NOTES:
1. USE 2" PC FROM EACH SIGNAL SIDE "POC" JUNCTION BOX TO EACH SIGNAL POLE BASE.
2. ALL NON-METALLIC RACEWAYS SHALL HAVE A #8 THWN GROUND CONDUCTOR.
3. SEE SIGNAL INTERSECTION PLAN SHEET FOR LOCATION OF JUNCTION BOXES.
4. VIDEO DETECTION CABLE SHALL BE TO THE MANUFACTURER'S SPECIFICATIONS, LEAVE 10' OF SPARE WIRE AT THE CABINET AND AT THE CAMERA LOCATIONS.

SYMBOLOLOGY CHART

- Denotes multi-conductors or cable assemblies (IMSA 19-1 or 20-1)
- Indicates individual conductors or conductor breakout from cable or bundle.
- Denotes number of conductors and/or cable(s) per conduit.
- Denotes conduit size and type.

- Denotes individual conductors or conductor breakout from cable or bundle.
- Denotes conduit size and type.
- Denotes number of conductors and/or cable(s) per conduit.

- Denotes multi-conductors or cable assemblies (IMSA 19-1 or 20-1)
- Indicates individual conductors or conductor breakout from cable or bundle.
- Denotes number of conductors and/or cable(s) per conduit.
- Denotes conduit size and type.

- Denotes multi-conductors or cable assemblies (IMSA 19-1 or 20-1)
- Indicates individual conductors or conductor breakout from cable or bundle.
- Denotes number of conductors and/or cable(s) per conduit.
- Denotes conduit size and type.

- Denotes multi-conductors or cable assemblies (IMSA 19-1 or 20-1)
- Indicates individual conductors or conductor breakout from cable or bundle.
- Denotes number of conductors and/or cable(s) per conduit.
- Denotes conduit size and type.

- Denotes multi-conductors or cable assemblies (IMSA 19-1 or 20-1)
- Indicates individual conductors or conductor breakout from cable or bundle.
- Denotes number of conductors and/or cable(s) per conduit.
- Denotes conduit size and type.

- Denotes multi-conductors or cable assemblies (IMSA 19-1 or 20-1)
- Indicates individual conductors or conductor breakout from cable or bundle.
- Denotes number of conductors and/or cable(s) per conduit.
- Denotes conduit size and type.

- Denotes multi-conductors or cable assemblies (IMSA 19-1 or 20-1)
- Indicates individual conductors or conductor breakout from cable or bundle.
- Denotes number of conductors and/or cable(s) per conduit.
- Denotes conduit size and type.

- Denotes multi-conductors or cable assemblies (IMSA 19-1 or 20-1)
- Indicates individual conductors or conductor breakout from cable or bundle.
- Denotes number of conductors and/or cable(s) per conduit.
- Denotes conduit size and type.

- Denotes multi-conductors or cable assemblies (IMSA 19-1 or 20-1)
- Indicates individual conductors or conductor breakout from cable or bundle.
- Denotes number of conductors and/or cable(s) per conduit.
- Denotes conduit size and type.

- Denotes multi-conductors or cable assemblies (IMSA 19-1 or 20-1)
- Indicates individual conductors or conductor breakout from cable or bundle.
- Denotes number of conductors and/or cable(s) per conduit.
- Denotes conduit size and type.
