## **New Ohio Gulch traffic signal timing adjusted to reduce congestion**

HAILEY - The Ohio Gulch traffic signal on State Highway 75 was completed and activated on April 11. Over the past several weeks, the Idaho Transportation Department has gathered data to help refine the timing plan of the signal in both directions.

Feedback provided by the community helped pinpoint specific issues drivers experienced and assisted ITD in adjusting the signal timing plan which we expect to result in a reduced wait times and less congestion on SH-75.

ITD will continue to monitor the signal and make any additional adjustments as needed.

For more information about ITD projects and traffic information check out [Idaho 511](http://Idaho511) either online, by phone, or through the app for smart devices.
