The Idaho Transportation Department Office of Highway Safety's Distracted Driving Task Force purpose is to promote "attentive driving for life" through community outreach by supporting statewide education, communication and enforcement. This year, the Task Force has teamed with Idaho law enforcement personnel to provide outreach and education to motorists on distracted driving as part of the "Just Drive Aware" campaign.

In an effort to provide materials for outreach and education, and to help raise awareness about the dangers of distracted driving, the Distracted Driving Task Force generated a toolkit of information for public use and mass distribution.
