## Transportation Spotlight on ACHD Commuteride

Connie Edwards  
GRANTS/CONTRACTS OFFICER

Published 12/12/2024

Have you ever sat in traffic on your way to work and thought, *there must be an easier way?* Hello Ada County Highway District (ACHD) Commuteride!

ACHD's Commuteride works closely with individuals and employers to improve their region by providing commuter information, employer services and incentives to try a green commute.

Available options include:

- **Vanpools:** A vacation from your hectic commute. I'm sure you've seen the emails with the routes offered here at ITD. If you'd like more information, contact ACHD CommuteRide at 208.345.7665 and set up a ride today.
- **Carpools:** Share the road, ride together. ACHD will give you information about carpools that suit your needs or start one of your own.
- **Biking and walking:** Get moving and reap the rewards. Download the app and log your biking, walking or WFH time. They also will show your best commute path and can assist in finding someone in your area, so you don't have to go it alone.
- **Bus:** A connected commute. Rides are powered by Valleyride and you only ride until you reach your desired destination. You can find your start and end destinations. When you download the app, you can track your bus in real time and buy mobile passes.
