INTRASTATE MIGRATION ESTIMATES
Based on Movement of Passenger Vehicles
By County, 2005 through 2015

We are frequently asked about the number of people moving from one county to another (intrastate movement). There is no database tracking people, but the movement of passenger vehicles (vans, cars, and pickup trucks) provides some general indications. These vehicles must be annually registered by county of owner's residence. On average, each driver in Idaho has 1.2 cars. Roughly, then each car below approximates one person but excludes children. For the past ten years, movement of vehicles into, and out of counties of residence are depicted on the table below. A more detailed matrix of Vehicle Movement Between Counties, is also on this website.

	2005			2006			2007			2008			2009			2010			2011			2012			2013			2014			2015			Ten Year Net Change
