Teen Driver (ages 15-19) Crash Summary

Summary

At the Idaho Transportation Department (ITD) our Strategic Plan is “Your Safety, Your Mobility, Your Economic Opportunity.” ITD is committed to providing the safest transportation system possible. Each year progress is made to eliminate death and serious injuries (SI) on Idaho’s highways. Traffic safety professionals have addressed behaviors, infrastructure improvements and enforcement countermeasures to reduce crashes. The goal, “Toward Zero Deaths,” is the foundation upon which we work.

All data and tables are 5 years of data, (2012-2016) except for the Fatalities and Serious Injuries graphs which are 10 years of data (2007-2016). The source of the crash information is the ITD statewide crash database which consists of crash reports completed by all law enforcement agencies in Idaho.

# Teen Driver (ages 15-19) Crash Summary

## Top Ten Counties

The graph shows the percent of crashes in the county compared to the percent of licensed drivers in a county.

## Age of Drivers

Percentage of youthful driver fatal and serious injury crashes by gender and age. Percentages are based on crashes involving 15-19 year old drivers, not on all crashes.

*This graph represents some of the other contributing factors or characteristics in fatal and serious injury teen driving crashes. Aggressive, distracted and impaired are based on the behavior of the teen driver only.*
