aid, Local Road System	COMPASS	Development	724,509.00
Major update to the regional long-range transportation plan. Includes: transportation/land use preference survey with focus groups, financial forecast assumptions review, growth scenario recalibration, public involvement, graphics and editing, and printing.							
19627	SH 19, ROEDEL AVE BVRR RRX, CALDWELL	3	2018	Federal-Aid, State Highway System	STATE OF IDAHO (ITD)	Awarded (or equiv.)	633,000.00
This project is sponsored by ITD to add cantilever signals and improve the crossing surface for the entire length of the crossing.							
19685	STP-7073, COLE RD; SPECTRUM TO CENTURY WAY MEDIANS	3	2017	Federal-Aid, Local Road System	ADA COUNTY HD	Awarded (or equiv.)	383,682.06
This project will install a raised concrete median to replace the existing temporary median in Boise on Cole Road between Spectrum Street and S Century Way. The temporary median was installed in segments over the last few years as crash data identified a high number of left turn crashes. The raised concrete will better delineate the median, the left turn pockets and reduce crashes.							
19727	US 20, MYRTLE, FRONT, BROADWAY RESURFACING, BOISE	3	2017	Federal-Aid, State Highway System	STATE OF IDAHO (ITD)	Project Closed	3,593,591.59
This project will restore the pavement on US-20 from milepost 48.13 to milepost 52.12 in downtown Boise by milling off the old surface and inlaying a new one.							
19783	STC-3789, BOGUS BASIN RD SAFETY, MAINTENANCE, AND TR	3	2019	Federal-Aid, Local Road System	ADA COUNTY HD	Development	5,378,000.00
Complete safety improvements and pavement rehabilitation on Bogus Basin Rd from milepost 9 to Bogus Basin Mountain Recreation Area (MP 16.2) and add a trailhead to support recreational use of Boise National Forest lands. The purpose of this project is to improve public and federal agencies' access to the Boise National Forest.							
Anticipated improvements include a mill and overlay consisting of Superpave asphalt, new concrete curbing, guardrail/barrier extensions/replacements, additional signage, and modifying and improving drainage. In addition, the project will create a new trailhead, which will include a new ingress/egress point from Bogus Basin Rd, the parking area, and a comfort station.							
19803	LOCAL, BICYCLE PARKING MAIN ST STATION, VRT	3	2016	Federal-Aid, Local Road System	VALLEY REGIONAL TRANSIT	Project Closed	49,110.00
This project will purchase bike racks, bike repair equipment, security infrastructure, and tenant improvement furnishings for a secure inside bike storage.

19814	I 84, KARCHER IC, NAMPA	3	2017	State Funded Program	STATE OF IDAHO (ITD)	Project Closed	3,352,791.10
The I-84; KARCHER INTERCHANGE IMPROVMENTS project in the City of Nampa in Canyon County will improve safety and congestion at the Karcher Interchange							
19847	LOCAL, FY20 CAPITAL MAINTENANCE, PH 3, ACHD	3	2020	Federal-Aid, Local Road System	ADA COUNTY HD	Awarded (or equiv.)	483,839.00
Supplement the local maintenance program to complete work such as overlays on arterials and collectors in the Boise Urbanized Area.							
19874	I 84, BLACKS CR RD IC, ADA CO	3	2019	State Funded Program	STATE OF IDAHO (ITD)	Awarded (or equiv.)	15,116,023.00
Replace the Blacks Creek Interchange at I-84 in Ada County and upgrade the ramps to meet the standards for an 80 mph speed limit. The bridge was originally built in 1962.							
19875	SMA-9773, N LINDER RD BVRR RRX, MERIDIAN	3	2020	Federal-Aid, Local Road System	ADA COUNTY HD	Awarded (or equiv.)	612,000.00
This project will install crossing signals and gates at the North Linder railroad crossing in Meridian. The project is located on SMA-9773 at mile point 11.329.							
19887	LOCAL, FY20 CAPITAL MAINTENANCE, PH 2, ACHD	3	2020	Federal-Aid, Local Road System	ADA COUNTY HD	Awarded (or equiv.)	1,742,333.00
Supplement the local maintenance program for arterials and collectors within the Boise Urbanized Area.							
19920	LOCAL, FY22 COMPASS PLANNING	3	2022	Federal-Aid, Local Road System	COMPASS	Development	331,000.00
This project will assist COMPASS in meeting federal transportation planning responsibilities.							
19965	SH 69, KUNA TO MERIDIAN	3	2018	State Funded Program	STATE OF IDAHO (ITD)	Project Closed	4,070,053.00
The SH-69; Kuna to Meridian project located in Ada county will resurface the pavement to preserve the structural capacity of the existing roadway. Signals will be added at Lake Hazel and Hubbard Lane.							
19993	LOCAL, FY23 ROADWAY & ADA IMPROVEMENTS, PT 2, BOISE	3	2022	Federal-Aid, Local Road System	ADA COUNTY HD	PS&E (or equiv.)	34,000.00
Supplement the local pavement preservation program to complete pavement improvements on federal-aid roadways in the Boise Urbanized Area. Work includes improvements to adjoining sidewalks to meet Americans with Disabilities Act (ADA) requirements. Segment includes: Beacon Light Road, State Highway 16 to Ballentyne Lane.							
19997	SH 69, SIGNAL INSTALLATION AT HUBBARD & LAKE HAZEL	3	2018	State Funded Program	STATE OF IDAHO (ITD)	Project Closed	863,444.00
The project is located near the city of Kuna in Ada County and will signalize two intersections at Lake Hazel Road and Hubbard road to improve safety.							
20003	LOCAL, FY19 CAPITAL MAINTENANCE, PH 2, ACHD	3	2019	Federal-Aid, Local Road System	ADA COUNTY HD	Awarded (or equiv.)	2,503,759.00
Supplement the local maintenance program for arterials and collectors within the Boise Urbanized Area. Pavement rehabilitation, select pipe replacement, and upgrade of adjacent pedestrian ramps on: Emerald St., Cole Rd. to Orchard St.; Orchard St., Overland Rd. to Franklin Rd. (subject to change). More details can be found in ACHD's Design and Construction Review Online.							
20046	LOCAL, FY19 ACHD COMMUTERIDE VAN REPLACEMENTS	3	2019	Federal-Aid, Local Road System	ADA COUNTY HD	Awarded (or equiv.)	331,000.43
Replace vans used in the Commuteride system in FY2019 in the Boise Urbanized Area.							
20060	I 84, SAND HOLLOW IC TO FARMERS SEBREE CANAL	3	2021	Federal-Aid, State Highway System	STATE OF IDAHO (ITD)	Awarded (or equiv.)	1,364,540.00
Seal coat the pavement surface on I-84 from the Canyon Co. border to Farmers Sebree Canal (near the Parma exit). The project will improve ride quality and extend the life of the pavement. The project is located between mile points 17.628 and 26.349.							
20076	OFFSYS, INDIAN CR PATH EXT TO GREENBELT, CALDWELL	3	2019	Federal-Aid, Local Road System	CALDWELL	Project Closed	555,555.56
This project will construct a nearly half-mile long 10-foot wide multiple-use asphalt and concrete pathway along Indian Creek , build two (2) pedestrian bridges Indian Creek, build a crosswalk over Simplot Blvd., and construct lighting along the entire pathway system.							
20091	LOCAL, FY19 CAPITAL MAINTENANCE, PH 3, ACHD	3	2019	Federal-Aid, Local Road System	ADA COUNTY HD	Awarded (or equiv.)	611,014.00
Supports the local maintenance program for arterials and collectors within the Boise Urbanized Area. Pavement rehabilitation, select pipe replacement, and upgrade of adjacent pedestrian ramps on: Cherry Lane, Shoshone St. to Broxon St.; Elder St., Owyhee St. to Vista Ave.; and Owyhee St., Elder St. to Cherry Lane (subject to change). More details can be found in ACHD's Design and Construction Review online.							
20095	LOCAL, BOISE STATE UNIVERSITY SECURE BIKE FACILITIES	3	2018	Federal-Aid, Local Road System	BOISE STATE UNIVERSITY	Project Closed	125,500.00
Construct a secured bike parking area for public access on the edge of the Boise State University campus.							
20129	LOCAL, FY21 CAPITAL MAINTENANCE, PH 2, ACHD	3	2022	Federal-Aid, Local Road System	ADA COUNTY HD	Awarded (or equiv.)	3,367,350.00
Supplement the local pavement preservation program to complete pavement improvements on federal-aid roadways in the Boise Urbanized Area. Work includes improvements to adjoining sidewalks to meet Americans with Disabilities Act (ADA) requirements. Segments include: Warm Springs Avenue, Starcrest Drive to Starview Drive and Glacier Drive to State Highway 21; and Edna Street, Five Mile Road to Patton Avenue.							
20141	OFFSYS, INDIAN CR PATH EXT; TAFFY TO PEPPERMINT, NAM	3	2019	Federal-Aid, Local Road System	NAMPA	Awarded (or equiv.)	566,524.00
This project will construct approximately 633 feet of 8-foot-wide, multi-use, asphalt trail for Indian Creek Pathway.

