

BID PACKAGES / BID PROPOSAL FORMS

To: Idaho Transportation Department
206 N. Yellowstone Ave.
Rigby, ID 83442

Bid Due by: 8:14:59 AM
Bid Date: 03/13/2025

Bid Package #: 03
Bid Package Name: Earthwork and Utilities
FM Global #: FM62537

Submitted by: _____

In compliance with the Advertisement for Bids for construction of the **ITD D6 Salmon Maintenance Shed Addition and Modifications** and having examined the Contract Documents and Site of Proposed Work, and being familiar with all of the conditions surrounding the construction of the proposed project, including availability of materials and labor, the undersigned hereby proposes to furnish all labor, materials, supplies, equipment, supervision and insurance in accordance with the Contract documents, within the time set forth therein, and at the price stated below. This price is to cover all expenses incurred in performing the work required under the Contract documents, of which this Proposal is a part.

Bidder hereby agrees to commence work under this contract on or before a date to be specified in written "Notice to Proceed" by the Owner and substantially complete the project within the times stipulated in the enclosed construction schedule. Bidder further agrees to pay as liquidated damages the sum of \$500 for each consecutive calendar day after the established date for providing of submittals and/or sum of \$1,000 for each consecutive day after the established substantial completion date or adjusted date as established by change order as here in after.

Division 01 - General Requirements*
Section 024119 – Selective Demolition *
Division 02 – Existing Conditions
Section 072113 – Board Insulation *
Reference drawings for civil specifications

*(As applicable to this work)

Note: All Contract Documents Apply – Bidding Contractors are responsible for all pages of addendums including attachments.

Bidding Requirements: In addition to the work required in the above Sections, this bid package overview includes but is not limited to the following:

Provide labor, materials, supervision, equipment, and permitting necessary to perform all **Earthwork and Utilities** in accordance with the Bid Documents as listed above.

This Contractor is to furnish and install the following:

Sitework and Utilities:

- Clear and grub.
- All site demolition including removing existing utilities as required, all hardscape, softscape, and infrastructure as required per plans. Dispose of all demolition waste off site. (Reference

Architectural sheets for site related demolition and details in addition to civil / landscape plan sheets). Coordinate with demolition contractor for what they are responsible for demolishing.

- Supply, install and maintain all erosion, sediment and dust control BMP/SWPPP systems including stabilized construction entrance, dust control, concrete wash-out, vehicle wash-out. Once this Contractor is no longer on site, erosion and sediment control systems will be maintained and removed by CM Company.
- Retain and protect designated infrastructure, landscape and utilities as noted.
- Site grading, cut and fill where required. Prep all areas for base material installation to achieve finish grades including landscaping and hardscape areas.
- All site excavation, over-excavation and backfill. Import, place and compact all sub-base and base course materials at all asphalt paving areas, curbs, curb and gutter, concrete paving, foundations and sidewalks.
- Compaction of native materials as required.
- Pot hole for existing utilities as required including proper backfill and compaction.
- Excavation for site bollards (Supplied by others)
- Removal and export of all un-needed spoils as required.
- Dewatering for sitework / utilities as required.
- Site domestic water piping including rerouting and connections. All trenching, bedding, thrust blocking and backfill including concrete collars and vertical separations.
- Fire line excavation, bedding, backfill and compaction for all fire lines including fire riser. Provide and install all fire sprinkler pipe to first flange above finish floor. Include hot taps and connections to main water lines. This work will be overseen by the fire sprinkler contractor in accordance with state fire marshal rules. Coordinate with fire sprinkler contractor on pipe and fire riser install.
- Site storm water systems including all piping, inlets, infiltration systems, catch basins, vertical separations, and concrete collars. All excavation, trenching, bedding, and backfill.
- Sanitary sewer piping including sleeving at foundations and utility crossing as required, connections and clean outs. All trenching, bedding and backfill including vertical separations. Pipe insulation is the responsibility of this contractor.
- All force main piping, pumps, tanks, manholes, risers, and covers are the responsibility of this contractor.
- All hot taps
- Geotextile fabric as required.
- Access boxes with lids over existing distribution boxes.
- Pump and remove existing waste vault. Coordinate with plumbing contractor as required.
- Hydro-clean and flush existing sewer system prior to connection to any existing manholes.
- Grease interceptors.
- All excavation, over-excavation and backfill for building foundations and slab on grade. Import, place and compact all sub-base and base course materials. Compaction of native materials as required (Reference geotechnical report).
- Fine grading.
- Concrete washout and disposal for all site flatwork and building foundation concrete.
- Install foundation drain per plans and geotechnical report.
- Supply and install board insulation on top of new septic tank.
- All asphalt paving, patching, pavement markings and striping is the responsibility of this contractor.
- All concrete collars are the responsibility of this contractor.
- All required traffic control is the responsibility of this contractor.
- Provide and install a 30' stabilized working surface around the perimeter of the building. Remove and return to grade upon project completion.
- Provide and install a 30'x50' stabilized pad for CM Company's job trailer. Remove and return to grade upon project completion.
- Provide and install a stabilized access road into the project site. Remove and return to grade upon project completion.

