Core Competencies

We are a traffic control business which provides “Safety First”, Professional and Certified Flagging and Traffic Control Sservices. We do construction site set up and signing, pilot car services and, labor (including erosion control such as silt fence, waddles, and geo fabric). Our services provide a safe atmosphere for all forms of traffic and your company and personel, in a construction work zone.

Past Performance

We completed a federal aid contract with Scarsella Brothers up near Plummer Idaho, Mactileme Creek Bridge replacement where we removed exisiting fence, installed silt fence and laid geo fabric and geo grid on a one mile long road construction project. As owner, I have 24 years in the field as a Certified Flagger and 16 years as a Traffic Control Supervisor/Technician/Maintenance and Construction Laborer, all my certification are maintained through American Traffic Safety Services Association (ATSSA).

Differentiators

A Native American/Woman owned business located on the Nez Perce Reservation in North Central Idaho; Certified Disadvantaged Business Enterprise (DBE) and a Certified Indian Business/Indian Preference (CIB) at Nez Perce and Coeur d'Alene Tribes.