20143	SMA-7179, MAIN ST; AVENUE C TO AVENUE A, KUNA	3	2020	Federal-Aid, Local Road System	KUNA	Awarded (or equiv.)	2,130,494.00
Extend streetscape improvements along Main Street from Avenue C to Avenue A in the City of Kuna. Improvements include road rehabilitation, crosswalks, bulb- outs (pedestrian refuges) at the intersections, landscaping, decorative and functional lighting, benches, and bike racks. The project is located on SMA-7179 between mile points 0.87 and 1.015.							
20159	LOCAL, FY21 CAPITAL MAINTENANCE, PHASE 3, BOISE AREA	3	2021	Federal-Aid, Local Road System	ADA COUNTY HD	PS&E (or equiv.)	757,570.00
Supplement the local pavement preservation program to complete pavement improvements on federal-aid roadways in the Boise Urbanized Area. Work includes improvements to adjoining sidewalks to meet Americans with Disabilities Act (ADA) requirements. Segment: NW 8th Street between Pine Avenue and Cherry Lane in the City of Meridian.							
20167	STC-8533, INT SMITH AVE & MIDDLETON RD SIGNAL, NAMPA	3	2019	Federal-Aid, Local Road System	NAMPA	Awarded (or equiv.)	613,521.00
The project will install a traffic signal at the intersection of Smith Avenue and Middleton Road. The project will install crash reduction countermeasures to increase driver awareness, protect pedestrians, improve intersection efficiency and enhance vehicle safety. Improvements include a traffic signal, pedestrian facilities, street lighting, lane widening and the installation of turn lanes.							
20173	LOCAL, FY17/18, COMMUTER VAN REPLACEMENT, ACHD	3	2017	Federal-Aid, Local Road System	ADA COUNTY HD	Project Closed	315,130.00
20203	I 84, EISENMAN IC TO MP 70 AND MP 82 TO MOUNTAIN HOME	3	2020	State Funded Program	STATE OF IDAHO (ITD)	Project Closed	1,980,477.00
This project located in Ada and Elmore counties will sealcoat the pavement surface to improve ride quality and extend the pavement lifespan. The project is located on I-84 between mile points 59.52 and 70.22.							
20220	LOCAL, FY18 COMMUTERIDE VAN REPLACEMENTS	3	2018	Federal-Aid, Local Road System	ADA COUNTY HD	Awarded (or equiv.)	306,496.87
Replace vans used in the Commuteride system in the Boise Urbanized Area.							
20225	SH 45, DEER FLAT TO I-84B MICROSEAL, NAMPA	3	2017	Federal-Aid, State Highway System	STATE OF IDAHO (ITD)	Project Closed	941,255.00
Micro seal SH 45 from Deer Flat road to 3rd St in downtown Nampa.							
20245	LOCAL, FY21 & FY22 ADA COUNTY SR2S, VRT	3	2021	Federal-Aid, Local Road System	VALLEY REGIONAL TRANSIT	Awarded (or equiv.)	344,305.00
Support up to three full-time staff for Safe Routes to Schools (SR2S) coordination serving schools in Ada County with a focus on the Boise and West Ada School Districts. The Treasure Valley YMCA will receive pass-through funds for this project.							
20249	LOCAL, SAFETY IMPRV AT 62 INTERSECTIONS, GOLDEN GAT	3	2018	Federal-Aid, Local Road System	GOLDEN GATE HD	Project Closed	38,646.00
This project includes the following safety improvements: Install larger stop signs (30" to 36"), Install stop bars (stop bar on minor roads and short segments of centerline), Install advance warning signs (30" to 36").							
20260	LOCAL, FY21 ACHD COMMUTERIDE	3	2020	Federal-Aid, Local Road System	ADA COUNTY HD	Awarded (or equiv.)	275,000.00
This project will continue to improve and market the rideshare program while coordinating and operating the multi-county vanpool program.							
20275	NHS-7220, STATE ST LIGHTING; 16TH TO 23RD, ACHD	3	2019	Federal-Aid, Local Road System	ADA COUNTY HD	Project Closed	458,386.00
This project will install additional street lighting on State Street, between 16th Street and 23rd Street. The segments of the street in between the intersections are not lighted and have a higher nighttime crash rate than the lighted segments.							
20288	I 84, E BOISE POE LICENSE PLATE READERS, ADA COUNTY	3	2017	State Funded Program	STATE OF IDAHO (ITD)	Project Closed	815,904.00
Install license plate readers on the east and west bound lanes of the Boise port of entry to allow faster truck movement through the port for trucks not compatible with weigh-in-motion technology. The project includes changeable message signs for information and direction.							
20294	LOCAL, INT COLE RD AND OVERLAND RD, BOISE	3	2017	Federal-Aid, Local Road System	ADA COUNTY HD	Awarded (or equiv.)	1,492,720.00
Install signal-controlled right turn lanes on each leg of the Cole Rd and Overland Rd intersection in Boise and install ramps and crosswalks.							
20315	I 84, KARCHER IC TO FRANKLIN BLVD, NAMPA	3	2019	Federal-Aid, State Highway System	STATE OF IDAHO (ITD)	Development	13,508,064.15
Expand I-84 to three lanes in each direction between the Karcher Interchange (Midland Blvd.) and Franklin Blvd. in the City of Nampa. Individual construction projects will be identified once the phasing is determined. Projects are funded using INFRA grant, with State funds used as tapered match.							
20405	I 84, FY22 D3 BRIDGE REPAIR	3	2022	Federal-Aid, State Highway System	STATE OF IDAHO (ITD)	Awarded (or equiv.)	89,000.00
The scope of the project is to preserve and maintain 18 bridges along I-84 from MP 3.21 to 89.761; 17 bridges will receive either an epoxy overlay or an HCSC (Hybrid Composite Synthetic Concrete) overlay. One bridge will have the guardrail widened to allow wider traffic to cross.							
20428	SH 21, TECHNOLOGY WAY TO SURPRISE WAY, BOISE	3	2022	State Funded Program	STATE OF IDAHO (ITD)	Awarded (or equiv.)	3,743,289.00
The TECHNOLOGY WAY TO SURPRISE WAY, BOISE project is located on SH-21 in Ada County between Technology Way and Surprise Way. This project will widen SH-21 to include two 12-FT travel lanes, a continuous 14-FT center turn lane, and two 6-FT shoulders. The project is located between mile points 0.787 and 3.023.

20430	STC-7821, INT N MIDDLETON RD & CORNELL ST, MIDDLETON	3	2021	Federal-Aid, Local Road System	MIDDLETON	Awarded (or equiv.)	560,000.00
The N Middleton Road & Cornell Street Roundabout project is located in the City of Middleton in Canyon County will improve this intersection with the conversion of the intersection to a mini-roundabout to reduce/eliminate serious injury crashes and fatalities. The project is located on STC-7821 at mile point 100.369.							
20613	SMA-8383, INT LONE STAR & MIDDLETON RD	3	2020	Federal-Aid, Local Road System	NAMPA	Awarded (or equiv.)	2,659,220.00
The Lone Star Road & Middleton Road Intersection Improvement project is located in the City of Nampa in Canyon County will improve commuter and pedestrian/bike safety and will improve traffic flow with the installation of a traffic signal and sidewalk to reduce/eliminate serious injury crashes and fatalities. The project is located on SMA-8383 between mile points 3.8 and 4.2.							
20639	LOCAL, FAIRVIEW AVE GREENBELT RAMP, BOISE	3	2020	Federal-Aid, Local Road System	BOISE, CITY OF	Project Closed	215,000.00
Design and construct an Americans with Disabilities Act-compliant, concrete, multi-use pathway ramp connecting the south side of the Greenbelt to the existing bike lane on Fairview Avenue in the City of Boise. A small section of block retaining wall construction is anticipated.							
20729	LOCAL, FY22 ACHD COMMUTERIDE	3	2022	Federal-Aid, Local Road System	ADA COUNTY HD	Awarded (or equiv.)	275,000.00
This project will continue to improve and market the rideshare program while coordinating and operating the multi-county vanpool program.							
20796	I 84, KARCHER IC TO FRANKLIN BLVD IC TEMP SHOULDER	3	2019	State Funded Program	STATE OF IDAHO (ITD)	Awarded (or equiv.)	5,675,486.28
Reconstruct and widen the eastbound and westbound shoulders on I-84 from the Karcher/Midland interchange to the Franklin interchange (MP 33.10 – 36.50) to provide sufficient pavement sections to temporarily shift traffic during the I-84 reconstruction projects.							
20797	I 84, KARCHER OVERPASS, NAMPA	3	2019	State Funded Program	STATE OF IDAHO (ITD)	Project Closed	4,635,563.36
Demolish and reconstruct the Karcher Road Overpass at I-84 MP 33.97. The existing 5-span bridge will be replaced with a 2-span bridge to allow widening of I-84. The new bridge will have two travel lanes with a shoulder on the southeast side, bike lane and sidewalk on the northwest side. The project includes minor roadway reconstruction for the approaches on each side of the bridge.							
20798	I 84, NORTHSIDE BLVD TO FRANKLIN BLVD, NAMPA	3	2019	Federal-Aid, State Highway System	STATE OF IDAHO (ITD)	Awarded (or equiv.)	74,527,876.80
Reconstruct and widen I-84 from the Northside interchange to the Franklin interchange (MP 34.26 – 35.98). The project includes widening the existing 4-lane section (2-lanes each direction) to an 8-lane section (3-lanes each direction plus auxiliary lanes each direction between the Northside and Franklin interchanges. This project includes replacement of the Mason Creek Culvert under I-84 just west of the Franklin IC with a 12' x 13' concrete box culvert; replacement of the twin I-84 over UPRR/PID bridges with one single-span concrete box beam bridge; and full reconstruction of the Northside IC. The new Northside IC will be a SPUI IC with one single-span hybrid steel girder I-84 bridge over Northside Boulevard.							
20799	I 84, KARCHER IC TO NORTHSIDE BLVD	3	2020	Federal-Aid, State Highway System	STATE OF IDAHO (ITD)	Awarded (or equiv.)	28,549,890.77
Reconstruct and widen I-84 from the Karcher/Midland interchange to the Northside interchange (MP 33.19 – MP 34.26). The project includes widening the existing 4-lane section (2-lanes each direction) to an 8-lane section (3-lanes each direction plus auxiliary lanes each direction between the Karcher and Northside interchanges.							
20842	SMA-7013, CLOVERDALE RD; CAMAS DR TO TUTRINA & OPAS	3	2019	State Funded Program	STATE OF IDAHO (ITD)	Project Closed	11,240,670.00
Widen Cloverdale Rd. from Camas Dr. to Trutina Ave. from two lanes to 5 lanes with curb, gutter, sidewalk, and bicycle lanes in accordance with ACHD's Capital Improvement Plan. Replace the bridge and update the structure to current standards to include 4 travel lanes, standard shoulders, and bicycle and pedestrian facilities. The bridge will have higher clearance over I-84 and be built to accommodate a future fifth lane expansion of the Interstate below. Additional details will be available on ACHD's and ITD's website soon.							
21849	SH 45, JCT SH-78 TO DEER FLAT RD, CANYON CO	3	2022	Federal-Aid, State Highway System	STATE OF IDAHO (ITD)	Awarded (or equiv.)	457,675.00
The JCT SH-78 TO DEER FLAT RD project in Canyon County will restore and rehabilitate roadway pavement by milling/inlaying SH-45 from Deer Flat Road to the junction of SH-78. This work also includes shoulder grading, patching at existing driveways that are in bad or poor condition and hyrdo demolition, silica fume overlay, joint replacement, concrete repair (e.g. spalling/patching), and concrete crack repair at the Mora Canal (14305).							
21858	US 20, SH 16 TO LINDER RD, ADA COUNTY	3	2021	State Funded Program	PRIVATE	Development	24,810,675.00
This project can be built in two Phases or a single Phase at the discretion of the Developer of the Costco shopping center using State Tax Anticipated Revenue. Phase 1; Expand Chinden Boulevard to five lanes (two through lanes in each direction and a two way left center turn lane) with turn lanes/raised median where necessary between Tree Farm Way (MP35.762) and the existing five lane section approximately 700ft to the west of Linder Road (MP 37.128, approximately 1.5 miles in length). Phase 2; Expand Chinden Boulevard to five lanes (two through lanes in each direction and a two way left center turn lane) with turn lanes/raised median where necessary between Tree Farm Way (MP 35.762) and the existing five lane section approximately 800ft to the east of State Highway 16 (MP 34.424, approximately 1.44 miles in length).							
21864	US 20, SH-16 TO TREE FARM WAY (PH2)	3	2019	State Funded Program	PRIVATE	Project Closed	197.82
Expand Chinden Boulevard to five lanes (two through lanes in each direction and a two way left center turn lane) with turn lanes/raised median where necessary between Tree Farm Way and the existing five lane section approximately 800ft to the east of State Highway 16 (approximately 1.44 miles in length). This project will be funded and constructed by the developer of the Costco shopping center using State Tax Anticipated Revenue.							
21906	SH 55, PEAR LANE TO MIDDLETON RD, CANYON CO	3	2019	Federal-Aid, State Highway System	STATE OF IDAHO (ITD)	Awarded (or equiv.)	2,772,100.00
This project will evaluate the environmental impacts as a result of widening from two to five lanes within this corridor which extends from Sunny Slope to Middleton Rd.