- Include an allowance for 100 hours and \$5,000 in material for miscellaneous handyman work, framing, blocking, backing, nailers, etc. This may require multiple mobilizations at the discretion of the construction manager.
- Permits, submittals, site specific safety plan, daily clean-up for this contractor's work.

The scope outlined above is to be used as a reference only and should not be considered exhaustive. It is the responsibility of the bidding Contractor to review all bid documents to provide a complete and responsive bid for their trade and include all items in accordance with the plans and specifications.

General Notes:

It will be this contractor's responsibility to clean, repair, or replace to pre-construction conditions any damage to existing conditions due to this contractor's work.

This Contractor will commit to allocating sufficient quantities of manpower, material, and equipment to this project to meet the construction schedule established by the Construction Manager.

Testing and cleaning of water and sewer systems as required.

This Contractor is to provide, install, and remove any safety equipment required to perform this work.

This bid includes all warranties per specification.

This bid package does not include:

- Topsoil for landscaping areas.
- Surveying.

This contractor will adhere to and include FM Global requirements in the performance of their work. The FM number for this bid package is Earthwork and Utilities

Base Bid

Furnish and install (Including all applicable taxes, permits, labor, material, equipment, payment and performance bonds)

Base Bid: \$ _____

Written Amount:

(Amount shall be shown in both words and figures. In case of discrepancy, the amount shown in word will govern).

Bidder understands that the Owner reserves the right to reject any or all bids and to waive any informality in the bidding.

The bidder agrees that this bid shall be good and may not be withdrawn for a period of 60 calendar days after the scheduled closing time for receiving bids.

All bids must be accompanied by a Bid bond issued by a surety company authorized to issue such bonds in the State of Idaho, or a Certified Check or Bank Cashiers Check, each in an amount not less than 5% of the

total bid, made payable to the Idaho Transportation Department. The bid security of successful bidders will be held until the contract awarded has been completed, at which time it will be returned to vendor. Check bid securities of unsuccessful bidders will be returned at time of bid award. (Bid Bonds are not returned)

Upon receipt of written notice of the acceptance of this bid, Bidder will execute the formal contract attached within 5 days and deliver a Surety Bond or Bonds as required by Part A:5 "Instructions to Bidders".

The bid security attached in the amount of 5% of the bid amount is to become the property of the Owner in the event the contract and bond are not executed within the time set forth, as liquidated damages for the delay and additional expense to the Owner caused thereby.

In compliance with the Advertisement for Bids for construction of the **ITD D6 Salmon Maintenance Shed Addition and Modifications** and having examined the Contract Documents and Site of Proposed Work, and being familiar with all of the conditions surrounding the construction of the proposed project, including availability of materials and labor, the undersigned hereby proposes to furnish all labor, materials, supplies, equipment, supervision and insurance in accordance with the Contract documents, within the time set forth therein, and at the price stated below. This price is to cover all expenses incurred in performing the work required under the Contract documents, of which this Proposal is a part.

Bidder hereby agrees to commence work under this contract on or before a date to be specified in written "Notice to Proceed" by the Owner and substantially complete the project within the times stipulated in the enclosed construction schedule. Bidder further agrees to pay as liquidated damages the sum of \$500 for each consecutive calendar day after the established date for providing of submittals and/or sum of \$1,000 for each consecutive day after the established substantial completion date or adjusted date as established by change order as here in after.

Division 01 – General Requirements*

Section 036000 – Grouting
Section 051200 – Structural Steel Framing
Section 053123 – Steel Decking *
Section 055000 – Metal Fabrications
Section 055200 – Metal Railings

*(As applicable to this work)

Note: All Contract Documents Apply – Bidding Contractors are responsible for all pages of addendums including attachments.

Bidding Requirements: In addition to the work required in the above Sections, this bid package overview includes but is not limited to the following:

Provide labor, materials, supervision, and equipment to furnish and install all **Metal Fabrications** in accordance with the bid documents.

