This project will fund the continued developments to the Idaho traveler information websites and telephone system. The expected benefits are improvements to highway safety and travel time aided by accurate and timely traveler information provided to the driver. Typical travel event information types are blocked lanes, closed highways, slick roads, high winds, low visibility, and detour routing. The information is available to the public on the internet and telephone.

The purpose of the WAQTC is to improve the quality of transportation products and services through an AASHTO R 25 compliant, comprehensive Technician Training and Qualification Program (TTQP). The TTQP program provides a cost-effective means to meet the requirements of 23 CFR 637.209 b which requires 'all sampling and testing data . . . be executed by qualified sampling and testing personnel.' WAQTC is focused in three main areas: Standardizing test methods (WAQTC, AASHTO, and ASTM), accreditation of the Transportation Technician Qualification Program (TTQP), and working together on national programs of significance including research, training, and technology deployment.