Prior Year Projects Outside of MPO Areas

SUBJECT TO REVISION DUE TO REASONS SUCH AS FUNDING, OBLIGATION LIMITATION, PROJECT SCOPE, COST, AND POLICY/REGULATION/RULE CHANGES

Key No.	Location	Dist.	Year	Major Program	Sponsor	Project Status	Lifetime Cost
21913	LOCAL, BSU COVERED BIKE FACILITY	3	2019	Federal-Aid, Local Road System	BOISE STATE UNIVERSITY	Project Closed	41,500.00
Construct one covered bicycle parking facility on the Boise State University campus. The covered parking shelters provide shelter from the sun, rain, and snow.							
21968	SH 21, MORES CR BR ASSET PLAN	3	2020	Federal-Aid, State Highway System	STATE OF IDAHO (ITD)	Development	275,000.00
This project will develop a Bridge Asset Management Plan for the high replacement cost Mores Creek bridge on SH-21 at milepoint 17 in Ada Co.							
21999	STP-8463, GREENHURST RD; SUNNYBROOK TO CANYON ST,	3	2021	Federal-Aid, Local Road System	NAMPA	Awarded (or equiv.)	1,210,903.00
Provide safety improvements on Greenhurst Rd. from Sunnybrook Rd. to Canyon St. in the City of Nampa. The project will install a traffic control signal with pedestrian crossing facilities, a pedestrian-activated flashing beacon crossing light, street lighting, and a raised median to reduce or eliminate fatal and serious injury accidents for roadway users.							
22029	LOCAL, FY19 CANYON CO SR2S COORDINATOR & ACTIVITIES	3	2019	Federal-Aid, Local Road System	MERIDIAN	Awarded (or equiv.)	64,753.00
This project provides for Safe Routes To School program personnel, education materials, encouragement incentives, special events and indirect costs.							
22030	LOCAL, FY20 CANYON CO SRTS COORDINATOR & ACTIVITIES	3	2020	Federal-Aid, Local Road System	VALLEY REGIONAL TRANSIT	Awarded (or equiv.)	64,753.00
This project provides for Safe Routes To School program personnel, education materials, encouragement incentives, special events and indirect costs.							
22031	LOCAL, FY21 CANYON CO SRTS COORDINATOR & ACTIVITIES	3	2021	Federal-Aid, Local Road System	VALLEY REGIONAL TRANSIT	Awarded (or equiv.)	64,753.00
This project provides for Safe Routes To School program personnel, education materials, encouragement incentives, special events and indirect costs.							
22034	STC-8233, MIDLAND BLVD UPRR RRX, NAMPA	3	2020	Federal-Aid, Local Road System	NAMPA	Awarded (or equiv.)	78,500.00
Upgrade signals at the Midland Blvd. Union Pacific Railroad crossing.							
22050	LOCAL, STODDARD PATH EXT PH 1, NAMPA	3	2020	Federal-Aid, Local Road System	NAMPA	Awarded (or equiv.)	532,783.00
The Stoddard City Pathway (Iowa to Amity) project is an extension of the existing Stoddard Pathway located in Nampa, Canyon County. The current Stoddard Pathway is approximately 2-miles and connects neighborhoods to parks and schools in southeast Nampa. This extension would add approximately ½- mile to the paved trail starting at Iowa Avenue and ending at Amity Avenue.							
22070	LOCAL, STODDARD PATH EXT PH 2, NAMPA	3	2020	Federal-Aid, Local Road System	NAMPA	Awarded (or equiv.)	539,066.00
The purpose of this project is to extend the Stoddard Pathway from Amity Avenue to Sherman Avenue. The Stoddard City Pathway (Amity to Sherman) extension will provide a safe route to Sherman Elementary, which is one of Nampa's highest needs school. Students and pathway users will be able to utilize an existing crosswalk with a Rapid Flashing Beacon at the Amity Avenue crossing. The project will also tie into the proposed Stoddard City Pathway (Iowa to Amity), creating approximately 2 and ¾ miles of continuous trail.							
22076	OFFSYS, GRIMES CITY PATHWAY, NAMPA	3	2020	Federal-Aid, Local Road System	NAMPA	Awarded (or equiv.)	296,229.00
This project is on the Grimes Pathway between Birch Ln. and Karcher Rd and between Franklin Rd. and 11th Ave. It is located in Nampa, Canyon County. The southern section of the project begins on Karcher Rd. and extends northeast between McDonagh Park and the railroad. The northern section of the project begins by connecting to the existing Grimes Pathway in Sunset Oaks Park and extends north to Birch Ln							
22154	I 84, USTICK RD & MIDDLETON RD OVERPASSES, CANYON C	3	2020	State Funded Program	STATE OF IDAHO (ITD)	Development	4,482,574.07
Rebuild Middleton Rd. and Ustick Rd. overpasses at I-84 in Canyon Co. This project is part of the GARVEE project to expand I-84 from the City of Nampa to the City of Caldwell (Key Number 20351).							
22180	LOCAL, BICYCLE AND PEDESTRIAN DATA, COMPASS	3	2019	Federal-Aid, Local Road System	COMPASS	Project Closed	7,000.00
A Technology Transfer (T2) grant to purchase an electric cargo bicycle with special equipment (video camera and phone-based measurement tools) to collect pavement conditions on pathways and bicycle lanes to supplement maintenance data for these systems.							
22258	US 20, D3 CULVERT REPAIR	3	2021	State Funded Program	STATE OF IDAHO (ITD)	Awarded (or equiv.)	156,933.00
This project will clean and line various culverts to preserve and maintain the roadway infrastructure.							
22460	SH 19, BVRR RRX, GREENLEAF	3	2020	Federal-Aid, State Highway System	STATE OF IDAHO (ITD)	Awarded (or equiv.)	98,200.00
This project will install cantilever gates and lights at the crossing in Greenleaf at milepost 14.24 on SH-19. The crossing# is 819698A							
22593	OFFSYS, S 4TH AVE, INDIAN CREEK BR, CALDWELL	3	2021	Federal-Aid, Local Road System	LOCAL HIGHWAY TECHNICA	Awarded (or equiv.)	2,817,772.29
Replace S 4TH AVE, INDIAN CREEK BR, CALDWELL							
22618	I 84, MIDDLETON RD OVERPASS, CANYON CO	3	2020	Federal-Aid, State Highway System	STATE OF IDAHO (ITD)	Awarded (or equiv.)	6,932,943.35
Rebuild Middleton Rd. overpass at I-84 in Canyon Co. This project is part of the GARVEE project to expand I-84 from the City of Nampa to the City of Caldwell (Key Number 20351).							
22619	I 84, USTICK RD OVERPASS, CANYON CO	3	2021	Federal-Aid, State Highway System	STATE OF IDAHO (ITD)	Awarded (or equiv.)	15,582,836.00
Rebuild Ustick Rd. overpass at I-84 in Canyon Co. This project is part of the GARVEE project to expand I-84 from the City of Nampa to the City of Caldwell (Key Number 20351).							
22665	SH 55, EAGLE RD; I 84 TO SH 44, ADA CO	3	2022	Federal-Aid, State Highway System	STATE OF IDAHO (ITD)	Awarded (or equiv.)	750,000.00
The EAGLE RD; I-84 TO SH-44 project located between the cities of Meridian and Eagle will rehabilitate the roadway to improve ride quality and extend pavement life.							

# Projects in Prior STIPs

## With No Final Voucher or Equivalent

Prior Year Projects Outside of MPO Areas

SUBJECT TO REVISION DUE TO REASONS SUCH AS FUNDING, OBLIGATION LIMITATION, PROJECT SCOPE, COST, AND POLICY/REGULATION/RULE CHANGES

Key No.	Location	Dist.	Year	Major Program	Sponsor	Project Status	Lifetime Cost
22944	LOCAL, FY22 STODDARD PATHWAY, NAMPA	3	2022	Federal-Aid, Local Road System	NAMPA	PS&E (or equiv.)	78,000.00
The Stoddard pathway (Sherman Avenue to 2nd Street South) project is an extension of the pathway adding approximately 0.3 miles to the paved trail.							
22995	LOCAL, BIKE IMPROVEMENTS, SIGNS & PVMT MARKINGS, AD	3	2021	Federal-Aid, Local Road System	ADA COUNTY HD	Project Closed	46,000.00
Create approximately five low-stress bicycle routes by adding wayfinding signs and pavement markings. These routes will maximize safety, provide connectivity, and support the bicycle as a viable transportation option for Ada County residents.							
23071	SH 45, REALIGNMENT ALTERNATIVES ANALYSIS, PEL, NAMPA	3	2021	Federal-Aid, State Highway System	NAMPA	Development	405,000.00
Complete a Planning and Environmental Linkages (PEL) review as a first step to determine possible alternatives to realign SH 45 (12th Ave South) through the city of Nampa from Sheridan Ave to 1st St South, with connections to I 84 on Northside Blvd.							
23079	I 84, TEMP WIDENING, FRANKLIN IC TO KARCHER IC, NAMPA	3	2021	State Funded Program	STATE OF IDAHO (ITD)	Awarded (or equiv.)	3,000,000.00
Reconstruct and widen eastbound and westbound shoulders on I-84 from the Franklin interchange to the Karcher interchange (MP 29.0 – 33.4) to provide sufficient pavement sections to temporarily shift traffic during the I-84 reconstruction projects.							
23081	I 84, FRANKLIN RD IC TO KARCHER IC - EAST, NAMPA	3	2022	State Funded Program	STATE OF IDAHO (ITD)	Awarded (or equiv.)	1,320,351.75
Reconstruct and widen I-84 from the MP30.84 to the Karcher/Midland interchange (MP 30.84 – 33.2). The project includes widening the existing 4-lane section (2-lanes each direction) to a 6-lane section (3-lanes each direction). This project includes replacement of the Notus Canal structure just west of Ustick.							
23270	I 84, GALLOWAY ROAD UNDERPASS REPAIR	3	2021	State Funded Program	STATE OF IDAHO (ITD)	Awarded (or equiv.)	500,000.00
On February 26, 2021, a commercial vehicle hauling a piece of equipment struck the girders over the westbound lanes. This incident damaged four of the girders. ITD Bridge Inspection has examined the structure and has determined that one of the girders must be completely replaced.							
23389	SMA-9833, N MILWAUKEE ST BVRR RRX 906394X, BOISE	3	2022	State Funded Program	RAILROADS	Awarded (or equiv.)	7,000.00
Complete resurface: concrete planking, ballast, ties, rails. Split cost with RR.							

## **APPENDIX E: LIST OF PROJECTS**

Provides a detailed list of projects that are funded with federal or state funds, or considered "regionally significant," no matter the funding source.

All projects contained in the TIP are sorted alphabetically by the project name using a 2% inflation factor for construction projects (projects are noted if inflation is used).

# FY2023-2029 Regional Transportation Improvement Program

## Detailed Project List (All Values in Thousands of Dollars)

All costs in year-of-expenditure dollars

### 10th Avenue ITS and Overlay, Caldwell

Regionally Significant: ☐ ☒ Inflated

Key #: 13905

Requesting Agency: City of Caldwell

Project Year: 2026

Total Previous Allocations: \$268

Total Programmed Budget: \$2,748

Total Cost (Prev. + Prog.): \$3,016

#### TIP Achievement:

System Performance

NHS-LOTTR

Safety

Asset Management

#### Project Description

Overlay a half-mile section of 10th Avenue in downtown Caldwell from the railroad overpass to Interstate 84. Install intelligent transportation system (ITS) components and bring pedestrian facilities to current standards.

## Access to Opportunity, Boise and Garden City

Regionally Significant: ☐ ☒ Inflated

Key #: 23833

Requesting Agency: ACHD

Project Year: 2023

Total Previous Allocations: \$0

Total Programmed Budget: \$6,430

Total Cost (Prev. + Prog.): \$6,430

### Project Description

Plan and design 12 multimodal transportation projects in the Cities of Boise and Garden City. When constructed, the project will provide low-stress, multimodal links between a community separated by Interstate 184, US 20/26, the Bench, and the Boise River. The project includes filling sidewalk gaps, signalizing crossings, implementing Americans with Disabilities Act accessible pedestrian ramps and signals, building multiuse pathways and designated bicycle facilities, upgrading transit bus stops, and evaluating green stormwater infrastructure to prevent runoff from entering the Boise River. Construction is currently unfunded.

### Project Description

Construct a dual-lane, offset roundabout at Franklin Boulevard and Karcher Road in the City of Nampa. The project includes right-of-way, curb, gutter, sidewalk, lighting, pedestrian ramps, and lane widening. The design includes a roundabout with one entering lane eastbound and westbound, and two entering lanes northbound and southbound. The offset center of the roundabout is approximately 55 feet west and 10 feet north of the existing intersection. A power pole will be relocated on the northeast corner at project expense (power pole is in a private easement outside of the right-of-way).