This Contractor is to furnish and install the following at all site and building locations:

- Structural steel beams and columns.
- Primer / powder coatings as specified.
- Metal bollards (Installed by others).
- Trench Drain Grates

- Trench drain / vehicle lift slab edge protection (studded angle to be installed by concrete contractor).
- Faux window fabrications at pre-engineered metal building (PEMB by others).
- Grout column bases as required.
- All threaded rods and nuts.
- Provide anchor bolts and templates for this contractor's scope of work. Anchor bolts to be installed by concrete contractor. Coordinate with concrete contractor for installation.
- Delivery, off-loading and storage.
- Steel detailers must be available for meetings during standard United States business hours.
- Permits, submittals, site specific safety plan, daily clean-up for this contractor's work.

All craning, hoisting, scaffolding, machinery, or equipment required to complete the delivery and installation of this scope is the responsibility of this Contractor.

The scope outlined above is to be used as a reference only and should not be considered exhaustive. It is the responsibility of the bidding Contractor to review all contract documents to provide a complete and responsive bid for their trade and include all items in accordance with the plans and specifications.

General Notes:

It will be this contractor's responsibility to clean, repair, or replace to pre-construction conditions any damage to existing conditions due to this contractor's work.

Immediately upon award of bid package prepare and submit shop drawings in accordance with specifications, no additional charges are to be made for waiting time, overtime hours on regular working days or occasional Saturday deliveries as required to meet construction schedule.

This Contractor will commit to allocating sufficient quantities of manpower, metal material, and equipment to this project to meet the construction schedule established by the Construction Manager. All metal work to be in accordance with specified standards. Any work not meeting required standards must be repaired and brought into compliance with the specified standards.

This Contractor will coordinate all activities with all other trades to allow for timely construction activities throughout the duration of the project.

This Contractor is to provide, install, and remove any safety equipment required to perform this work.

This bid includes all warranties per specification.

This contractor will adhere to and include FM Global requirements in the performance of their work. The FM number for this bid package is Metal Fabrications

Base Bid

Furnish and install (Including all applicable taxes, permits, labor, material, equipment, payment and performance bonds)

Base Bid: \$ _____

Written Amount:

(Amount shall be shown in both words and figures. In case of discrepancy, the amount shown in word will govern).

Bidder understands that the Owner reserves the right to reject any or all bids and to waive any informality in the bidding.

The bidder agrees that this bid shall be good and may not be withdrawn for a period of 60 calendar days after the scheduled closing time for receiving bids.

All bids must be accompanied by a Bid bond issued by a surety company authorized to issue such bonds in the State of Idaho, or a Certified Check or Bank Cashiers Check, each in an amount not less than 5% of the total bid, made payable to the Idaho Transportation Department. The bid security of successful bidders will be held until the contract awarded has been completed, at which time it will be returned to vendor. Check bid securities of unsuccessful bidders will be returned at time of bid award. (Bid Bonds are not returned)

Upon receipt of written notice of the acceptance of this bid, Bidder will execute the formal contract attached within 5 days and deliver a Surety Bond or Bonds as required by Part A:5 "Instructions to Bidders".

The bid security attached in the amount of 5% of the bid amount is to become the property of the Owner in the event the contract and bond are not executed within the time set forth, as liquidated damages for the delay and additional expense to the Owner caused thereby.

- The undersigned agrees and promises, in submitting this proposal, that if issued a Letter of Intent or a Formal Agreement, he will execute the required Agreement without alterations within five (5) days, immediately furnish Performance Bond and Labor and Material Payment Bond, Insurance Policy and Certificate of Insurance.
- The undersigned understands that the Owner reserves the right to accept, reject or negotiate any and/or all bids and waive any informality in the bidding. Final award is subject to approval by the Owner.
- The undersigned acknowledges receipt of Addendum(s)

BID PACKAGES / BID PROPOSAL FORMS

To: Idaho Transportation Department
206 N. Yellowstone Ave.
Rigby, ID 83442

Bid Due by: 9:29:59 AM
Bid Date: 03/13/2025

Bid Package #: 08
Bid Package Name: Rough Carpentry
FM Global #: FM62516

Submitted by: _____

In compliance with the Advertisement for Bids for construction of the **ITD D6 Salmon Maintenance Shed Addition and Modifications** and having examined the Contract Documents and Site of Proposed Work, and being familiar with all of the conditions surrounding the construction of the proposed project, including availability of materials and labor, the undersigned hereby proposes to furnish all labor, materials, supplies, equipment, supervision and insurance in accordance with the Contract documents, within the time set forth therein, and at the price stated below. This price is to cover all expenses incurred in performing the work required under the Contract documents, of which this Proposal is a part.

