GENERAL SCOPE OF WORK

This project proposes rehabilitating 0.58 miles of Annis Highway from 2nd North and 400 North in the City of Rigby. The roadway is narrow with limited/ no curb gutter or sidewalks.

This road is highly used by pedestrians and bicyclists and is a main access point to the City from State Highway 20. It provides access to multiple businesses, residents, and farm to market roads.

Crash data for this roadway reveals that multiple accidents have occurred along this route due to high volumes of traffic. This route is also used by children attending Harwood Elementary school nearby.

The project rehabilitation would include standard curb and gutter on both sides, stormwater drainage, ADA compliant sidewalk on both sides, and a new asphalt surface to replace the aging pavement.

This scope of work will include roadway design, stormwater drainage design, materials investigation and analysis, environmental research and analysis, and all corresponding reports/documentation and applicable permits will be required. The selected consultant(s) will be required to develop the project from concept through PS&E delivery and to be qualified in the following areas of expertise:

- Roadway Design
- Survey
- Environmental
- Geotechnical Investigation/Design
- Traffic Control Design
- Storm Water Pollution Prevention Plan Design
- Public Involvement
