RE: 2023 STIP Amendment #H10

Dear Mr. Stokes:

This approval amends the 2023 STIP to add 18 new projects, as requested in the attached ITD November 1, 2023, letter. This approval is based on the following:

- The changes to the program are not intermodal in nature and will not affect the State's conformity process and, therefore, FHWA has sole approval authority
- ITD certifies they have the mechanisms in place to ensure compliance with new rules required by the Bipartisan Infrastructure Law
- The funding projections were lower than anticipated and funds are available for the projects therefore, the state maintains fiscal constraint
- ITD continues to demonstrate progress toward addressing the corrective actions noted in the 2023 Federal Finding
- This action does not serve as an eligibility determination of approval of Federal participation as some programs may have additional program requirements

In consideration of the above, ITD's 2023 STIP Amendment #H10 is approved, as requested.

Sincerely,

Peter J. Hartman
Division Administrator

SUBJECT: FY 2023 – 2029 STIP AMENDMENT – November 1, 2023 # H10

Dear Mr. Hartman:

The attached list includes 18 new projects to the STIP. These were each included in the FY 2024 – 2030 Recommended Program approved by the Idaho Transportation Board at their September 21, 2023 meeting. These projects have preliminary engineering, right of way, or construction costs scheduled in FY 2024. These development costs are needed in FY 2024 so the projects can be started as soon as possible, so they were added as opposed to advancing existing STIP projects forward. The approved FY23 STIP had available funding estimates of \$1.4B in FY24. Our new funding estimates for the FY24 ITIP are \$1.8B available in FY24. The additional money being added to the program is covered by our increased funding estimates, therefore maintaining fiscal constraint of the STIP. These projects are all outside the MPO areas. Projects in the MPO areas will be submitted under separate cover.

The projects in this Amendment were included in the 10/20/23 – 10/29/23 public comment period, and comments were shared with IT Board members for consideration.

The Department requests that these projects be amended to the FY 2023 – 2029 STIP so that funds may be obligated as planned.

No further public involvement or air quality conformity analysis is required. The Idaho Transportation Department certifies that the above actions meet all applicable requirements as described in 23 CFR 450.218 of *Planning Assistance and Standards*. The STIP continues to be consistent with the Idaho Transportation Department's 2040 Long-Range Transportation Plan as approved by the Idaho Transportation Board in 2019.

Sincerely,

A handwritten signature in black ink that reads "Colleen Wonacott".

Colleen Wonacott
Program Control Manager, PMO