### Project Description

Design and construct improvements to the Boise River Greenbelt along Cesar Chavez Road (south side of Boise River) between Theatre Lane and Broadway Avenue on the Boise State University campus. Improvements include widening the pathway from 8 feet to 12 feet and adding a well-defined landscaped buffer between the pathway and the street.

Regionally Significant: ☐ ☒ Inflated

Key #: 22101

Requesting Agency: Golden Gate HD

Project Year: 2023

Total Previous Allocations: \$98

Total Programmed Budget: \$459

Total Cost (Prev. + Prog.): \$557

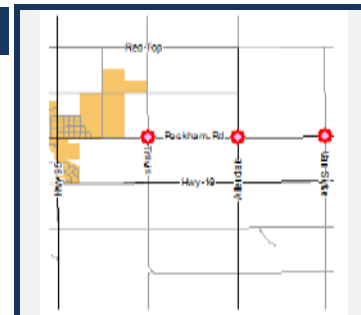

### TIP Achievement:

NHS-LOTTR

Freight Movement

System Performance

Safety

### Project Description

Reconstruct three intersections on Peckham Road at Travis Road, Allendale Road, and Van Slyke Road, between the Cities of Wilder and Greenleaf in Canyon County. Each intersection is substandard for truck turning movements. The reconstruction will provide larger turning radii to eliminate truck off-tracking and reduce edge breakup. The intersection improvements will also allow trucks to maintain their own travel lane while making turns. All construction will adhere to current Association of Canyon County Highway District (ACCHD) standards.

### Project Description

Design local and regional connections to benefit residents in the North Nampa Neighborhood. Improvements include sidewalk network expansion and modernization, shared use path construction, pedestrian pathway extension, a new pedestrian bridge, replacement of an existing vehicle and pedestrian bridge, modernization of two railroad underpasses, and a study of new transit services. The project is expected to increase safety in a high crash area and provide connections to essential services. Construction is currently unfunded.

### Project Description

Widen State Highway 55 (Karcher Road) from Farmway Road to Middleton Road in Canyon County. The project will add one travel lane in each direction to improve mobility and reduce crashes along the corridor. Work includes a continuous median traffic separation, with signalizations intersections at the each miles, and u-turn opportunities at the half-mile.

## Study, Big Data Purchase, COMPASS

Regionally Significant: ☐ ☐ Inflated

TIP Achievement:

Key # : 22394

Support

Requesting Agency: COMPASS

Project Year: 2025

Total Previous Allocations: \$0

Total Programmed Budget: \$150

Total Cost (Prev. + Prog.): \$150

### Project Description

Purchase data from vendor(s) to supplement the COMPASS Household Travel Survey data (2021) and census data. The data will be used to update the "external" trip (trip to/from the surrounding counties) rates and characteristics in the regional travel demand model; analyze non-motorized travel; and allow for review of trips, travel time, time of day, and mode to and from sub-areas (smaller than cities) in the region to help refine specific parameters in the regional model.

Requesting Agency: Valley Regional Transit

Project Year: 2023

Total Previous Allocations: \$0

Total Programmed Budget: \$10,571

Total Cost (Prev. + Prog.): \$10,571

### Project Description

Project will construct transit, pedestrian, and bicycle facilities along a six and one-half mile section of State Street (State Highway 44) from Bogart Lane to Downtown Boise in the Cities of Boise and Garden City. The project includes accessible bus stops, on-route charging, real-time bus arrival displays, ticketing machines, lighting, a multiuse pathway, wheelchair ramps and access, and bicycle and additional street crossings. The project will benefit vulnerable populations by improving transit speed and reliability, enhancing accessibility and safety at and near transit stops, and increasing the comfort and ease of non-motorized and transit travel.

## **APPENDIX F: PUBLIC COMMENTS**

Provides verbatim comments received on the project list, as well as any amendments that require a public comment period.

## Summary of Public Comments

The disposition of individual comments is with the verbatim comments in this section. Questions submitted as part of public comments were answered, and all comments were provided to the Regional Transportation Advisory Committee and the COMPASS Board of Directors. Comments related to specific projects or studies were also forwarded to appropriate agencies.

A public comment period was held concurrently for an amendment to *Communities in Motion 2040 2.0* (CIM 2040 2.0), an amendment to the FY2022-2028 Regional Transportation Improvement Program (TIP) and the Draft FY2023-2029 Regional Transportation Improvement Program (TIP) **August 15 – September 13, 2022**. COMPASS received 28 comments related to the draft FY2023-2029 TIP and 10 to the air quality conformity demonstration.

No changes were made to the FY2023-2029 TIP project list, or the air quality conformity demonstration based on comments received; however, one comment triggered further review of public transit funding by Valley Regional Transit which could result in a future modification of funding for Treasure Valley Transit's operations funding.

## **Public Comments Received (Verbatim)**

### **Draft FY2023–2029 Regional Transportation Improvement Program Proposed changes to the regional long-range transportation plan, *Communities in Motion 2040 2.0*, and Air Quality Conformity Demonstration for Northern Ada County**

Public Comment Period: August 15 – September 13, 2022

Total number of individuals submitting comments: 30

<b>Comment</b> (The comments below are verbatim, as submitted by the commenter. As such, typographical errors have not been corrected.)	<b>Staff Response</b>	<b>Name, Zip Code, Affiliation</b>	<b>Format</b>
<b>Comments on projects in the DRAFT FY2023-2029 Regional Transportation Improvement Program (TIP)</b>			
Project ORN23731 (roundabout at Karcher & Northside) may be problematic as traffic volumes are too heavy. Improved signalized intersection with better signal timing would be mor functional.	Thank you for your comments; they will be shared with the COMPASS Board of Directors and the City of Nampa.	Patricia Matthews 83646	Online Comment Form
Please plan to widen Eagle Rd from Fairview to State or hwy 44 from 5 to 7 lanes and include high walls for sound at subdivisions. This is one of the most heavily traveled road in Idaho and needs to be improved for traffic flow.	Thank you for your comments; they will be shared with the COMPASS Board of Directors and the Idaho Transportation Department.	Linda Coughlin 83713	Online Comment Form
Lake Hazel widening from Cole to Orchard has been left out, but should be included. I think delaying all the Lake Hazel Road widenings and the Orchard realignment is the wrong thing to do. All of the development is happening in SW Ada County. Those living between Cloverdale and Orchard really only have two ways to access I-84 East – Victory Rd. or Lake Hazel to Orchard (or going the rural route on Hollylin, but that road isn’t designed for high volumes). Victory is not 5 lanes until almost to Cole Rd. Lake Hazel doesn’t have 5 lanes at all. Both of these corridors need to be opened up ASAP with all the construction happening on Lake Hazel west and south of Lake Hazel. Those projects should be done east to west, so that bottlenecks are not created further west – first the Orchard realignment, and then working on Lake Hazel from east to west. They need to be sooner than PD, and the Orchard realignment needs to be kept in 2024. Thank you.	Thank you for your comments; they will be shared with the COMPASS Board of Directors and the Ada County Highway District.	Marian L Herz 83709 Board Member of South Cole Neighborhood Association	Online Comment Form, Email

<b>Comment</b> (The comments below are verbatim, as submitted by the commenter. As such, typographical errors have not been corrected.)	<b>Staff Response</b>	<b>Name, Zip Code, Affiliation</b>	<b>Format</b>
<p>I make this comment from the perspective of a retired Professional Engineer. I moved to Idaho from a growing metro area (not CA) and have observed first hand some things that worked and those that did not. My comments concern Eagle Road from I-84 to Hwy 44 in Eagle. This portion of Eagle road should have been built as a limited access highway, freeway. Too late for that now but there is something that should be considered. Grade seperated intersections at major street crossings. This would eliminate stoplights for thru traffic on both Eagle and the cross street. Consider these for Franklin, Fairview, Chinden and Ustick.</p>	<p>Thank you for your comments; they will be shared with the COMPASS Board of Directors, the Idaho Transportation Department, and the Ada County Highway District.</p>	<p>John Olden PE, Retired</p>	<p>Email</p>
<p>Why aren't there Permanent Automated Counters on the Greenbelt in the Garden City portion?,+ See, "Bicycle and Pedestrian, Permanent Automated Counters, Boise, COMPASS 23313 2026 \$8"</p>	<p>Thank you for your comments; they will be shared with the COMPASS Board of Directors and City of Garden City.</p> <p>The automated counter that is budgeted for "Boise" refers to the "Boise Urbanized Area," which includes the City of Garden City. The specific location for this future counter within the Boise Urbanized Area has not been selected and will be recommended by COMPASS' Active Transportation Workgroup based on qualities such as safety concerns, geographic feasibility, facility condition, and more. Two of COMPASS' 16 current permanent bicycle/pedestrian counters are located in Garden City -- near the Greenbelt near Glenwood Bridge and at the border of the City of Eagle and Garden City. A map of counter locations can be found on the COMPASS website: <a href="http://www.compassidaho.org/documents/prodserv/CIM2040_20/bikeped/COMPASSPermanentCounterLocations.pdf">www.compassidaho.org/documents/prodserv/CIM2040_20/bikeped/COMPASSPermanentCounterLocations.pdf</a>.</p>	<p>83714</p>	<p>Online Comment Form</p>
<p>Key# 23188 I-84 interchange SH44 This interchange can be combined with I-84 to SH20 west to Parma. Exits 26 &amp; 25. Please just straighten SH20 to meet SH44 by extending SH44 through Farmway Rd and Wagner Rd and install one single stoplight interchange. People can then exit I84 and head west to Parma or East to Middleton, and we've eliminated the cost of two interchanges that are too old, too small, and already don't work. It's a no-brainer. Please fast track widening SH44 from I84 to SH16. Star and Middleton can't take any more traffic with only a 2 lane road. It's ridiculous. You're also behind widening SH20 (Chinden) from SH16 to I84. I wouldn't spend anything on extending SH16 to I84 until those are completed.</p>	<p>Thank you for your comments; they will be shared with the COMPASS Board of Directors and the Idaho Transportation Department.</p>	<p>Greg Priest 83644</p>	<p>Online Comment Form</p>

<b>Comment</b> (The comments below are verbatim, as submitted by the commenter. As such, typographical errors have not been corrected.)	<b>Staff Response</b>	<b>Name, Zip Code, Affiliation</b>	<b>Format</b>
I strongly support the round-about construction shown in your plans for the Centennial and Simplot Blvd intersection in Caldwell.	Thank you for your comments; they will be shared with the COMPASS Board of Directors and the City of Caldwell.	83644	Online Comment Form
I understand the need to improve bridges and roads in Ada and Canyon counties. However, I am very disappointed and frustrated to see the vast percentage of my tax dollars going to expand the road network rather than addressing the primary issue (too many cars on the road with little to no discussion of light rail or other mass transit options). Building more roads or widening existing roads only solves safety and congestion problems in the short-term. After 2029, will we continue with the status quo of expanding our current transportation infrastructure or think about new ways to move people across the Treasure Valley. Ways that cause less environmental harm and are more cost-effective.	Thank you for your comments; they will be shared with the COMPASS Board of Directors and Valley Regional Transit.	83702	Online Comment Form
Limit low-rise development – Million dollar condos that increase density are not culturally a fit for Harris Ranch nor Boise. Add a light at exec estates and Warm Springs. Build two-story low-income housing – not luxury condos.	Thank you for your comments; they will be shared with the COMPASS Board of Directors and the City of Boise.	NA	Hard Copy Comment Form
I would like to see lite rail or commuter rail prioritized for funding, planning, construction, and prioritization as a corridor need for massive improvements to the transportation network between Caldwell and Boise with all communities in between benefitting. It would also coincide well with bringing Amtrak back through Boise linking Boise and adjacent communities to Seattle, Portland, Denver, Salt Lake City, and the remaining network of national cities on existing Amtrak service. Finally, I want to state that our Idaho legislature could make local taxing authority available to local voters, thereby bringing government control back to local citizens. This, to me, is what conservative values are about. Allowing local citizens to control what impacts their lives most directly through local control as opposed to being held hostage by larger government entities. Such measures would allow a modest local sales tax option to drastically improve economic activity by connecting communities through a low fare commuter rail service while relieving traffic congestion on the I-84 corridor, establishing a multiplier in economic activity through massive population growth.	Thank you for your comments; they will be shared with the COMPASS Board of Directors and Valley Regional Transit.	83702	Online Comment Form
I think that this is great 👍 there's more genuine transparency than in the past and it's a lot more conducive to the alternative transportation crowd and as a bus rider who doesn't drive I like that	Thank you for your comments; they will be shared with the COMPASS Board of Directors.	Ian James Bott 83702	Online Comment Form
My only comment is that the widening projects on State Street include "pullouts" for the busses to use when loading or unloading passengers.	Thank you for your comments; they will be shared with the COMPASS Board of Directors, Ada County Highway District, Valley Regional transit, and the City of Boise.	Mac McOmber	Email