Bidder hereby agrees to commence work under this contract on or before a date to be specified in written "Notice to Proceed" by the Owner and substantially complete the project within the times stipulated in the enclosed construction schedule. Bidder further agrees to pay as liquidated damages the sum of \$500 for each consecutive calendar day after the established date for providing of submittals and/or sum of \$1,000 for each consecutive day after the established substantial completion date or adjusted date as established by change order as here in after.

Division 01 – General Requirements*

Division 03 – Concrete*
Section 061000 – Rough Carpentry
Section 061053 – Miscellaneous Rough Carpentry
Section 072500 – Weather Barriers

Reference structural drawings for additional rough carpentry specifications.

*(As applicable to this work)

Note: All Contract Documents Apply – Bidding Contractors are responsible for all pages of addendums including attachments.

Bidding Requirements: In addition to the work required in the above Sections, this bid package overview includes but is not limited to the following:

Provide labor, supervision, and equipment to provide and install all required **Rough Carpentry** in accordance with the contract documents and as described below. It is the responsibility of this contractor to layout and field measure the conditions at the project site prior to installation of all rough carpentry items deemed necessary.

This Contractor is to furnish and install the following:

- All wood framing / rough carpentry.
- Field measuring.
- Coordination of all concrete embedded hardware.
- Supply and install of nails and adhesives by this contractor.
- Dimensional Lumber including studs, headers, top plates, sole plates, and pressure treated wood.
- 2x Sub-fascia board.
- 2x6 Outriggers
- 2x12 nailers fastened to joists.
- ¾" Fascia board
- Sill plates at top of masonry walls
- All blocking. This may require multiple mobilizations.
- 2x Nailers at parapets and tops of CMU walls where required for roofing assemblies (i.e. both nailers shown on 1/A109).
- Head framing at door openings.
- Engineered wood products including sheathing, OSB, plywood, joists, beams, Ledgers, glue-lams, and all other engineered wood products.
- Blocking for roof drains
- All trusses and joists.
- Supply and install all trusses, joists, and required blocking.
- Notch holes in sheathing as required for venting.
- Miscellaneous lumber including all blocking, backing, web stiffeners, shims, and furring.
- Fasteners, anchors, hangers, ties and hold downs.
- All Simpson Hardware.
- All holddowns
- All Titen bolts.
- Tyvek-style vapor barrier. Fluid applied weather barrier may be used in lieu of Tyvek if it is the contractor's preference.
- Submittals, site specific safety plan, daily clean-up for this contractor's work.

All craning, hoisting, scaffolding, machinery, or equipment required to complete the installation of this scope of work is the responsibility of this Contractor.

The scope outlined above is to be used as a reference only and should not be considered exhaustive. It is the responsibility of the bidding Contractor to review all contract documents to provide a complete and responsive bid for their trade and include all items in accordance with the plans and specifications.

General Notes:

This Contractor shall properly cover and protect the work of others from damage or soiling due to the performance of this work and shall properly clean, restore, replace, and pay for cleaning, restoration, or replacement of any such work damaged or soiled in the performance of this work.

This Contractor will commit to allocating sufficient quantities of manpower, material, and equipment to this project to meet the construction schedule established by the Construction Manager.

This Contractor will coordinate all activities with all other trades to allow for timely construction activities throughout the duration of the project.

This Contractor is to provide, install, and remove any safety equipment required to perform this work.

This bid includes all warranties per specification.

This bid package does not include:

- Installation of embeds in concrete (Coordination by this contractor).

This contractor will adhere to and include FM Global requirements in the performance of their work. The FM number for this bid package is Rough Carpentry

Bidder hereby agrees to commence work under this contract on or before a date to be specified in written "Notice to Proceed" by the Owner and substantially complete the project within the times stipulated in the enclosed construction schedule. Bidder further agrees to pay as liquidated damages the sum of \$500 for each consecutive calendar day after the established date for providing of submittals and/or sum of \$1,000 for each consecutive day after the established substantial completion date or adjusted date as established by change order as here in after.

Division 1 – General Requirements*

Section 081214 – Standard Steel Frames

Section 081314 – Standard Steel Doors

Section 081416 – Flush Wood Doors

Section 083113 – Access Doors and Frames

Section 087100 – Door Hardware

Section 088000 – Glazing *

*(As applicable to this work)

Note: All Contract Documents Apply – Bidding Contractors are responsible for all pages of addendums including attachments.

Bidding Requirements: In addition to the work required in the above Sections, this bid package overview includes but is not limited to the following:

Provide labor, materials, supervision, and equipment required to furnish and install all **Doors, Frames, and Hardware** in accordance with the bid documents.

