Re: Revised Bidding and Contract Forms

To All Potential Highway Construction Bidders,

The Idaho Transportation Department (ITD) has recently evaluated our existing bidding and contract forms for highway construction contracts and has found opportunities for improvements. These improvements simplify our process by removing redundant or unnecessary information. The objective is to reduce the chances of irregularities and to make the process simpler for the bidders.

You will be seeing these new forms in the proposals and contract documents starting immediately. All of the revised forms have an August 2021 revision date in the upper right corner. As a general rule, please always make sure that you are using the documents that were included in the proposal by checking the revision date. The following forms have been revised:

- Bid/Surety Bond
- Bidder's Signature
- Contract Agreement
- Proposal
- Payment Bond
- Performance Bond
- IRP Communication Protocol
- State 95% Idaho Resident and Anti-Boycott Acknowledgement (Previously called the State 95% Form with added Anti-Boycott Israel certification required by Idaho Code)

Please feel free to contact me if you have any questions or comments at 208.334.8502.

Thank you,

Monica Crider, PE
Contracting Services Engineer