<b>Comment</b> (The comments below are verbatim, as submitted by the commenter. As such, typographical errors have not been corrected.)	<b>Staff Response</b>	<b>Name, Zip Code, Affiliation</b>	<b>Format</b>
<p>For many years Nampa has sealed coated the many roads with tar and gravel. They do it every year and never really fix the underlying bumps and uneven pavement underneath. I would like to see them tear up the roads and completely replace them with fresh blacktop. Especially Midland Blvd. The state has done that on 12th ave all the way South to the city limits. There are several othe roads in the same condition as Midland.</p> <p>***</p> <p>We live in the Islands Complex and this is in the city limits of Nampa. Our streets though out our complex are getting bad. Especially in the main entrance by the park with the little pond. Big chuck holes develop every year. All they do is put temporary patches on them. Our street Caymen Ct has many cracks on it. They have sealed the cracks with tar three years ago. I think many of these roads could use a recoating of asphalt.</p>	<p>Thank you for your comments; they will be shared with the COMPASS Board of Directors and the City of Nampa.</p>	<p>Jim Quick</p>	<p>Email</p>
<p>I am very happy to see that the "Garden Street Multi-Use Pathway, Cassia Park to Albion Street" is listed on the TIP. People who live on the Bench have been requesting this project for many decades. This pathway will provide a continuous connection from the Bench to the Greenbelt for pedestrians and bicyclists. I appreciate the "Pathway, Rail with Trail, in Meridian" from Linder to Meridian Road. I would like to see this pathway continue along that rail corridor. I fully support the "Study, Chinden Drainage and Design Plan in Garden City". It is my hope that there will be sidewalks and protected bicycle lanes built along Chinden as a result of this study. These pedestrian and bicycle facilities will provide connectivity from the Bench to the Greenbelt and to businesses and neighborhoods located along and in the area of Chinden Boulevard. I support the "Study, Coordinate Local Waterway-Pathway Plans, COMPASS". Many of the cities in Ada and Canyon County have been working with irrigation districts to build pathways along canals. These pathways need to be established throughout Ada/Canyon County. These pathways will provide safe connectivity to neighborhoods, businesses, schools, etc. I fully support all of the Valley Regional Transit projects. Especially the VRT projects in Canyon County. I support the "Access to Opportunity" projects. I realize that the Requesting Agency is ACHD and that Chinden Boulevard is ITD property, but I am extremely disappointed to see that Chinden in Garden City isn't list on the TIP. The pedestrian/bicycle facilities and crossings on Chinden are subpar and need to be GREATLY improved. It is my hope that after the "Study, Chinden Drainage and Design Plan" are completed, there will be safe and appropriate pedestrian/bicycle facilities designed and built on Chinden.</p>	<p>Thank you for your comments; they will be shared with the COMPASS Board of Directors, the City of Boise, the City of Garden City, the City of Meridian, Valley Regional Transit, Ada County Highway District, and the Idaho Transportation Department.</p>	<p>83703</p>	<p>Online Comment Form</p>

<b>Comment</b> (The comments below are verbatim, as submitted by the commenter. As such, typographical errors have not been corrected.)	<b>Staff Response</b>	<b>Name, Zip Code, Affiliation</b>	<b>Format</b>
By pass around Star and Middleton with Hwy 44. Not an option, has to happen. It will happen now or in the future. Do it now! It will cost twice + as much in 10, 15, 20 years, plus the traffic backup and congestion at the traffic lights will not improve the flow of traffic with multiple stop n' go. Thank you for your consideration.	Thank you for your comments; they will be shared with the COMPASS Board of Directors, the Idaho Transportation Department, the City of Middleton, and the City of Star.	83669	Email
Franklin Rd, Black Cat to McDermott, again, this is a project associated with Hyw 16 connections. There have been no monies received by ACHD to do any of this. Where's the concern from Compass? This oproject should NOT go forward without those funds.	Thank you for your comments; they will be shared with the COMPASS Board of Directors and the Ada County Highway District.  The Franklin Road project referenced is funded with local funding (Key Number 102497). COMPASS has not received a funding application for any of COMPASS' funding programs from ACHD for this project.	83642	Online Comment Form
Support more sidewalks in Boise & Garden City. Need more places to cross on Chinden. See people running across by JD's Car Cleaning & the Nursery. Support the bike counter to help collect better data Yes to all the projects to increase the number of vans for Commuter Ride in Boise and Nampa & increase marketing. Yes to security cameras. Yes to more sidewalks & bike lanes on Fairview, Locust Grove. Yes to sidewalks on the Five Mile Overpass, please make wider, it is scary to ride there.	Thank you for your comments; they will be shared with the COMPASS Board of Directors, the City of Boise, the City of Garden City, the City of Meridian, Ada County Highway District, and the Idaho Transportation Department. You only have a few years left to utilize the last remaining un-developed transportation corridor in the valley - the existing train line. Developing this space into twin tracks, with stations for parking and stops all along the line - from Caldwell to Mountain home. It passes through all of the employee-rich enclaves; Walmart, Downtown Nampa, Lukes, Alphonsus Garrity, Amalgamated Sugar, the Ford Center, Amazon, Town Square Mall, Alphonsus Curtis, the Depot (with downtown shuttles every 15 minutes to city center and Lukes), and on to Micron (with 17,000 new jobs). Light rail is the only way to solve the issue of getting people moved efficiently through a city that never planned for growth like this. If it's not planned for now, we will loose the chance forever. Please visit ANY similar to small sized city in Europe, Japan, of SE Asia and see just how simple, clean, and efficient mass transit can be.	Thank you for your comments; they will be shared with the COMPASS Board of Directors, the City of Boise, the City of Nampa, the City of Meridian, and Valley Regional Transit. <p>southern Boise area. There must be more thinking out of the box and have facilities ready for the next 40,000 to 60, 000 new residents and children. A new southern Boise HS is already 5 years behind with all of the new homes! The current JH and grade schools are at max now! A 50-year plan for underground pneumatic materials transport must be given more thought. The freeway and main side streets are at near max now. What will it be like in 50 years? South Side Medical hospitals must be proposed and built to facilitate the treatment of the 50,000 or more new south side retired families. In 50 years there will not be any land between South Boise , Kuna and South Meridian. Land must be purchased in the next 5 years for new grade schools, JH. , HS , police and fire offices. Or the greedy land developers will have it all tied up! Because of the traffic on Victory - the west part of it needs to be turned into a 5 lane to Nampa. Amity east needs and overpass built over the water canal to Cole, this will help release the congestion on the poorly designed east Victory</p>			
<p>We've been told that there will be a re-alignment of Duncan and Ulmer Ln on State Street + traffic light. In addition to Boise City making State Street a major public transportation corridor by building multiple apartments up and down state street, we are now seeing Foothills Church as a host to private school during the weekdays. The Duncan intersection and Ulmer intersection are getting more and more use with no attention from ITD. I see no plan in this proposal for such a project. Why?</p> <p><b>See Master Street Map attached at end of document (page 24)***</b></p>	<p>Thank you for your comments; they will be shared with the COMPASS Board of Directors and the Idaho Transportation Department.</p> <p><b>According to ITD and ACHD:</b> ACHD and Boise City are requiring the property on the north side of State Highway 44 and Ulmer to realign Duncan Lane to create a 4-leg intersection at Ulmer associated with a development application. See Master Street Map attached. The developer is also required to signalize the 4-leg intersection, with financial participation from ACHD and ITD. Timing of the improvements is dependent on the developer's plan for the project.</p>	<p>Suzanne Webster</p>	<p>Email</p>
<p>The Draft TIP includes plans to add an extra "free running" right turn lane on Karcher Road between the Freeway and Middleton Road. Such an expansion will likely be very expensive and probably won't help traffic very much. I think a complete redesign of the freeway interchange and surrounding intersections needs to be considered. There are too many bottlenecks around that interchange. There are five traffic lights along Karcher/Midland in less than 1 mile. (N Cassia St, Nampa-Caldwell Blvd, Freeway ramps, Karcher Bypass/Freeway ramps, and N Marketplace Blvd) It is very common for traffic at one light to back up past the previous light. It is also very common for traffic exiting the East-bound freeway to head South and then force their way across the lanes of traffic to make a left turn onto the Nampa-Caldwell Blvd</p>	<p>Thank you for your comments; they will be shared with the COMPASS Board of Directors, the City of Nampa, and the Idaho Transportation Department.</p>	<p>83607</p>	<p>Online Comment Form</p>