This Contractor is to furnish and install the following:

- All Hollow metal / Wood doors and frames (Including at Pre-engineered metal building).
- Vision lites.

- Door hardware.
- Install all glazing in doors.
- Caulking, sealant and gaskets for this Contractors work.
- Door gasketing as required where indicated or scheduled.
- Supply frame anchors (supplied by others)
- Hollow metal door frames installed in masonry applications will be installed by masonry contractor. Ensure schedule compliance with this activity.
- Verify with structural plans for areas with increased throat sizes due to additional shear sheathing.
- Submittals, site specific safety plan, daily clean-up for this contractor's work.

All craning, hoisting, machinery, or equipment required to complete the delivery and installation of this scope of work is the responsibility of this Contractor.

The scope outlined above is to be used as a reference only and should not be considered exhaustive. It is the responsibility of the bidding Contractor to review all bid documents to provide a complete and responsive bid for their trade and include all items in accordance with the plans and specifications.

General Notes:

This Contractor shall properly cover and protect the work of others from damage or soiling due to the performance of this work and shall properly clean, restore, replace, and/or pay for the cleaning, restoration, or replacement of any such work damaged or soiled in the performance of this work.

This Contractor will commit to allocating sufficient quantities of manpower, material, and equipment to this project to meet the construction schedule established by the Construction Manager.

This Contractor will coordinate all activities with all other trades to allow for timely construction activities throughout the duration of the project.

This Contractor is to provide, install, and remove any safety equipment required to perform this work.

This bid includes all warranties per specification.

This bid package does not include:

- OH Doors for Pre-engineered metal building
- Glazing

This contractor will adhere to and include FM Global requirements in the performance of their work. The FM number for this bid package is Doors, Frames and Hardware

Base Bid

Furnish and install (Including all applicable taxes, permits, labor, material, equipment, payment and performance bonds)

Base Bid: \$ _____

Written Amount:

(Amount shall be shown in both words and figures. In case of discrepancy, the amount shown in word will govern).

Bidder understands that the Owner reserves the right to reject any or all bids and to waive any informality in the bidding.

The bidder agrees that this bid shall be good and may not be withdrawn for a period of 60 calendar days after the scheduled closing time for receiving bids.

All bids must be accompanied by a Bid bond issued by a surety company authorized to issue such bonds in the State of Idaho, or a Certified Check or Bank Cashiers Check, each in an amount not less than 5% of the total bid, made payable to the Idaho Transportation Department. The bid security of successful bidders will be held until the contract awarded has been completed, at which time it will be returned to vendor. Check bid securities of unsuccessful bidders will be returned at time of bid award. (Bid Bonds are not returned)

Upon receipt of written notice of the acceptance of this bid, Bidder will execute the formal contract attached within 5 days and deliver a Surety Bond or Bonds as required by Part A:5 "Instructions to Bidders".

The bid security attached in the amount of 5% of the bid amount is to become the property of the Owner in the event the contract and bond are not executed within the time set forth, as liquidated damages for the delay and additional expense to the Owner caused thereby.

- The undersigned agrees and promises, in submitting this proposal, that if issued a Letter of Intent or a Formal Agreement, he will execute the required Agreement without alterations within five (5) days, immediately furnish Performance Bond and Labor and Material Payment Bond, Insurance Policy and Certificate of Insurance.
- The undersigned understands that the Owner reserves the right to accept, reject or negotiate any and/or all bids and waive any informality in the bidding. Final award is subject to approval by the Owner.

Bid Due by: 10:44:59 AM
Bid Date: 03/13/2025

Bid Package #: 13
Bid Package Name: Aluminum Storefront, Glass and Glazing
FM Global #: FM62524

Submitted by: _____

In compliance with the Advertisement for Bids for construction of the **ITD D6 Salmon Maintenance Shed Addition and Modifications** and having examined the Contract Documents and Site of Proposed Work, and being familiar with all of the conditions surrounding the construction of the proposed project, including availability of materials and labor, the undersigned hereby proposes to furnish all labor, materials, supplies, equipment, supervision and insurance in accordance with the Contract documents, within the time set forth therein, and at the price stated below. This price is to cover all expenses incurred in performing the work required under the Contract documents, of which this Proposal is a part.

Bidder hereby agrees to commence work under this contract on or before a date to be specified in written "Notice to Proceed" by the Owner and substantially complete the project within the times stipulated in the enclosed construction schedule. Bidder further agrees to pay as liquidated damages the sum of \$500 for each consecutive calendar day after the established date for providing of submittals and/or sum of \$1,000 for each consecutive day after the established substantial completion date or adjusted date as established by change order as here in after.

