RE: I-84, Burley IC and I-84 Heyburn IC, Mindoka County (Key Number 23344 and 23345)  
June 2023 Project Pre-Advertisement Presentation Meeting Invitation

**To Interested Construction Contractors:**

ITD invites interested contractors to participate in the pre-advertisement presentation meeting on September 19, 2023 for the construction advertisement of the two interchange (IC) replacement projects, the Burley IC and Heyburn IC, in Minidoka County. The projects are located on Interstate 84 at mileposts 208 (intersection with SH-27) and milepost 211 (intersection with US-30 and SH-24). ITD is preparing to advertise the projects separately this fall, and both will be completely state-funded.

The Burley IC project will include the removal of the five existing ramps and reconstruct four new ramps, replacement of the two SH-27 bridges over I-84 and the two I-84 bridges over the B4 Canal, two new signalized intersections with the ramps and SH-24, and both concrete and asphalt paving.

The Heyburn IC project will include removal and re-configuration of the existing interchange, which includes replacement of the two I-84 bridges that go over SH-24, railroad, and Lower B Canal. It also includes a new bridge over I-84 east SH-24 with new ramps, a signalized intersection at US-30 and the I-84 ramp, and reconstruction of nearly a mile of I-84 and a half mile of SH-24/US-30 will have asphalt paving.

At the pre-advertisement meeting, ITD will present an overview of the project scope and key features, including some unique staging and embankment monitoring/sequencing. This will help both ITD and the contracting community communicate for a successful project overall.

ITD is asking for your active participation. ITD will publish a Webex link on our "Notice to Contractors" website (<https://apps.itd.idaho.gov/Apps/contractors/ntc.htm>) for the pre-advertisement presentation scheduled to begin at 9:00 a.m. (MST) on Tuesday, September 19, 2023.

For more information, please contact ITD Project Manager, Merrill Sharp, at (208) 334-4420.

Thank you,

Amy Schroeder, P.E.