<b>Comment</b> (The comments below are verbatim, as submitted by the commenter. As such, typographical errors have not been corrected.)	<b>Staff Response</b>	<b>Name, Zip Code, Affiliation</b>	<b>Format</b>
(East-bound). Adding another South-bound lane on Karcher will only make that problem worse by adding more lanes for the traffic to cross. In fact, a lot of back-up happen because South-bound drivers who want to turn left (East-bound) onto the Nampa-Caldwell Blvd wait in line because they can't reach the entrance to the left-turn lanes, which are frequently not full. Those left turn lanes need to be lengthened so that more cars can turn into them before getting stuck behind the through traffic. Any plans for the Karcher interchange that don't reduce the number of traffic lights or find better paths to avoid competing traffic will only be a patch that will need to be replaced as soon as it's finished.			
East Ada County has only 2 projects listed. The Mores Creek bridge on Hwy 21 (MM 17.1) has already been repaired. It is time for it to be replaced before there is a catastrophic failure. With the population growth in the Harris Ranch area, the junction of Warm Springs and Hwy. 21 needs to be addressed. With Micron building a facility, the Hwy. 21 bridge over the Boise River within the Boise city limits needs to be widened to 4 lanes with bicycle/pedestrian pathways on both sides of the roadway. Improve existing bicycle/pedestrian pathway North and East along Hwy. 21 and the Boise River, and extend from Sandy Point to Hilltop.	Thank you for your comments; they will be shared with the COMPASS Board of Directors, the City of Boise, and the Idaho Transportation Department.	83631	Online Comment Form
The projects that improve bike and pedestrian infrastructure is a welcome addition to Boise. Boise really needs better streets that protect allow pedestrians to have the right of way when the street is a minor road. <a href="https://www.youtube.com/watch?v=_ByEBjf9ktY">https://www.youtube.com/watch?v=_ByEBjf9ktY</a>	Thank you for your comments; they will be shared with the COMPASS Board of Directors, the City of Boise, and Ada County Highway District. <p>Nampa Area, Key# 20043 FY23-27 Programmed Cost \$1,680. On page 78 of 98 funding source FTA 5307 SU, Transit Operations the funding allocations are separated into 5 one year allocations. FY23 shows Federal Share at \$240,000 for a total program cost of \$480,000. FY24-27 show a decreased amount of the Federal Share to be reduced to \$150,000 annually and program total at \$300,000. VRT staff noted that this was a baseline amount and could be amended annually. TVT would like to state that the baseline amount should be a minimum of the FY23 amount of \$240,000 for FY24-27. TVT believes that this is not an accurate reflection of our current services moving forward and wants this noted in the public comment. In addition, on page 4 of the Major Change List under Public Transportation, New FTA 5307 Key# 20043, Added FY27 shows the total programmed cost at \$300,000 and should reflect the minimum \$480,000 as noted above.</p>			
<p>Key # : 23437 This project is not properly researched or funded. ITD used money to design the project. At the first open house an engineer with ITD when asked why this wasn't being designed for high capacity ( SPUI), he said cost and that they were worried about merging. Fact that out of 5 interchanges between Garrity and 10th only one was design for high capacity and that Garrity is a joke and needs more updates and Karcher is going on the 4th update is proof of the improper funding and design. The engineers that don't live out here are worrying about merging when all we gain is 1 second or 100ft with their design. Their design also does not reflect any growth. At 5 pm yesterday both lanes going to the interchange were filled. There is only room for 5 cars in a turn lane to enter that proposed east bound onramp or it will block an intersection at E Freeport. This interchange will turn out to be just like Karcher which has always been a joke based on poor research and when it happens here ITD will throw us under the bus and constantly do upgrades. A SPUI design will allow for more lanes to be used as part of the on ramp plus a flying right turn. This should be turned into a SPUI but ITD will refuse because they dont want to spend the money on Canyon County Projects, and the mayor of Caldwell should be ashamed to accept this poor design in an effort to get any funding show he lacks the leadership to hold his office.</p> <p>****</p> <p>The design of 10<sup>th</sup> street off ramp is short sighted and based on lower end of projections. The 5 design is no different then the poor design at Karcher that has need more than 3 updates in less than 30 years. Flip these projects and do the proper resend and design for later not shorter at 10 ave.</p>	<p>Thank you for your comments; they will be shared with the COMPASS Board of Directors, the City of Caldwell, and the Idaho Transportation Department.</p>	<p>Craig Allison 83607</p>	<p>Online Comment Form, Hard Copy Comment Form, Letter</p>

<b>****</b> <b>See attached letter at end of document (page 20-23)</b>			
<p>Hi! I went to the library and saw a flier about feedback. Apparently today is the last day? Well, I wanted to let you know that I don't want any more roundabouts, especially two-lane ones. They're way too confusing, I had an accident on one because of that confusion, and I've tried to avoid them ever since, but they keep popping up everywhere on my routes (I go out of my way now to get to my destination just so I don't have to use them) and guess what? They're still confusing. I had a cop tell me that the intersection where my accident was has had at least one every day since they put in the two lanes and he, bless his soul, spent the next 30 minutes explaining it to me. I never did really understand and eventually I just had to let the guy go back to his job. I get that people think they're safer, I don't care. How safe is it when people are getting confused? Someone said we'd get used to them, and I thought I had, but... you know... the dent and smashed-in light in my car says otherwise. Oh, and I think it's great that you all reach out, but the reading material you had there on the library table wasn't really helpful in understanding what's going on. People just don't want to take the time to figure it out so if it's not plain, we won't read it. I tried and decided the value was in letting you know how I feel about two-lane roundabouts. Your other projects? I have no idea what's going on. But please... no more two-lane roundabouts. So, I've said my piece. I doubt you'll really listen, but at least I commented. Thank you for your time.</p>	<p>Thank you for your comments; they will be shared with the COMPASS Board of Directors.</p>	<p>Kat</p>	<p>Email</p>

<b>Comments on changes to <i>Communities in Motion 2040 2.0</i></b>			
I think delaying all the Lake Hazel Road widenings and the Orchard realignment is the wrong thing to do. All of the development is happening in SW Ada County. Those living between Cloverdale and Orchard really only have two ways to access I-84 East – Victory Rd. or Lake Hazel to Orchard (or going the rural route on Hollylin, but that road isn't designed for high volumes). Victory is not 5 lanes until almost to Cole Rd. Lake Hazel doesn't have 5 lanes at all. Both of these corridors need to be opened up ASAP with all the construction happening on Lake Hazel west, and south of Lake Hazel. Those projects should be done east to west, so that bottlenecks are not created further west – first the Orchard realignment, and then working on Lake Hazel from east to west. They need to be sooner than PD, and the Orchard realignment needs to be kept in 2024. Thank you.	Thank you for your comments; they will be shared with the COMPASS Board of Directors and Ada County Highway District. <p>Insist that the funding approved for the connections to Hwy 16 be released to ACHD immediately. Without these funds, there is virtually NO WAY that those connections will be completed.</p>	<p>Thank you for your comments; they will be shared with the COMPASS Board of Directors, the Idaho Transportation Department, and Ada County Highway District.</p>	<p>83642</p>	<p>Online Comment Form</p>
<p>For the Five Mile Road – I-84 Overpass Construction project, they have explained there is not enough space to allow an on-ramp to the highway because cars have to be given a certain amount of space to get up to speed. However, is there enough room to put in an OFF-ramp? There are several places in Northern VA where you can get OFF but not on to the highway. At least it alleviates some traffic.</p>	<p>Thank you for your comments; they will be shared with the COMPASS Board of Directors and the Idaho Transportation Department.</p> <p>An interchange at Five Mile Road was contemplated when I-184 (the Connector) was being planned in the 1990s. Working with the City of Boise and the Ada County Highway District, a decision was made by the Idaho Transportation to build an interchange at Eagle Road instead of Five Mile Road. The area built up with that exclusion in mind and constructing one now would violate the best safety practice of interchanges being two miles away from each other (Five Mile Road is less than two miles from the Flying Wye), require many homes to be relocated, and be prohibitively expensive.</p>	<p>83709</p>	<p>Online Comment Form</p>

KN22715 SH55 Karcher Rd, Farmway to Middleton. Why is KN23437 I-84 Centennial Interchange to Franklin prioritized for 2023 ahead of KN22715, bumping it to 2027? Karcher Rd. already has congestion that backs up ½ mile to ¾ mile. The initial research was done back in 2011-2013. So by the time you complete this project, the initial research is 20 years old and its congestion will be completely unmanageable. Why move that behind the 10 <sup>th</sup> street offramp with a poor design.	Thank you for your comments; they will be shared with the COMPASS Board of Directors and the Idaho transportation Department.  <b>According to ITD:</b> State Highway 55 construction for Farmway to Middleton Road is being funded in 2024. ITD is currently working on final design plans for this project. The SH-55 corridor design and construction was accelerated from 2027 with the last ITIP update. SH-55 was designated as a priority corridor under the Leading Idaho Transportation Expansion and Congestion Mitigation program, so the design is being advanced, followed by construction. ITD will begin designing SH-55 Pear to Farmway in 2023.  The I-84 Centennial Way to Franklin Road project is also moving forward with final design plans and funded for construction in 2023.	Craig Allison	Hard Copy Comment Form
Yes to all the proposed projects. Please add sidewalks on the bridge over I-84 on Emerald going to Cole. The sidewalk stops at the bridge and many people ride/walk on that bridge. Excited for the State St. Premium Corridor project. SH-55 (Karcher Road), 10th Avenue to Middleton Road, Construction, Canyon, Key No.- 23184. I am concerned that the project listed above is moving too quickly for consideration to be given to the concept of including a pedestrian and bicycle pathway tunnel under HY 55 somewhere between Montana Ave. and 10th Ave in Caldwell. As you know the funding for this project has been accelerated in that a 3-year project is now a potential 18-month project. This does not allow sufficient time for the City of Caldwell to apply for a grant to fund the concept. A tunnel under the new HY 55 is justified: (1) that stretch of highway is the most dangerous in Idaho, (2) a	Thank you for your comments; they will be shared with the COMPASS Board of Directors, the City of Caldwell, and the Idaho Transportation Department. <p>pathway plan improving access to Deer Flat National Wildlife Refuge and the surrounding communities was incorporated in the <i>Lake Lowell Area Bicycle and Pedestrian Access Plan: Bicycle and Pedestrian Network Plan</i> published in 2016, and (3) a pathway to Lake Lowell is incorporated in the master plan for the Caldwell Pathways and Bike Route Committee. In 2016 major improvements to HY55 were not under consideration and therefore planning for safely crossing a major 5-lane highway was not feasible. This concept was presented to ITD in response for comments for this section of the project in January of 2022. At that time ITD did not want to address the concept for it had never occurred to them that there was a need. Also, the environmental studies were almost completed and ITD did not want to reopen them and the land near Montana Ave. has historic status because of the Seven-day Adventist School and property. Since January the City of Caldwell and the Seventh Day Adventist Church have negotiated an agreement for the development of a pathway along the west side of the Seventh Day Adventist property on the north side of the new HY55 and possibly along an irrigation ditch on the south side of the new HY55. The City has also been negotiating with a developer that has property on the north and south sides of HY55 to incorporate a pathway in their developments. Such a pathway would end at Mallard Park on 10th Ave and then pedestrians and bikers could connect to the pathways surrounding Lake Lowell as proposed in the document listed above. ITD has recently consider the concept of a tunnel under HY55 if it were limited to the right-of-way of the new highway and Caldwell would be responsible the pathway connections for both the north-south pathway connecting to Lake Lowell and to the pathways parallel to the new highway that would within the right-of-ways. An important aspect of this tunnel concept is funding. With the condensed time line for the HY55 project there is not time to pursue a normal project grant for the tunnel; therefore, if Compass is aware of means to apply for an</p>

State Highway 16 – Interstate 84 to US 20/26 (Chinden Boulevard) This project should not be being done until all the safety and congested projects are done. ITD has full legal authority to request legislative changes. Karcher RD. by ITD's own admissions is one of the worst sections in Idaho. ITD has blocked an entrance to a subdivision because there is no turn lane to it and traffic backs up and causes accidents. The mayor of Nampa should be ashamed to put HWY 16 ahead of the HWY 55 project just to placate REP Mike Moyle and the Governor just because they are too lazy to drive 1 mile from HWY 16 on a 4-lane road to ten mile and then up to I 84. There is no congestion on those roads. Stand up Mayor Kling to Rep Moyle pork project. This money was for congestion and safety not to placate laziness. This road is not needed until Ten Mile starts to get congested. This isn't even making a dent into Garrity because no truck driver is going to pass that exit just to take this new one and back track. Plus, the vast majority of traffic goes South off of Garrity not North. If you wanted to make a dent, then you should have forced them to put a South bound exit leading to Flamingo so they can gain access to Robinson RD. That would actually help if you would take 10 seconds to look at a map	Thank you for your comments; they will be shared with the COMPASS Board of Directors, the City of Nampa, and the Idaho Transportation Department. to reduce emissions from it before we tackle anything like this in my opinion			
I support any improvements that can be made for public transit. I was glad to see the various Valley Regional Transit service improvements listed in the document. By providing stellar public transit, fewer people will drive and more people will use public transit. Thereby, helping to improve the air quality in Ada/Canyon County.	Thank you for your comments; they will be shared with the COMPASS Board of Directors and Valley Regional Transit.	83703	Online Comment Form
Looks fine with the possible increasing [pollutants caused by the elimination of emission testing (the data to support this elimination is suspect at the very least). It's easier to determine the attainment levels of northern Ada County as it has always shown lower CO emissions.	Thank you for your comments; they will be shared with the COMPASS Board of Directors.	83642	Online Comment Form
I don't understand why norther Ada County needs an air quality conformity demonstration project because of deteriorating air quality (thank you, Boise's rampant growth and development) while, at the same time, the Idaho Legislative is proposing to do away with the vehicle emissions testing requirement in Ada County. Are all government "in sync" on this issue or are governments in Idaho sending mixed messages to the public?	Thank you for your comments; they will be shared with the COMPASS Board of Directors.  The requirement for the air quality conformity demonstration and the requirement for vehicle emissions testing both stemmed from violation of the carbon monoxide (CO) ambient air quality standard that occurred in northern Ada County in the mid-1980s. Ada County has not had a CO violation of the standard since the mid-1990s. Data collected by the Idaho Department of Environmental Quality (DEQ) indicates that the benefits of the emission testing program have declined in recent years because newer vehicles on the roads meet tougher emissions standards. DEQ does not believe any negative impacts will occur to air quality and public health because of removal of the emissions testing requirement. The Legislature took its action on emission testing based on this data collected by DEQ, and at this time, the federal and local governments are also expected to remove their requirements in 2023. Air quality and the impact of travel patterns and congestion remain important considerations when planning transportation projects.	NA	Hard Copy Comment Form