Division 01 – General Requirements*

Section 081214 – Standard Steel Frames *

Section 081314 – Standard Steel Doors *

Section 081416 – Flush Wood Doors *

Section 084113 – Aluminum Framed Entrances and Storefronts

Section 087100 – Door Hardware

Section 088000 – Glazing

*(As applicable to this work)

Note: All Contract Documents Apply – Bidding Contractors are responsible for all pages of addendums including attachments.

Bidding Requirements: In addition to the work required in the above Sections, this bid package overview includes but is not limited to the following:

Provide labor, materials, supervision, and equipment required to furnish and install all **Aluminum Storefront, Glass and Glazing** in accordance with the bid documents.

This Supplier is to furnish the following:

- All aluminum storefront systems, frames, glass and glazing.
- Aluminum storefront hardware.

- Door glazing.
- Tempered / fire rated glazing where required.
- All flashings touching this scope of work.
- Submittals, site specific safety plan, daily clean-up for this contractor's work.

All craning, hoisting, machinery, or equipment required to complete the delivery and installation of this scope of work is the responsibility of this Contractor.

The scope outlined above is to be used as a reference only and should not be considered exhaustive. It is the responsibility of the bidding Supplier to review all contract documents to provide a complete and responsive bid for their trade and include all items in accordance with the plans and specifications.

General Notes:

This Supplier will commit to allocating sufficient quantities of manpower, material, and equipment to this project to meet the construction schedule established by the Construction Manager.

This bid includes all warranties per specification.

This contractor will adhere to and include FM Global requirements in the performance of their work. The FM number for this bid package is Aluminum Storefront, Glass and Glazing

*(As applicable to this work)

Note: All Contract Documents Apply – Bidding Contractors are responsible for all pages of addendums including attachments.

Bidding Requirements: In addition to the work required in the above Sections, this bid package overview includes but is not limited to the following:

Provide labor, materials, supervision, and equipment for all **Painting and Concrete Sealing** in accordance with the bid documents.

This Contractor is to furnish and install primer, paint, high performance coatings and stain as applicable for the following:

- Surface preparation, removal of plates, trim and fittings necessary prior to painting.
- Clean and prep existing north wing canopy for new paint.
- Paint existing north wing canopy.
- Paint pre-engineered metal building. The building will come shop primed.

- Clear seal exposed wood beams.
- Paint underside of exposed deck and joists.
- All epoxy paint as required.
- Paint bottom panel of overhead doors high-vis yellow (both sides).
- Paint steel bollards.
- Paint sills at kalwall windows
- Epoxy floor paint
- Provide extra paint materials as specified.
- All exposed metal fabrications as noted.
- Gypsum walls, soffits and ceilings.
- Hollow metal frames and doors.
- Louvers, grills, covers and access panels.
- All duct work, conduit, boxes and piping exposed to view.
- Surface Preparation.
- Include an allowance of 40 hours of labor and necessary material for touch-up painting. This allowance does not include mobilization or travel time.
- Provide and install all sealed concrete.
- Concrete hardener and sealer at all locations as noted.
- All concrete aprons and sidewalk slabs to receive Sekagard 705L or equal sealer.
- Temporary lighting – minimum 200 W light source, placed 8' above floor surface for every 425 square feet of floor being finished is the responsibility of this contractor.
- Joint sealants for this scope of work.
- Clean and prep existing concrete aprons to receive new slab sealer.
- Submittals, site specific safety plan, daily clean-up for this contractor's work.

All craning, hoisting, machinery, scaffold, or equipment required to complete the delivery and installation of this scope of work is the responsibility of this Contractor.

The scope outlined above is to be used as a reference only and should not be considered exhaustive. It is the responsibility of the bidding Contractor to review all bid documents to provide a complete and responsive bid for their trade and include all items in accordance with the plans and specifications.

General Notes:

This Contractor shall properly cover and protect the work of others from damage or soiling due to the performance of this work and shall properly clean, restore, replace, or pay for the cleaning, restoration, or replacement of any such work damaged or soiled in the performance of this work.

This Contractor will commit to allocating sufficient quantities of manpower, material, and equipment to this project to meet the construction schedule established by the Construction Manager.

This Contractor will coordinate all activities with all other trades to allow for timely construction activities throughout the duration of the project.

This Contractor is to provide, install, and remove any safety equipment required to perform this work.

This bid includes all warranties per specification.

