Attn: Scott Frey, Transportation Engineer

RE: National Highway System - Network Error Corrections Request

Dear Mr. Hartman:

On behalf of Director Ness, I am responding to the letter dated 12/15/2014 provided by Scott Frey, FHWA's Transportation Engineer (see attached), requesting a list of proposed errors located on Idaho's National Highway System (NHS) network based on the following criteria:

1. Intended but unrecorded changes to the NHS as a result of highway construction projects; and
2. Additions to the NHS in conjunction with MAP-21 which were based on misinterpretation of Idaho's highway network.

I have attached FHWA's request letter as it contains more information on the types of errors that are of particular concern to at this time.

In collaboration with the Metropolitan Planning Organizations, Highway Districts and other local jurisdiction, a list of proposed changes and associated maps have been compiled and provided for your review (see Attachments), as well as, shapefile data provided electronically. Note the following coding applies to the shapefile data:

- NHS Action: 1 – Add / 2 – Remove
- Reason: 1 – Unrecorded Change / 2 – MAP-21 misinterpretation
- ITD_Rec: 1 – Approve / 2 - Deny

If you should have any questions or concerns, please do not hesitate to contact me at (208) 334-8552 or Erika.Bowen@itd.idaho.gov; or Maranda Obrey at (208) 334-8483 or Maranda.obray@itd.idaho.gov.

Sincerely,

A handwritten signature in black ink that reads "Erika R. Bowen".

Erika Bowen, P.E.
Planning Services Manager
