Re: Electronic Contract Execution PILOT

To All Potential Highway Construction Bidders,

Over the next few months, the Idaho Transportation Department (ITD) will be piloting electronic contract execution of smaller projects that are bid through ITD HQ Contracting Services section, specifically those that are found under the IRP Bidding | Infrastructure Related tab on our website. At the end of this period, we will assess the success of this initiative for all parties and will consider any feedback you want to provide to improve the pilot process. Any needed improvements or changes will be made after reviewing all comments. If substantive changes are needed another pilot will be launched. If only minor changes are needed, we will make them and remove pilot status and begin adoption of the process on our larger projects.

Please feel free to contact me if you have any questions or comments at 208.334.8502.

Thank you,

Monica Crider, PE
Idaho Transportation Department
Contracting Services Engineer