This contractor will adhere to and include FM Global requirements in the performance of their work. The FM number for this bid package is Painting and Concrete Sealing

Base Bid

Furnish and install (Including all applicable taxes, permits, labor, material, equipment, payment and performance bonds)

Base Bid: \$ _____

Written Amount:

(Amount shall be shown in both words and figures. In case of discrepancy, the amount shown in word will govern).

Bidder understands that the Owner reserves the right to reject any or all bids and to waive any informality in the bidding.

The bidder agrees that this bid shall be good and may not be withdrawn for a period of 60 calendar days after the scheduled closing time for receiving bids.

All bids must be accompanied by a Bid bond issued by a surety company authorized to issue such bonds in the State of Idaho, or a Certified Check or Bank Cashiers Check, each in an amount not less than 5% of the total bid, made payable to the Idaho Transportation Department. The bid security of successful bidders will be held until the contract awarded has been completed, at which time it will be returned to vendor. Check bid securities of unsuccessful bidders will be returned at time of bid award. (Bid Bonds are not returned)

Upon receipt of written notice of the acceptance of this bid, Bidder will execute the formal contract attached within 5 days and deliver a Surety Bond or Bonds as required by Part A:5 "Instructions to Bidders".

The bid security attached in the amount of 5% of the bid amount is to become the property of the Owner in the event the contract and bond are not executed within the time set forth, as liquidated damages for the delay and additional expense to the Owner caused thereby.

- The undersigned agrees and promises, in submitting this proposal, that if issued a Letter of Intent or a Formal Agreement, he will execute the required Agreement without alterations within five (5) days, immediately furnish Performance Bond and Labor and Material Payment Bond, Insurance Policy and Certificate of Insurance.
- The undersigned understands that the Owner reserves the right to accept, reject or negotiate any and/or all bids and waive any informality in the bidding. Final award is subject to approval by the Owner.
- The undersigned acknowledges receipt of Addendum(s)

BID PACKAGES / BID PROPOSAL FORMS

To: Idaho Transportation Department
206 N. Yellowstone Ave.
Rigby, ID 83442

Bid Due by: 1:29:59 PM
Bid Date: 03/13/2025

Bid Package #: 24
Bid Package Name: Fire Suppression
FM Global #: FM62532

Submitted by: _____

In compliance with the Advertisement for Bids for construction of the **ITD D6 Salmon Maintenance Shed Addition and Modifications** and having examined the Contract Documents and Site of Proposed Work, and being familiar with all of the conditions surrounding the construction of the proposed project, including availability of materials and labor, the undersigned hereby proposes to furnish all labor, materials, supplies, equipment, supervision and insurance in accordance with the Contract documents, within the time set forth therein, and at the price stated below. This price is to cover all expenses incurred in performing the work required under the Contract documents, of which this Proposal is a part.

Bidder hereby agrees to commence work under this contract on or before a date to be specified in written "Notice to Proceed" by the Owner and substantially complete the project within the times stipulated in the enclosed construction schedule. Bidder further agrees to pay as liquidated damages the sum of \$500 for each consecutive calendar day after the established date for providing of submittals and/or sum of \$1,000 for each consecutive day after the established substantial completion date or adjusted date as established by change order as here in after.

Division 01 – General Conditions*

Section 079200 – Joint Sealants*

Division 23 – HVAC*

Division 26 – Electrical*

Division 22 – Plumbing*

Division 21 - Fire Suppression

* (As applicable to this work)

Note: All Contract Documents Apply – Bidding Contractors are responsible for all pages of addendums including attachments.

Bidding Requirements: In addition to the work required in the above Sections, this bid package overview includes but is not limited to the following:

Provide labor, materials, supervision, and equipment for a complete installation of **Fire Suppression System** in accordance with the bid documents.

This Contractor is to furnish and install the following:

- Fire suppression systems to include installing all below grade fire lines, piping, accessories and fire riser including site fire lines and thrust blocks as needed.

- Coordinate with earthwork bid package for fire protection underground responsibilities. If there is a component required for a full, complete, and operational fire suppression system that is not in the earthworker's bid package, it is the responsibility of this contractor.
- All fire department connections.
- Oversee fire sprinkler line installations to first flange. All trenching, bedding, backfill, and compaction for fire lines is the responsibility of this contractor.
- All piping, sprinkler heads, alarm valves, switches, hangars, bracing, isolators and seismic bracing.
- Wet riser, double check backflow preventor, all valves, pressure gauge, flow switch.
- Post indicator valve on all fire line services.
- Fire protection pipe identification.
- Submit complete layout to underwriters having jurisdiction and State Fire Marshal for approval.
- Fees due to regulatory agencies.
- Complete design, installation, and certification.
- Permits, submittals, shop drawings, site specific safety plan, daily clean-up for this contractor's work.

