

RP 290 – Development of a Web-Based Environmental Document Prep and data Management System to Support Project Delivery.

- Project Description:
Currently at ITD the process of compiling, reviewing, communicating, and approving National Environmental Policy Act (NEPA) Categorical Exclusions (CEs) is accomplished manually, with no dedicated electronic system tracking. Many processes and procedures are only known to long-term ITD staff who are soon retiring. This project will develop an online CE tracking application that will capture that vital information and allow for a more streamlined process.
- Project Objective:
The objectives of this project include:
 - Developing an online CE system that will streamline the environmental process to reduce project delivery risks associated with NEPA compliance and permitting.
 - Developing guidance and training for staff on the use of the new application.
- Estimated Completion Date: April, 30. 2021
- Budget: \$232,752
- Project Manager: Aimee Hill, 208-334-8030 aimee.hill@itd.idaho.gov
- Principal Investigator: Eshwara Kancherla eshwara.kancherla@itd.idaho.gov
- TAC Members:
 - Wendy Terlizzi, (208) 334-8629 wendy.terlizzi@itd.idaho.gov
 - Randi Bristol-Hogue, (208) 334-8133 randi.bristol-hogue@itd.idaho.gov
- FHWA Advisor: Brent Inghram, 208-334-9180 brent.inghram@dot.gov
