

# U.S. 93, I-84 to SH-25 Project Report

As of March 1, 2018

Project Development, current construction projects, and upcoming construction

**US-93 100 SOUTH ROAD TO BUTTE DRIVE****Key Number:** 19134**Mileposts:** 57.23 to 59.49

**Project Description:** The project is expected to improve intersection safety and highway capacity by widening the roadway to two lanes in each direction, construction of turn bays at major intersections, and addition of a traffic signal at the Idaho Highway 25 intersection.

**Status:** Currently under contract for design services by an engineering consultant. The project is funded for construction in 2022.

**US-93, 200 SOUTH RD****Key Number:** 18737**Mileposts:** 55.16 to 57.23

**Project:** The project is expected to improve intersection safety and highway capacity by widening the roadway to two lanes in each direction, construction of turn bays at major intersections, reconstructing and lengthening irrigation crossing.

**Status:** Completing final design work in early 2018, funded for construction in 2019.

**US-93 300 SOUTH ROAD****Key Number:** 19943**Mileposts:** 55.16 to 56.23

**Project:** The project is expected to improve intersection safety and highway capacity by widening the roadway to two lanes in each direction, construction of turn bays at major intersections, reconstructing and lengthening irrigation crossing, reconstructing the railroad crossing south of 300 South Road and improving warning lighting.

**Status:** Beginning design of the project in summer, 2018. Funding for construction is scheduled for 2023.

**US-93, 400 SOUTH ROAD****Key Number:** 13521**Mileposts:** 53.84 to 55.16

**Project:** This project will realign of 1.3 miles of US-93, constructing two lanes in each direction turn lanes at major intersections, construction of frontage road on the west side, and minor reconstruction of a portion of 400 South Road.

**Status:** Currently under construction, expected to be complete in fall, 2018.

**US-93, 500 SOUTH ROAD****Key Number:** 13977**Milepost:** 53.63

**Project:** This project will consist of installing a traffic signal at the intersection of 500 South Road and construct new roadway in coordination with the Jerome Highway District.

**Status:** Currently under construction, expected to be complete in summer, 2018.