All material and installations, including sway bracing shall be in compliance with all applicable N.F.P.A. Standards, state and local codes.

All craning, hoisting, machinery, or equipment required to complete the delivery and installation of this scope of work is the responsibility of this Contractor.

The scope outlined above is to be used as a reference only and should not be considered exhaustive. It is the responsibility of the bidding Contractor to review all bid documents to provide a complete and responsive bid for their trade and include all items in accordance with the plans and specifications.

General Notes:

This Contractor shall properly cover and protect the work of others from damage or soiling due to the performance of this work and shall properly clean, restore, replace, and/or pay for the cleaning, restoration, or replacement of any such work damaged or soiled in the performance of this work.

This Contractor will commit to allocating sufficient quantities of manpower, material, and equipment to this project to meet the construction schedule established by the Construction Manager.

This Contractor will coordinate all activities with all other trades to allow for timely construction activities throughout the duration of the project.

This Contractor is to provide, install, and remove any safety equipment required to perform this work.

This bid includes all warranties per specification.

This bid package does not include:

- Final electrical connections are to be by the electrical contractor.
- Fire stopping / Penetration fire stopping

This contractor will adhere to and include FM Global requirements in the performance of their work. The FM number for this bid package is Fire Suppression

Note: All Contract Documents Apply – Bidding Contractors are responsible for all pages of addendums including attachments.

Bidding Requirements: In addition to the work required in the above Sections, this bid package overview includes but is not limited to the following:

Provide labor, materials, supervision, and equipment to furnish and install all **Plumbing** in accordance with the bid documents.

This Contractor is to furnish and install the following:

- Coordinate with demolition contractor and electrical contractor to disconnect wellp pump, pressure tank, and controls. Reconnect well to new building and wash rack following construction of the new building.
- Coordinate with demolition contractor for plumbing demolition requirements. Dahle Construction is the demolition contractor.
- All plumbing fixtures and equipment per schedule including trench drains. Trench drain concrete by others.
- All supply and DWV lines.
- Seismic restraints, bracing, etc. for this contractor's scope of work.
- Pipe insulation as required.
- Plumbing scope of work will begin at 5' out from the building. Coordinate with earthwork bid package. Final utility connections will be the responsibility of this contractor.
- Connections to owner-provided plumbing equipment is the responsibility of this contractor (Hotsy, Air hose reels, etc.)
- Fiberglass shower surround
- ADA Shower heads
- All trenching, bedding, backfill, and compaction within 5' of the building is the responsibility of this contractor.
- Grease interceptor to be provided and installed by civil contractor.
- Install owner provided air compressor and hotsy.
- Air lines at oil drums (drums by owner).
- Floor drains at vehicle lift.
- Roof drains
- Lamb tongue discharges for roof drains. Coordinate with masonry contractor for installation blockouts.
- Weatherproofing this contractor's roof penetrations per plan is the responsibility of this contractor.
- All plumbing systems, items and accessories including pumps, valves, clean-outs, trap primer, trim and piping. Include all pipe hangers, supports, pads, pipe insulation, waste and vent piping and miscellaneous steel required.
- Gas piping.
- Thru-roof piping and penetration.
- All condensate piping / waste and vent systems.
- Identification for plumbing piping and equipment.
- Core drilling, wall penetrations, floor penetrations, roof penetrations or trenching required for plumbing systems.
- All underground and under-slab piping, rough-in, trenching, backfill and compaction.
- Sealants and caulking for own work.
- Tie in to site utilities within 5 feet of the building structure.
- Connection and testing at tie in from building structure piping to site utilities.
- Permits, fees, submittals, shop drawings, site specific safety plan, daily clean-up for this contractor's work.

All craning, hoisting, machinery, or equipment required to complete the delivery and installation of this scope of work is the responsibility of this Contractor.

The scope outlined above is to be used as a reference only and should not be considered exhaustive. It is the responsibility of the bidding Contractor to review all bid documents to provide a complete and responsive bid for their trade and include all items in accordance with the plans and specifications.

General Notes:

This Contractor is to coordinate fully and timely with other contractors and as necessary to ensure systems are fully operational and produce detailed coordination drawings showing relationship, dimensional spacing, elevations, etc. of all necessary architectural, structural, fire protection, mechanical and electrical work. This Contractor to coordinate work with Mechanical and Electrical Contractor.

This Contractor will commit to allocating sufficient quantities of manpower, material, and equipment to this project to meet the construction schedule established by the Construction Manager.
