Section 7: Official SHPO Response
The Idaho SHPO has reviewed the documentation and recommendations provided by Idaho Transportation Department (ITD):

Any questions please email:

shpo@ishs.idaho.gov

Section 7: Official SHPO Response

Project Finding of Effect:

- ☐ We concur with the finding of effect of No Adverse Effect and with the conditions of compliance (if applicable).
- ☒ We concur with the finding of effect of No Adverse Effect, given stipulations explained below.
- ☐ We disagree with the finding of effect of No Adverse Effect, as explained below or in the attached letter.
- ☐ No Comment

Date 03/15/2024

Deputy State Historic Preservation Officer

SHPO Comments: Thank you for coordinating with our office. Because the project was submitted before ICRIS launched, we have made the necessary resource record updates. including Linear Segment Forms for the Tyhee Lateral and Wasteway Canals.

Please note that in your next project, Noted But Not Recorded (NBNR) should not be used. The segment of the Union Pacific Railroad (10JF258) in your project area should have been updated, because it is a linear resource that runs directly through the APE. You may list resources within the project area as "Exempted Resources." These resources may be ones that were exempted through an ACHP Program Comment, SHPO policy, or due to age. Please contact our office should you have any questions or concerns.
