- Identify topics for further informational campaigns
- Support follow-up items regarding transportation planning

## What did you tell us?

... That your **PRIMARY MODE OF TRANSPORTATION** is ...

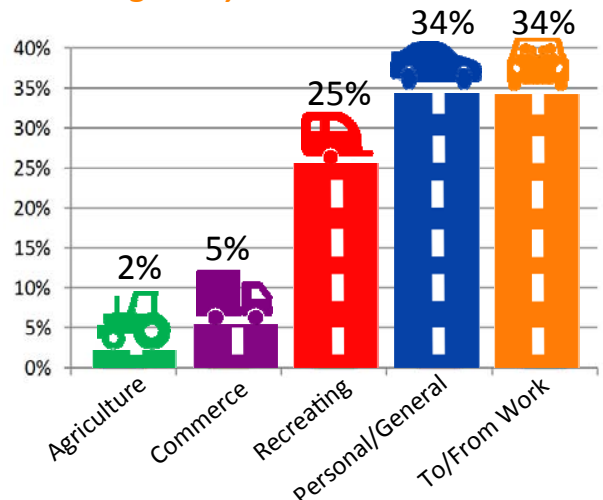

THANK YOU!

ITD thanks the participants of the survey for volunteering their time to provide input. If you did not have a chance to participate in the first round, you still have another opportunity in the fall of 2018. This next occasion to participate in the

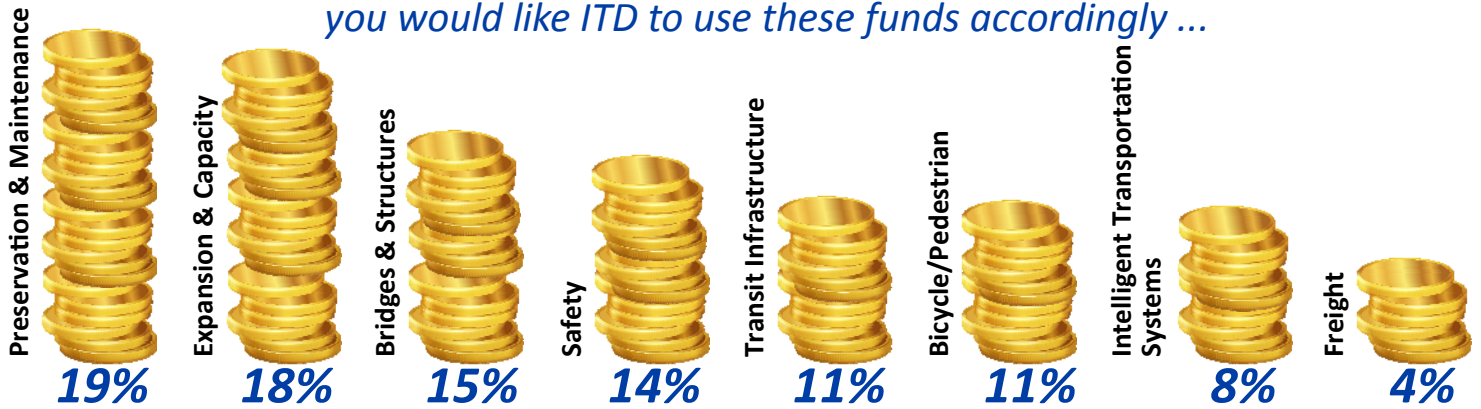

development of ITD's Long-Range Transportation Plan will allow for citizens to give feedback on the draft plan.

... That your **TOP USE** for the highway is ...

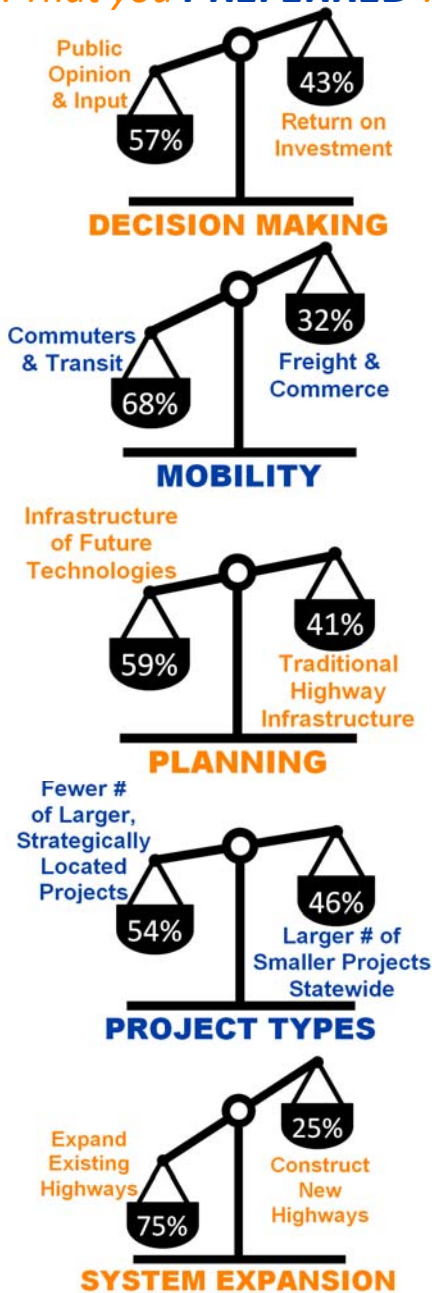

# We heard what you said ...

... In the event that ITD received **ADDITIONAL UNEARMARKED FUNDING**, you would like ITD to use these funds accordingly ...

... That you **PREFERRED** ...

... That your **STRATEGY** for ITD to meet its mission of safety, mobility and economic opportunity is ...

## 1 Congestion & Delay Relief

Keep traffic moving on existing infrastructure by increasing capacity, and improving system reliability.

## 2 Preservation & Maintenance

Maintain highways and bridges across Idaho in a state of good repair.

## 3 Idaho's Environment

Minimize adverse impacts to the environment.

## 4 Transportation Options

Provide access to biking, walking, ADA accommodation and transit options to enhance the transportation system.

## 5 Innovation

Continue being innovative and efficient and use savings to maintain and fix our roads and bridges.

## 6 Airport Development

Maintain existing airport infrastructure and provide expansion as needed

## 7 Data Analytics

Collect data to assess the efficiency, effectiveness, safety and performance of the transportation network.

## 8 Outreach & Education

Continually inform and educate the public.