as usual, saw nothing to improve SW Boise. poor planning in this area. they expect you to walk on sidewalks just feet away from cars driving 40+ mph. does not feel safe nor enjoyable thus people drive.	Thank you for your comments; they will be shared with the COMPASS Board of Directors, the City of Boise, and Ada County Highway District.	83709	Online Comment Form
No comments. I'm grateful for the Garden City area RAISE grant being approved and look forward to many improvements in that area.	Thank you for your comments; they will be shared with the COMPASS Board of Directors, the City of Garden City, and Ada County Highway District.	83642	Online Comment Form
(1). Bicycle and Ped Bridge KN20841 – (2). Please add a bike path from Colchester to Two Rivers Dr. (This would connect our community – Banberry Meadow has 50+ bike riders that want access to the greenbelt). (or) a bike lane on Colchester (westside) to cross Eagle Rd. (3). A bus that goes down Eagle Rd. to Eagle Downtown and the Village (the loop).	Thank you for your comments; they will be shared with the COMPASS Board of Directors, the City of Eagle, and Valley Regional Transit.	NA	Hard Copy Comment Form
Work with VRT to have covered bus stands at all locations. Make waiting for a bus more comfortable. Do you wait for a bus unsheltered when the weather is bad? Also need trash cans at bus stands so trash doesn't go into the streets.	Thank you for your comments; they will be shared with the COMPASS Board of Directors and Valley Regional Transit. ## Comments on the draft FY 2023-2029 Regional Transportation Improvement Program

My comment is that there is a great need for an intermediate Interchange midway between the urban four mile stretch between the Cole Road interchanges and the Eagle Road Interchange.

Very few urban areas have such a four-mile distance between interchanges. Certainly, that significant distance is not the case through the rest of Boise and to west of Nampa.

That interchange must have the east bound on ramp (if built) be limited so no on bound traffic can do immediate left lane changes to use the I-184 downtown connector. However there still would be a significant benefit to have the potential east on bound traffic still be able to go east toward Micron and other east points. (Relative potential I-184 users would continue to use their current routes.)

It would be most wise to review the scheduled rebuilding of the Five Mile overpass so a provision would be provided to add interchange ramps now or in the future.

The current high-use hours has tremendous congestion at the Eagle Road interchange and at freeway entrances on the two Cole Road Interchanges. Those problems will become worse as more west Boise infill takes place and the large number of residents of Southwest Boise struggle to gain freeway access. These will increase as South Coverdale Road is expanded to a "built out" five lane road just south of Overland Road.

The potential Five Mile Interchange was first studied in 1981 by IDT when the Eagle Road location was subsequently picked as a first location. Forty years later the next phase appears as much overdue.

The mayors of Meridian have encouraged the development of intermediate interchanges in their impacted areas with lots of resulting growth and lessor congestion. It is suggested that this also be the position of the mayor and staff in Boise and relative ACHD leaders.

I write these comments as a public service from many decades of observation and of now seeing the great unmet needs of West Boise and of Southwest Boise.

Sincerely,

Ralph Mellin

Past Idaho Registered Civil Engineer

To the Leaders of Compass; Key # 23336

Once again we have poor research and failure on ITD's part to address all problems regarding Karcher interchange. To justify not making any of these changes they used data from 2018. Really, if that data was so solid we would have had the additional off ramp lane included in the initial construction. The lane would not have to be added later. This actually pains me at the disrespect that ITD this has shown towards myself as a veteran that they are unwilling to address these issues because they just don't want to spend the money and used junk data to justify the lack of resources offered. They downplay everything since they don't live out here. I have personally been backed up across the bridge while trying to take my disabled mother to Oh' Crab. Were backed up because cars were trying to use the West onramp but were backed up into the left through lane because there was not enough storage. I mentioned this to one of the engineers and they blew it off like that wasn't a problem and this won't be addressed but we should have 2 turn lanes that go left onto the West onramp. This would also allow for 2 turn lanes for the East bound onramp.

Also, because of the failure to properly research and downplay the issue, cars trying to use the East bound on ramp are still slamming on their brakes, having to go further to the light, or get into accidents. This is all after they widened the interstate which should have made it easier with no back ups or slow downs. However, their poor design on Caldwell BLVD which only has one lane to use to go East bound backs up past Jalapenos Bar & Grill. So cars use the other lane which forces them to cut into the right lane forcing cars to jam on their brakes. This would have been solved if they allowed for another flying right lane like they have a Garrity. However, once again that's extra money and since they used no money for planning we got junk designs.

In fact, Board Member Delorenzo upon seeing there was excess funds after the FEDS gave us some money for widening I-84 transferred the money to pre develop HWY 16. This pre development funding is something that she would not provide for I-84 and it shows in their project planning and development. The \$10 million out of the \$19 million that was transferred could have been used during the construction and widening. Now because of their poor planning and research the widening will be complete and then we will have another project to deal with on that section of intersection. I guess Canyon County residents don't deserve a break. Also they failed to plan for an extra lane at the off ramp when they took out the old ramp they had to come back and had to add another one. Why wasn't that in the initial plan. Oh, they rushed and didn't think of it!

Why is it that the leaders from Canyon County on Compasses' Board are so neutered that they cannot stand up to this pattern of poor planning and funding while demanding onetime fix for this whole interchange? In fact according to their

website their using 4 year old data to justify the lack of updates while the current design isn't even going to work. When ITD held their last meeting, I asked how it was going to be possible for a dozen cars to enter this flying right turn while 2 full lanes are coming across from COSTCO, Sportsman Warehouse, and the rest of the businesses. All those cars coming from the freeway are going to stack at the light. Now if all of those cars are going to go through to Karcher no problem. However, that is not going to be the case. Some of those cars are going to need to get over through both those lanes to get to those 2 left turn lanes while cars in the left lane is going to need to get over through 3 lanes so they can turn right onto the BLVD all within about the length of a 1/2 of a football field. I even told this to a engineer and that I have seen cars on the current flying right turn stop in the lane waiting for a car to let them over. This engineers response was there just going to have to get over. Really, and ITD engineers says their just going to have to get over. All they want to do is get cars off the interstate no matter what and they don't care how this will impact the traffic on the interchange. ITD is more worried about possibly the 1 person walking across the bridge a day. But let me tell you that as a Transportation Officer with 18 years experience in the Army trained to route convoys and to identify routes that certain vehicles like semi-trucks will have a very tuff time getting over. They just use the lower end estimates to justify not spending the resources. Also, not going all the way down to Middleton RD is a mistake. let them have the whole length and just put up signs saying its lane ends at Middleton. This is so dumb to have it merge to 2 lanes again in front of the Wells Fargo just to turn around and add a turn lane 40ft later for the Maverick Gas Station. This is the same format they have on Eagle road and cars weave in and out of that lane all the time. I challenge you Mayor Kling or Mayor Wagoner to take these issues to ITD and ask why are these not being addressed and why they are using outdated data. I bet you there response is going to be 1 they only allotted this much money or 2 they can come back to fix it again for the 6<sup>th</sup> time. So ask them why have they not had to update any interchanges they built with the original GARVEE bounds. Answer, because they were in ADA County and they used the high end estimates to justify the expense. But once again, ITD will prove my point that they don't take our needs seriously. Actions speak louder than words.

Key #22715,23184

How disappointed am I with Compass and especially with Mayor Kling and Mayor Wagnor. Karcher is rated one of the worst sections of road in the state. ITD's lack of maintenance has led to them blocking the entrance of off Karcher to one of the subdivisions. The road that ITD blocked was Canyonview Way because they never put a turn lane in. So the taxpayers that live there now have to drive all the way around to Lake to get to there homes. Also, 2 days ago I was driving home and I was stopped just after passing the bridge where it mergers. Traffic was backed up all the way from Midway which is about 2/3 to 3/4 of a mile. What is that going to

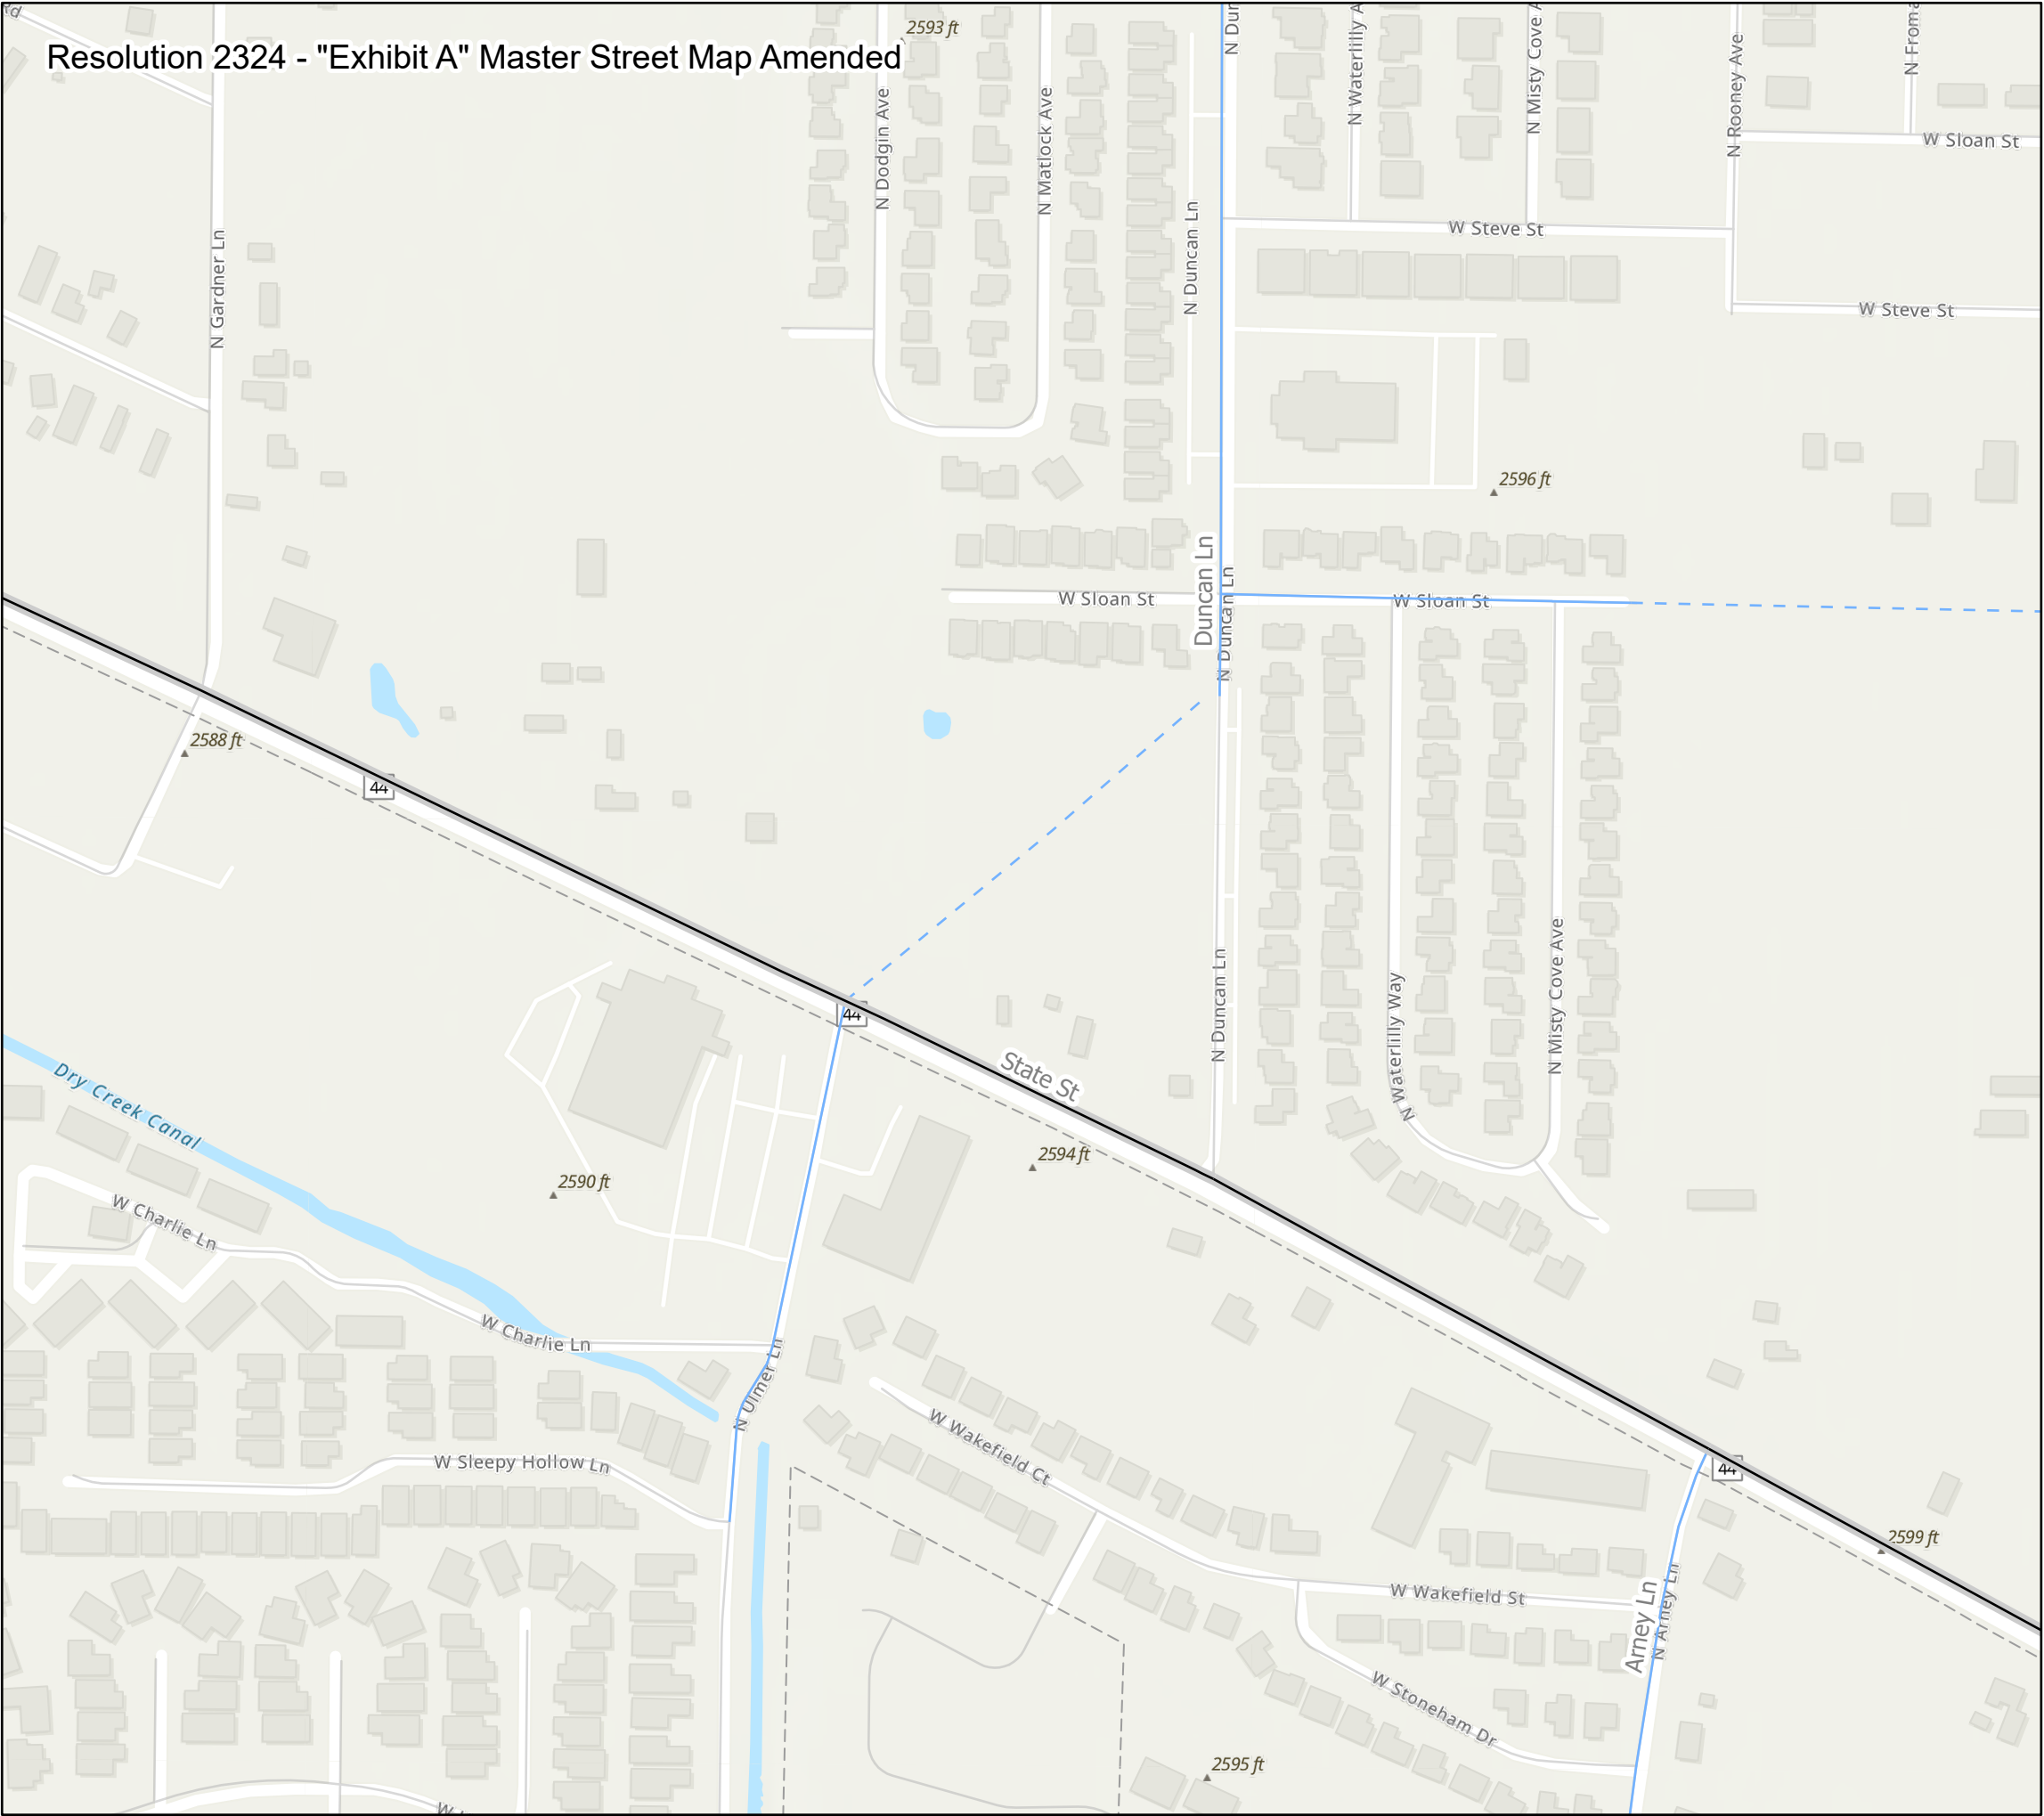

be like when we add another 3,000 cars a day in 3 short years. This project should have been moved up when ITD was allotted \$1 billion to bond for roads. So you would think this would have been a priority since its congested and has significant safety issues. But no, we get a piss poor design at 10<sup>th</sup> ave and a pork project in Bannock County. Did you all even know that. Board Member Horsch go \$110 million to redesign the intersection in Pocatello. Please note that Bannock County grew a whopping 5% over the last decade while Canyon County grew 22%. That means in the next 5 years Canyon County will have close to 277,454 while Bannock County will only have 94,329. That interchange could have lasted another 10 years with maintenance just like they did at the Notus exit. Both were build in the same time frame so ITD could have done what they have stated many times that congestion and safety was their priority but neither criteria was met on that Bannock County project. This was all politics on ITDs board.

So what are you all going to do about it. Are you Canyon County leaders going to roll over and play dead to ITD and not confront them with these issues. How are we going get this project moved up. Just think about their incompetent planning for a moment. Construction started on the freeway in 2018 and wont finish until fall of 2023 when the bridge will begin and last till 2025 or 2026. Then they will start on Karcher in 2027 which wont get done for another 3 years. So that means ITD will be doing work for over a decade that residents off of Karcher will have to deal with. You tell me anywhere in this state that residents will have to put up with that. But if you are not willing to speak up for us as your constituents we will continue to be treated as second class citizens. Priority goes ADA County, the rest of the state, and then Canyon County. You can see it in their prioritization and their funding of their projects.

Key # : ORN23544 Once again ITD refuses to identify issues when doing projects. ITD is so clueless that the Eagle west bound onramp that needs to be redone has huge issues with congestion. You have issues with traffic backing up all the way to E Franklin Road. This congestion causes problems with traffic coming-out of St Lukes at Allen St. All ITD has to do is add an inside lane to the existing ramp creating a second lane that can merge to one. What this would do is allow the right through lane to be a turn lane and a straight through lane. The only thing that would be needed is some signs to tell drivers both lanes are turn lanes so they don't try and stack. ITD just needs to move the stop light farther back about 14 feet and make it a no turn on red. This would make any vehicle in the center lane be able to go across from the West bound off ramp and go straight through. ITD would not need to buy any land. However do you think they would do it. I would doubt it because the idea didn't come from them but it would work and that speaks volumes on their character. So do I have your support to add this to the project or is this just a formality and check the box for ITD. If that's the case just be honest so I can tell my friends not to bother wasting our time since any suggestion will fall

on deaf ears. Finally, I am glade to meat with any of you to speak about these projects just give me a day of two to arrange with my employer some time off. Heck I'll gladly meet you at the corner of Karcher and Cleveland BLVD at 7 am during the week to show you the issues.

Respectfully, Craig Allison

Resolution 2324 - "Exhibit A" Master Street Map Amended

# Ada County Master Street Map Amended October 28, 2020

The Ada County Highway District (ACHD) created the Master Street Map in collaboration with Ada County and its six cities to better link land-use and transportation planning. The Master Street Map is one of the key elements of the ACHD Transportation and Land Use Integration Plan. The Master Street Map is a living document and is not binding on future Commissions.
